Academic Misconduct Policy & Procedures

Academic Dishonesty: Cheating, collusion, and plagiarism (the act of using source material of other persons, either published or unpublished, without following the accepted techniques of crediting, or the submission for credit of work not the individual's to whom credit is given). Additional guidelines on procedures in these matters may be found in the [Office of Student Conduct](#).

Artificial Intelligence

Advances in Artificial Intelligence (AI) have now provided generative and creative applications such as Chat GPT, Google Bard, Google Sparrow, and others. Certainly, these tools can be quite useful in the learning process; however, the content they generate do not represent the effort and learning of the student. Submitting AI generated work in place of the original and genuine work of the student will be considered a form of academic misconduct.

Attendance/Participation

Regular online participation is required. Please attend to discussions in a timely manner. Professional dialogue opportunities are part of this class; participation will be considered part of the grade.

Quality Requirements

"Turning in" all assignments is not enough to ensure an "A" in the course. Quality of work turned in on time is the most important criterion for receiving an "A."

Expectations for Written Work

- Correct grammar, punctuation, and spelling are expected on all written assignments (although web discussions are not held to the high standard of a research project or other written assignment).
- Written assignments should be done in Microsoft Word and turned in as an attachment in dropbox on D2L.
- Discussions should be completed within the D2L discussion space and *NOT* uploaded as an attachment.
- Due dates should be honored in order to receive the highest grade.
- When referring to the ideas of others, works should be cited using the APA format.

Adhering to Professional Ethics

When using professional sources in your writing, please cite sources you have used or ideas you have adapted when completing assignments. Use of copyrighted materials must adhere to legal and ethical guidelines. If part of an assignment is submitted for credit in more than one course, both professors

must pre-approve this dual credit and the dual use should be referenced clearly on both assignments.

Online Posts and Mutual Respect

Remember that there are other human beings reading your postings, so treat everyone with respect. Don't post anything you wouldn't be willing to communicate face to face. Distance conveys a degree of anonymity. It is for this reason that we must be cognizant of our postings online. You are provided with Netiquette guidelines and Rules for Discussion Posts. Please observe them.

Desire-to-Learn (D2L)

Extensive use of the MSU D2L program is a part of this course. Each student is expected to be familiar with this program as it provides a primary source of communication regarding assignments, examination materials, and general course information. You can log into [D2L](#) through the MSU Homepage. If you experience difficulties, please contact the technicians listed for the program or contact your instructor.
