Course Expectations

The Clinical Mental Health Counseling Program, its faculty, and its students adhere to the University Code of Conduct, State of Texas licensure laws and regulations, and the American Counseling Association's code of ethics (2014). The program has a professional responsibility to ensure that all students display ethical, professional, and personal behaviors that comply

with these guidelines. Students are strongly encouraged to review, understand, and consult the [American Counseling Association website](#) for details related to these guidelines. ***Department of Counseling students are expected to demonstrate appropriate classroom behavior, consistent with their counselor-in-training roles.** Counselors-in-training are expected to convey attentiveness and respect in all professional and classroom settings.

Online Etiquette

It is expected that students use formal, professional language when corresponding online and during videoconferencing. It is expected that you use complete sentences, address one another with respect, follow the *American Counseling Association Code of Ethics* (2014), and treat all members of the class and your professor with respect in discussion posts, emails, and during Zoom interactions.

Confidentiality

Upholding confidentiality is a major responsibility of the student. Anything discussed during supervision, online in this class, or shared by individual students about themselves is considered confidential. Please do not share any information shared to you by other students.

Academic Dishonesty

Students at Midwestern State University are an essential part of the academic community and enjoy substantial freedom within the framework of the educational objectives of the institution. The freedom necessary for learning in a community so rich in differing thoughts and opinions and achieving success toward our educational objectives requires high standards of academic integrity.

***Academic dishonesty has no place in an institution of advanced learning. *Cheating, collusion, and plagiarism (the act of using source material of other persons, either published or unpublished, without following the accepted techniques of crediting, or the submission for credit of work, not the individual to whom credit is given).**

Not knowing how to properly use citations is not an excuse to plagiarize, so it is each student's responsibility to know what constitutes academic dishonesty and to seek clarification directly from their instructor if and when necessary. ***Should a student be suspected of academic dishonesty, the instructor will decide whether a grade of zero will be given or if**

a student will be given the opportunity to resubmit the assignment.

If granted, students will only be given the opportunity to resubmit an assignment with plagiarism issues once during the course with an automatic reduction of 10% on the final grade.

Examples of academic dishonesty include, but are not limited to:

- Submission of an assignment as the student's original work that is entirely or partly the work of another person.
- Failure to appropriately cite references from published or unpublished works or print/nonprint materials, including work found on the World Wide Web.
- Observing or assisting another student's work.
- Multiple Submission - Submitting a substantial portion or the entire same work (including oral presentations) for credit in different classes without permission or knowledge of the instructor.
- Usage of Artificial Intelligence (AI) software, this does not include editing tools of Word or Grammarly i.e., spell check or rewriting suggestions for clarity.

Services for Students with Disabilities

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Midwestern State University endeavors to make reasonable accommodations to ensure equal opportunity for qualified persons with disabilities to participate in all educational, social, and recreational programs and activities.

After notification of acceptance, students requiring accommodations should make application for such assistance through Disability Support Services, located in the Student Wellness Center, (940) 397-4140. Current documentation of a disability will be required in order to provide appropriate services, and each request will be individually reviewed. For more details, please go to [Disability Support Services](#).

Statement of Disability

Disability Support Services (DSS) provides services to students with disabilities to insure accessibility to university programs. DSS offers information about accommodations and disability, evaluation referral, adaptive technology training and equipment, and interpreter services for academically related purposes.

If you suspect you have a disability that is impacting your academic performance or have been previously documented as a person with a disability, you will need to apply and provide documentation of that disability to the Disability Support Services. This documentation must be supplied by a qualified professional who is licensed or certified to diagnose the disability in question. The Disability Support Services office is located in Room 168 of the Clark Student Center. If you need assistance, you can also contact them at (940) 397-4140.

Attendance

You will be required to post at least three academic paragraphs in each week's discussion board. You are also required to reply to at least one other student's discussion board post. This is seen as your weekly attendance in class. Failing to post, reply, or both each week results in loss of points and would be the same as if you did not attend class that week. Most academic paragraphs have at least five sentences.

Extra Credit

Extra credit is not available, nor will it be offered, in this course.

Late Work

All papers and assignments must be turned in on the day they are due. ***No exceptions.** If you have an emergency, please let me know in advance, and email me your assignment the same day it is due. Any late papers will be lowered ***10%**. Late papers can only be turned in before the deadline for the following assignments. Please observe that your assignments are worth many points, and skipping even one assignment will most likely significantly lower your grade. Please begin planning your semester schedule accordingly.

Evaluation and Assignments

***All written assignments must be submitted via D2L** (unless it's a KPI/Tk20 assignment that needs to be turned into D2L and Tk20 link) and ***all work must be completed using the latest APA edition style** (currently the 7th edition).

Discussion Board (30 pts; See Appendix A)

Students are required to answer questions or complete assignments regularly related to the weekly reading. Almost every week students will be required to answer questions about the reading or be asked to reflect on a particular topic for that week. Students may also be required to engage in short creative projects instead of questions about the readings. If there is a discussion, students are required to participate and comment on at least one other person's thread. ***Please make sure to create an original post each week, and comment on at least one other student's post.** If you use resources in your post, please be sure to appropriately cite them in-text, and put them as a reference at the bottom of your post. Please write at least three academic paragraphs, at least five sentences each paragraph, weekly. ***Weekly comments are due by Sunday at 11:59 pm at the end of the week, aside from the last week of class.** Follow directions to get full points each week. Late work will not be accepted.

KPI: 3.A.11, 3.B.2, 3.B.3, 3.E.8, 3.G.1, 3.G.5, 3.G.6, 3.G.7, 3.G.11, 3.G.12, 3.G.14, 3.G.15, 3.G.16, and 3.G.17.

Longitudinal Case Study Portfolio (10 pts; 10 pts; 50 pts; See Appendix B)

Students will create a longitudinal case study portfolio. This portfolio is designed to mirror the experience of working with a client, learning more about their symptoms, background, environment, and cultural factors. Additionally, it will mirror the process of ruling out diagnosis and selecting assessments to help provide a proper diagnosis.

This portfolio is a living document, which will be adapted and added to each week, as more information is revealed. Portfolios should include a client overview, presenting concerns, developmental context, trauma and stressors context, theoretical application, ethical considerations, cultural considerations, assessment or diagnostic tools used, and a final diagnosis. This portfolio will also include a treatment plan and a 1.5-2-page personal reflection, discussing what you learned and how you evolved with the client through the semester.

It is important that you work on this weekly. The goal is not only to get a correct diagnosis for your final submission but learn about the process of ruling out diagnosis and noticing contextual factors. To help hold you accountable, this assignment will be submitted on Week 5 and Week 10. You will not have a completed document when you submit it Week 5 (10 points) or Week 10 (10 points) but will have a working draft that will demonstrate your active participation in working on this assignment. Your final submission, on Week 15 (30 points), will include the entire completed portfolio and should be 10-12 pages long.

KPI: 3.A.11, 3.B.2, 3.B.3, 3.B.9, 3.B.10, 3.C.5, 3.C.8, 3.C.11, 3.C.12, 3.C.13, 3.E.2, 3.E.3, 3.E.11, 3.E.13, 3.E.14, 3.E.15, 3.E.19, 3.E.21, 3.F.8, 3.G.11, 3.G.12, 3.H.7, 5.C.1, 5.C.4, 5.C.5

Reflection Video Assignment (30 pts; See Appendix C)

You are being asked to reflect, celebrate growth, and share what's still on your mind as we close out the course by recording a reflection video. The video should be 10-15 minutes long and cover what is provided below.

Prompt: What to Cover in Your Video

- **A brief overview:** An overview of what you learned, what stood out to you, and your understanding of case conceptualizations. How did this course help you grow as a counselor?
- **Personal Growth:** How has your thinking evolved about conceptualizing clients? What factors will you pay closer attention to when conceptualizing and diagnosing clients?
- **Lingering Questions:** What do you still wonder or want to explore more as you continue your training?
- **Looking Ahead:** How do you plan to carry your learning from this course forward (in internship, future classes, or personal development)?

Tips for Success

- Be authentic! Speak as if you're talking to a peer or supervisor.
- You can use notes, but don't read a script word-for-word.
- Make sure your video is well-lit, and your audio is clear.

Submit the video to D2L

Department of Counseling Statement of Expectations

The counselor education program is charged with the dual task of nurturing the development of counselors-in-training and ensuring quality client care. In order to fulfill these dual responsibilities, faculty must evaluate students based on their academic, professional, and personal qualities. A student's progress in the program may be interrupted for failure to comply with academic standards or if a student's interpersonal or emotional status interferes with training-related requirements.

For example, in order to ensure proper training and client care, a counselor-in-training must abide by relevant ethical codes and demonstrate professional knowledge, technical and interpersonal skills, professional attitudes, and professional character. These factors are evaluated based on one's academic performance and one's ability to convey warmth, genuineness, respect, and empathy in interactions with clients, classmates, staff, and faculty. Students should demonstrate the ability to accept and

integrate feedback, be aware of their impact on others, accept personal responsibility, and be able to express feelings effectively and appropriately. For further clarification on student review and retention please refer to the handbook, [Link to Student Handbook](#).

Classroom Behaviors

Department of Counseling students are expected to demonstrate appropriate classroom behavior, consistent with their counselor-in-training roles. Counselors-in-training are expected to convey attentiveness and respect in all professional and classroom settings. Specifically, these include:

- Avoiding tardiness and late arrival to class.
- Being attentive and participative in class and online.
- Not using cell phones and text messaging during class.
- Not surfing the web, emailing, tweeting, or using instant messaging (IM) during class.
- Minimizing eating and disruptive snacking during class.
- Avoiding personal conversations with students during class, which are disruptive to fellow students and the learning environment.
