

Submissions Dates

Monday June 6 11:00 AM

Submit the following:

- General project focus
 - Example: risk assessment
- Specific project to be completed
 - Example: conduct a risk assessment for constructing an indoor climbing wall at a high school activity/practice facility
- Purpose
 - Example: the purpose of the project is to determine the feasibility of adding an indoor climbing wall to an existing facility

Monday June 13 11:00 AM

Submit the following:

- A general outline of the subtopics to be covered in the review of literature
 - Example
 - Types of Climbing Walls
 - Age-Appropriateness
 - Injury Risks
 - Safety Equipment
 - Developmental Benefits
 - Participant Training
 - Instructor Training
 - The above outline represents the information that needs to be reviewed in order to undertake the project itself (the risk analysis)
 - The review of literature provides the information that will be analyzed to make a decision

Wednesday June 29 11:00 AM

Submit the following:

- Title page
- Introduction
 - Introduction to the project focus
 - Statement about the specific project completed
 - Purpose of the project
- Review of Literature
 - Complete review of the specific topics mentioned in the outline with subheadings provided
- Project Outcome
 - The project itself (example: risk assessment)
- Reference Page
