

**Course Syllabus Final: Physical Geology Online**  
McCoy College of Science, Mathematics, and Engineering  
GEOS 1134 Section X10  
Fall 2019

**Contact Information**

Instructor: Dr. W. Scott Meddaugh  
Office: Bolin 307F  
Office hours: Monday-Thursday; 10am – 3pm  
Office phone: (940) 397-4469  
E-mail: [scott.meddaugh@mwsu.edu](mailto:scott.meddaugh@mwsu.edu)

**Course Description**

A Lecture-based overview of the Earth, its mineral and rock components, and the variety of physical processes, both surface and subsurface that have operated over the long history of Earth. Lectures, by their very nature are of limited length and cover only the most essential aspects of the 24 topics that comprise this course. These topics include the various components of the earth including minerals, igneous rocks, sedimentary rocks, and metamorphic rocks and their associated mineral and energy deposits. We will also look at the various subsurface processes such as weathering, erosion, mass movement due to water, wind, and gravity that largely shape the Earth's surface. We will also examine the subsurface processes that affect us such as earthquakes and volcanic activity and their associated hazards. Running throughout the course and providing a unifying theory for much of geology is the theory of plate tectonics originally put forward as a hypothesis in the early 1900's and only became widely accepted about 50 years ago. In addition to the PowerPoint-based lectures, you are also expected to read the appropriate chapters in the required course textbook. This course outline/syllabus contains a detailed schedule including a list of specific topics and corresponding textbook readings.

The Lab portion of the course includes hands-on projects ranging from mineral and rock identification to using and understanding maps to studying key surface processes such as mass wasting (landslides and rock falls), impact of water as an agent of weathering and transport medium, and the impact of more dramatic geological processes such as earthquakes and volcanoes. You will need to purchase the lab kit that goes along with this course. Details for ordering online (or purchasing via the university bookstore) is available in D2L. The lab kit includes a lab manual with instructions, most materials needed including sets of rocks and minerals, and the lab reports that you will complete and submit for a grade. At the end of this course, you will be familiar with the structure of earth, surface and subsurface, the importance of plate tectonics as a unifying theme for geology and as an explanation for the occurrence and distribution of oceans, mountains, earthquakes, volcanoes, and large geologically "quiet" regions such

as the eastern portion of the United States. You will also understand the role of rivers, winds, oceans, and gravity that continuously shape the Earth's surface.

### **Required Textbook & Instructional Materials**

Earth: An Introduction to Physical Geology (Tarbuck, 12<sup>th</sup> Edition)

eScience Lab Kit (see separate ordering lab kit document in D2L for details)

### **Student Handbook**

Refer to: [Student Handbook 2017-18](#) or most recent

### **Academic Misconduct Policy & Procedures**

Academic Dishonesty: Cheating, collusion, and plagiarism (the act of using source material of other persons, either published or unpublished, without following the accepted techniques of crediting, or the submission for credit of work not the individual's to whom credit is given). Additional guidelines on procedures in these matters may be found in the Office of Student Conduct.

[Student Handbook 2017-18](#)

### **Grading**

There will be three lecture exams, the first two will each determine 15% of your final grade and the third ("final") exam will determine 20% of your course grade. Note that all lecture exams are "cumulative and comprehensive"; all prior material covered in lecture and lab, textbook readings, and any assigned readings will be included on exams. The "lecture" portion of the course will account for 50% of your final course grade. The "lab" portion of your grade will account for a total 40% of your final course grade. The lab grade will be derived as follows: 75% based on assigned labs, 10% on homework assignments, 5% on your participation in online discussions (quality rather than quantity of contribution is most important), and 10% from the assessments. The assessments will help you assess your mastery of both the lab and the lecture material. Although you will receive a numerical assessment grade, the assessments are counted as completed or not as far as your final course grade is concerned. If you complete 75% of the assessments, your assessment "grade" for the semester is 75%; if you complete only 40% of the assessments, your assessment "grade" for the semester is 40%. Completion of all lab assignments on time is expected. You will submit your lab assignments via assignment-specific D2L dropboxes. Lab assignments are due per the syllabus. If you will miss a lab assignment due date you must email Dr. Meddaugh and the Course Assistant, if there is one, in advance. Given appropriate notice, labs must be made up within a week or two or a lab exercise grade penalty will be imposed (10% for one week past due; 20% for two weeks past due; 30% for three weeks past due). After three weeks, a missed lab may be given a grade of zero. Lab assignments are given on the syllabus and correspond to labs in the Lab Kit. You will be able to access the lab assignments via D2L or the eScience website. Homework assignments will also be given during the course of the semester; several per week. The homework assignments will be posted in D2L. The homework assignments will include questions to answer that focus on lecture and

lab content. The homework assignments will have a due date and a grade penalty assessed for late assignments as follows: 10% for one week past due; 20% for two weeks past due; after three weeks a grade of zero for the missed homework may be recorded. Homework will be submitted via D2L (look for assignment specific dropboxes!). Homework due dates are listed in the syllabus. Finally, your Research Paper (details in separate section below) will account for the remaining 10% of your final grade. An electronic (MSWord) version of your completed Research Paper is due per the syllabus schedule. The penalty for late submission of the research paper is as follows: 10% for one week past due; 20% for two weeks past due; 30% for three weeks past due; after three weeks a grade of zero may be recorded for the Research Paper grade. The topic for your Research Paper is due per the syllabus schedule. Note: No work may be submitted after 12/10/2018.

Table 1: Points allocated to graded item or group of items discussed in the Grading Section above.

Graded Items	Contribution to Final Course Grade
Exams 1 and 2 (each)	15%
Exam 3 (Final Exam)	20%
Lab Assignments (11 in total)	30% (total)
Homework Assignments (12 in total)	4% (total)
Research Paper	10%
Discussion Questions	2% (if applicable)
Assessments (12 in total)	4% (total)

Table 2: Final grade determination (grades are normally rounded up to the nearest integer before assigning the final course letter grade. This means, for example, that a final calculated course grade of 89.8% will be rounded up to a final course grade of 90.)

Grade	
A	90
B	80-89
C	70-79
D	60-69
F	Less than 60

### **Homework**

See Grading Section for details – All Homework to be submitted via the appropriate and specific D2L dropbox.

### **Lab Assignments**

See Grading Section for details – All Lab Assignments to be submitted via the appropriate and specific D2L dropbox.

### **Exams**

See Grading Section for details – All Exams will be provided in D2L. Details regarding the “open” period for completing the exams are provided in the Grading Section above. All exams will have a time limit of 50 minutes for the two “midterm” Exams and 110 minutes for the final Exam. The exams will be open for a minimum of 24 hours.

### **Research Paper**

Research paper grade is 10% of final course grade.

Research papers must be between 2250 and 3250 words (about 4-6 pages of text based on 11-pt or 12-pt font; word count per MSWord’s word count tool) and be no longer than thirteen total pages including illustrations and title page. Figures and/or tables (with captions) may be included within text or at end of paper (proper credit must be given for figures, maps, pictures that you include in your report). Format for the report is MS Word or pdf file. The digital copy to be submitted per the course schedule/syllabus. Your paper must be organized as follows:

1. Title and author name on front page. Nothing else on the front page, please!
2. Abstract – 250 word limit summarizing your paper including a sentence on why you chose the particular topic
3. Introduction – Opening paragraphs of your paper that describe the topic in general, its importance or application to you and the community, and why you choose the particular topic
4. Main Body – Discussion of what your research revealed to you and what you want to share
5. Conclusion – the key message or “take-away” points that you expect the reader to remember
6. References – list of references you used to research and write your paper; minimum number of references is three.

Failure to follow the organizational and heading structure given above is an automatic 20% grade deduction! Failure to follow the length requirement may result in additional 10% grade deduction. Failure to properly cite your sources may result in a 10% grade reduction - please make sure that for any map, picture, etc. that you have used in your paper that you provide the source/reference in the map, picture, etc. caption. Papers are due as per the syllabus schedule. Grade penalties for one letter grade per day late. Note: No work may be submitted after 8/8/2018. All Research Papers must be submitted in Microsoft Word or PDF format via the appropriate and specific D2L dropbox.

### **Extra Credit**

There are no Extra Credit opportunities in this course.

### **Late Work**

Late work will be accepted through 12/9/2018. However, the following penalties will apply in all cases of late submittals (unless other arrangements have been made): 10% for week day past due; 20% for two weeks past due; 30% for weeks days past due; after weeks days a grade of zero may be recorded. No course assignments will be accepted after 12/9/2018.

### **Important Dates**

Last Day to drop with a grade of "W:" 4pm, October 29, 2018

Refer to: [Drops, Withdrawals & Void](#)

### **Desire-to-Learn (D2L)**

Extensive use of the MSU D2L program is a part of this course. Each student is expected to be familiar with this program as it provides a primary source of communication regarding assignments, examination materials, and general course information. You can log into [D2L](#) through the MSU Homepage. If you experience difficulties, please contact the technicians listed for the program or contact your instructor.

### **Online Computer Requirements**

Taking an online class requires you to have access to a computer with reasonable Internet access to complete and upload your assignments. It is your responsibility to have (or have access to) a working computer in this class. Assignments and tests are due by the due date, and personal computer technical difficulties may not be considered as a reason for the instructor to allow students extra time to submit assignments, tests, or discussion postings. Computers are available on campus in various areas of the buildings as well as the Academic Success Center. Your computer being down is not an excuse for missing a deadline! There are many places to access your class! Our online classes can be accessed from any computer in the world which is connected to the internet. Contact your instructor immediately upon having computer trouble. If you have technical difficulties in the course, there is also a student helpdesk available to you. The college cannot work directly on student computers due to both liability and resource limitations however they are able to help you get connected to our online services. For help, log into [D2L](#).

### **Change of Schedule**

A student dropping a course (but not withdrawing from the University) within the first 12 class days of a regular semester or the first four class days of a summer semester is eligible for a 100% refund of applicable tuition and fees. Dates are published in the Schedule of Classes each semester.

### **Refund and Repayment Policy**

A student who withdraws or is administratively withdrawn from Midwestern State University (MSU) may be eligible to receive a refund for all or a portion of the tuition, fees and room/board charges that were paid to MSU for the semester. HOWEVER, if the student received financial aid (federal/state/institutional grants, loans and/or scholarships), all or a portion of the refund may be returned to the financial aid programs. As described below, two formulas (federal and state) exists in determining the amount of the refund. (Examples of each refund calculation will be made available upon request).

### **Services for Students With Disabilities**

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Midwestern State University endeavors to make reasonable accommodations to ensure equal opportunity for qualified persons with disabilities to participate in all educational, social, and recreational programs and activities. After notification of acceptance, students requiring accommodations should make application for such assistance through Disability Support Services, located in the Clark Student Center, Room 168, (940) 397-4140. Current documentation of a disability will be required in order to provide appropriate services, and each request will be individually reviewed. For more details, please go to [Disability Support Services](#).

### **College Policies**

Campus Carry Rules/Policies are given here: [Campus Carry Rules and Policies](#)

### **Smoking/Tobacco Policy**

College policy strictly prohibits the use of tobacco products in any building owned or operated by WATC. Adult students may smoke only in the outside designated-smoking areas at each location.

### **Alcohol and Drug Policy**

To comply with the Drug Free Schools and Communities Act of 1989 and subsequent amendments, students and employees of Midwestern State are informed that strictly enforced policies are in place, which prohibits the unlawful possession, use or distribution of any illicit drugs, including alcohol, on university property or as part of any university-sponsored activity. Students and employees are also subject to all applicable legal sanctions under local, state and federal law for any offenses involving illicit drugs on University property or at University-sponsored activities.

### **Grade Appeal Process**

Students who wish to appeal a grade should consult the Midwestern State University [Undergraduate Catalog](#)

**Notice**

Changes in the course syllabus, procedure, assignments, and schedule may be made at the discretion of the instructor. Changes will be communicated to all students through [D2L](#). Please check the course news on a regular basis for schedule updates.

Course schedule detail given on the next five pages. The first table lists lecture topics and textbook readings. The second table lists the dates for the three exams and the lab, research paper, homework, and self-assessment assignments and submission deadlines.

**Course Schedule – Lecture Topics and Exams, Text Reading (Page 1 of 3)**

Date	Topic and Topic Number	Textbook Pages
26-Aug	Course Overview. What is Science? What is the Scientific Method? Geology as a Science. Why Study Geology? (Topic 1)	Pages 2-13
28-Aug	Time and Geology - Relative Time, Absolute Time, Age of the Earth. (Topic 2)	Pages 272-281
30-Aug	Seismology and the Gross Internal Structure of the Earth (Topic 3)	Pages 19-35 and Pages 362-385
2-Sep	Labor Day - No Classes	None
4-Sep	Plate Tectonics as the Unifying Principle for Geology - Part 1 (Topic 4)	Pages 36-71
6-Sep	Plate Tectonics as the Unifying Principle for Geology - Part 2 (topic 4)	Pages 36-71
9-Sep	Mineralogy - Part 1. Basic Concepts (Topic 5)	Pages 72-105
11-Sep	Mineralogy - Part 2. Important Mineral Classes and Specific Minerals (Topic 5)	Pages 72-105
13-Sep	Igneous Rocks - Part 1. Introduction (Topic 6)	Pages 106-139
16-Sep	Igneous Rocks - Part 2. Magma and Intrusive Igneous Activity (Topic 6)	Pages 106-139
18-Sep	Igneous Rocks - Part 2. Magma and Intrusive Igneous Activity (Topic 6)	Pages 106-139
20-Sep	Igneous Rocks - Part 3. Volcanoes and Associated Hazards and Economic Geology of Igneous Rocks (Topic 7, 8)	Pages 140-179
23-Sep	Weathering and Soil Formation (Topic 9)	Pages 180-209
25-Sep	Sedimentary Rocks - Part 1. (Topic 10)	Pages 210-239
27-Sep	Sedimentary Rocks - Part 2. (Topic 10)	Pages 210-239

## Course Schedule – Lecture Topics and **Exams**, Text Reading (Page 2 of 3)

Date	Topic and Topic Number	Textbook Pages
30-Sep	Sedimentary Rocks - Part 3. Sedimentary Textures and Depositional Environments (Topic 10)	Pages 210-239
2-Oct	Sedimentary Rocks - Part 4. Diagenesis and Lithification; Economic Geology of Sedimentary Rocks excluding Oil and Gas* (Topic 11)	Pages 210-239
4-Oct	Review 1	None
7-Oct	<b>FIRST EXAM</b> (will cover all material through October 3) - 15% of grade. <b>Exam open time TBA.</b>	None
9-Oct	Sedimentary Rocks - Part 5. Geology of Oil and Natural Gas (Topic 11)	TBA
11-Oct	Metamorphic Rocks - Part 1. Metamorphism, Metamorphic Textures, Common Metamorphic Rocks (Topic 12)	Pages 240-271
14-Oct	Metamorphic Rocks - Part 2. Burial/Regional Metamorphism (Topic 12)	Pages 240-271
16-Oct	Metamorphic Rocks - Part 3. Contact and Hydrothermal Metamorphism; Economic Geology of Metamorphic Rocks (Topic 12)	Pages 240-271
18-Oct	Crustal Processes - Surface Geological Observations; Deformation - Folds and Fractures (Topic 14)	Pages 302-325
21-Oct	Crustal Processes - Surface Geological Observations; Deformation - Folds and Fractures (Topic 14)	Pages 302-325
23-Oct	Crustal Processes - Earthquakes (Topic 13)	Pages 326-361
25-Oct	<b>SECOND EXAM</b> (will cover all material presented or assigned through October 23) - 15% of grade. <b>Exam open time TBA.</b>	None

## Course Schedule – Lecture Topics and **Exams**, Text Reading (Page 3 of 3)

Date	Topic and Topic Number	Textbook Pages
28-Oct	Crustal Processes – Oceans (Topic 15)	Pages 386-417
30-Oct	Crustal Processes – Mountains (topic 16)	Pages 418-441
1-Nov	Crustal Processes - Mass Wasting (Topic 17)	Pages 442-465
4-Nov	Crustal Processes - Mass Wasting (Topic 17)	Pages 442-465
6-Nov	Crustal Processes - Surface and Running Water (Topic 18)	Pages 466-499
8-Nov	Crustal Processes - Surface and Running Water (Topic 18)	Pages 466-499
11-Nov	Crustal Processes - Ground Water (Topic 19)	Pages 500-531
13-Nov	Crustal Processes - Ground Water (Topic 19)	Pages 500-531
15-Nov	Crustal Processes – Glaciers (Topic 20)	Pages 532-569
18-Nov	Crustal Processes - Oceans and Shorelines (Topic 21)	Pages 570-593
20-Nov	Crustal Processes - Winds and Deserts (Topic 22)	Pages 594-629
22-Nov	Climate Change - Experimenting on a Small Planet (Topic 23)	None
25-Nov	Climate Change - Additional Detail (Topic 23B)	Pages 630-665
27-Nov		Pages 630-665
29-Nov	Climate Change - Additional Detail (Topic 23B)	Pages 630-665
2-Dec	A Very Short Version of Earth's Geological History	Pages 666-701
4-Dec	Course Review	None
6-Dec	Course Review	None
9-Dec	<b>THIRD EXAM</b> (will cover all material presented in the lecture and the lab section of the course) - 20% of grade. <b>Exam open time TBA.</b>	<b>Last Day to Submit Any Late Assignments! Grade Penalties per the Course Syllabus May Apply</b>

## Course Schedule –Due Dates for Labs, Homework, Research Paper, and Assessments (Page 1 of 2)

Date	Lab Assignment Due Dates. (The corresponding eScience Lab Number and Exercise Number(s) is also given number.)	Homework and Self-Assessment Assignments Due Dates
8/27/2018	No lab this week. Make sure you have ordered your lab kit from eScience per the instructions in the course syllabus.	None
9/3/2018	No lab this week. Make sure you have ordered your lab kit from eScience per the instructions in the course syllabus.	HW 1 and Assessment 1
9/10/2018	Lab A: Lab 7 - Geological Dating; Exercise 1	HW 2 and Assessment 2
9/17/2018	Lab B: Lab 3 - Mineral Identification; Exercise 2	HW 3 and Assessment 3
9/28/2018	Lab C: Lab 4 - Igneous Rock Classification; Exercise 2	HW 4 and Assessment 4
10/12/2018	Lab D: Lab 5 - Sedimentary Rock Identification; Exercise 1	HW 5 and Assessment 5
10/24/2018	Lab E: Lab 6 -Metamorphic Rock identification; Exercise 1	HW 6 and Assessment 6
11/2/2018	Lab F: Lab 2 - Plate Tectonics and Earthquakes; Exercise 1	HW 7 and Assessment 7
11/9/2018	Lab G: Lab 8 - Mass Wasting/Angle of Repose; Exercise 2. <b>Research Paper Topic is Due.</b>	HW 8 and Assessment 8
11/16/2018	H: Lab 10; Exercise 1 (Fluvial Processes) and	HW 9 and Assessment 9
11/21/2018	Lab I: Lab 9; Exercise 1 (Groundwater)	HW 10 and Assessment 10
11/22/2018	Lab J: Lab 11; Exercise 1 (Wind)	HW 11 and Assessment 11
11/28/2018	<b>Research Paper Due by 4pm.</b> Lab K: Labs 13; Exercises 1 and 2 and Lab 14; Exercise 1 (Topographic and Geological Maps)	HW 12 and Assessment 12.

## Course Schedule – Due Dates for Labs, Homework, Research Paper and Assessments (Page 2 of 2)

Date	Lab Assignment Due Dates. (The corresponding eScience Lab Number and Exercise Number(s) is also given number.)	Homework and Self-Assessment Assignments. Due One Week After Assigned
12/9/2018	None	<b>Last day to submit labs, homework, assessments, or research paper. Items must be submitted by 11pm CDT. Grade Penalties per the Course Syllabus May Apply.</b>

End of course syllabus
