Every two weeks, students will have a quiz on the content from the readings in the book and from the lecture in class. The quiz will consist of 10 multiple-choice questions. You will have 20 minutes to complete each quiz, and they will be on D2L. The quiz will open on Monday at 12 AM the week of the quiz, and you will have until Sunday at 11:59 PM to complete it. If a student displays inappropriate or offensive behavior during class, they will be immediately dismissed from the class. The student will not be permitted to attend class until they meet with the professor and discuss the situation. Once an acceptable solution is agreed to, the student will be allowed to attend class again. If I deem any online messaging to be inappropriate or offensive, I will forward the message to the Chair of the department and appropriate action will be taken, not excluding expulsion from the course. AI Policy

This course only allows for limited use of Generative AI in course assignments. **Generating text via AI and citing it as your own is academic misconduct, and the instructor reserves the right to give that assignment an F!**

When can you use Generative AI in this course?

- The use of Generative AI is allowed in this course for the following: brainstorming your ideas, checking your grammar, as a study aid to help prepare for quizzes and exams.

When must you avoid Generative AI in this course?

- The use of Generative AI is not permitted for the following: Writing a draft of an assignment, writing entire sentences, paragraphs, or papers to complete assignments.

Why should you limit your use of Generative AI?

- Learning how to analyze information, how to think critically, how to communicate with others, how to discuss and engage with big ideas, and how to work with others is something that we do not want machines or AI to do for us. AI can be a supplemental tool, but your education and professional career depend on your ability to develop a broad skill set independent of reliance on AI functionalities.
