Course Description

This course is designed as a study of the elements and principles of design as they relate to the organization of the two-dimensional surface. The focus of the course is formally based with additional exploration of creative problem solving techniques, content, and contemporary art issues.

Course Objectives

Upon completion of this course, the student will have executed various abstract, non-objective, and representational designs in value and color, using wet, dry, and digital media. The student will have gained an understanding and appreciation of the formal aspects of 2D compositions and concept development. The student will be able to describe and analyze designs and images using appropriate terms and vocabulary. The development of good craftsmanship skills is integral to the course.

Student Expectations

Studio Projects: Designs and images addressing and illustrating the elements and principles of 2D surface design will be the emphasis of the course. All work submitted must be original and created only for this class. Assignments will be collected for grading on their assigned due dates. All studio projects will be viewed and discussed by the class. These critique sessions are important opportunities to exchange thoughts and ideas and should always be considered professional and not personal. In-process critiques will be conducted one-on-one during class time, as well as small group critiques leading to the due date.

Writings and Sketchbooks: You will be required to keep a sketchbook (approximately 9" x 12") with white, blank pages - no lined paper. This will contain thumbnail sketches for projects, visual and/or written responses related to exhibitions, articles, studio projects, videos, etc. It is important to keep your sketchbook neat and organized with dates, assignment criteria, and no loose pages.

Homework Environment: Students should create a studio environment in which to execute homework. In an ideal studio, a student should be able to work at various

distances, heights, and angles from the subject; move away from the work to view it at a distance; control lighting; work at various sizes, and create a desired environment – loud or quiet, bright or dark, etc. Working outside of class is an essential factor in successful completion of this course.

Work Ethics: Personal motivation and discipline are keys to a student's success in this course. These qualities are demonstrated to me by actions - such as preparation for each class, thoughtful inquiry, involvement in projects, discussions, and critiques, and the successful resolution of various problems and challenges presented throughout the course. Students should expect to spend at least six hours per week on homework in addition to studio/class time. Further, all work should be stored and transported in a manner that preserves it for critiques and portfolio reviews. Late work will be lower in grade.

Evaluation

Student work will be reviewed by means of formal critique evaluations and portfolio reviews. Students will be evaluated according to predetermined requirements for all drawings.

Projects = 60% of Grade (6 projects)

Weekly Class Project Work/Discussions - 20% (14 participation grades)

Quizzes = 20% (3 quizzes)

Final Grade Summary:

A = 90 – 100% B = 80 – 89 % C = 70 – 79% D = 60 – 69% F = 59 % OR LESS

Your final grade will be calculated from the entirety of major projects, small studies, and quizzes, while also factoring in attendance, participation, and work ethic.

Late work will be counted against; one letter grade for each class period after it is due. Ex: An A grade is lowered to B after one period late, after two periods late the A is lowered to C, etc.

Students should never miss a class critique. Apart from late grades on projects, this counts against overall participation.

Plagiarism is unacceptable and will result in a 0 for the project. No exceptions. Any students found guilty of academic dishonesty is subject to disciplinary action as per the student handbook.

Attendance, Absence, and Late Policy

Students enrolled in the Juanita and Ralph Harvey School of Visual Arts must comply with the following department-wide Attendance, Absence, and Lateness Policy:

- Students arriving 10 minutes after class begins will be considered late, and will be counted absent.
- Three late arrivals count as a single absence.
- Students may be absent from class 3 times without penalty and without providing any documentation regarding the absence.
- If a student incurs a 4th absence, his or her final course evaluation will be reduced by a full letter grade.
- If a student is absent 5 times, whatever the reason, he or she will receive a failing grade (F) for the course, dropped from class roll, and be asked to stop attending class
- Students are required to remain in class for the entire class session. Students will earn an absence if they leave before the professor has dismissed class.
- Excused absences must be brought before me prior to the absence, or if later, the student must have supporting documentation (academic, medical, or family emergency) in the case of excessive absences.

Weather Closure Policy

In case of impending weather or related cases, check MSU Alerts and msutexas.edu for updates. Note that some instances may impact a full day closure while others may delay or close for only a portion of the day. Class will take place if university is open. Use wise judgment in special cases as safety is a priority, such as driving outside city limits. Class updates will continue to be posted on D2L.

Conduct Statement

Behavior that interferes with either the instructor's ability to conduct the class or the ability of other students to benefit from the instruction will result in the instructor's removing the disruptive student(s) from the class, either temporarily or permanently (instructor drop), and receive a final lower grade, up to and including F. In addition, and depending on the nature of the behavior or conduct, the student(s) may be subject to further disciplinary actions as per MSU policies.

Student Honor Creed

“As an MSU Student, I pledge not to lie, cheat, steal, or help anyone else do so.”

As students at MSU, we recognize that any great society must be composed of empowered, responsible citizens. We also recognize universities play an important role in helping mold these responsible citizens. We believe students themselves play an important part in developing responsible citizenship by maintaining a community where integrity and honorable character are the norm, not the exception.

Thus, We, the Students of Midwestern State University, resolve to uphold the honor of the University by affirming our commitment to complete academic honesty. We resolve not only to be honest but also to hold our peers accountable for complete honesty in all university matters. We consider it dishonest to ask for, give, or receive help in examinations or quizzes, to use any unauthorized material in examinations, or to present, as one's own, work or ideas which are not entirely one's own. We recognize that any instructor has the right to expect that all student work is honest, original work. We accept and acknowledge that responsibility for lying, cheating, stealing, plagiarism, and other forms of academic dishonesty fundamentally rests within each individual student.

We expect of ourselves academic integrity, personal professionalism, and ethical character. We appreciate steps taken by University officials to protect the honor of the University against any who would disgrace the MSU student body by violating the spirit of this creed.

Written and adopted by the 2002-2003 MSU Student Senate.

AI Generated Text or Imagery

All artwork and text will be constructed without the use of AI. This is to maintain academic integrity as well as respecting a strong ethical foundation regarding unique works and original authorship in the arts. That being said, conversation about this topic is encouraged for those interested as it pertains to class material and greater topics of plagiarism, ethical copies, appropriation, and sourced inspiration.
