BUS 215	Shah, Rob	It was great to learn about the aspects of the course.
BUS 215	Shah, Rob	It would be helpful if the assignments are not all due on the same day. Having two written assignments due on the same day can be difficult to accomplish and balance work and life.
BUS 215	Shah, Rob	Most satisfying class yet.

BUS 215	Shah, Rob	Not only in this course, but in any that is structured to have 2 discussions, especially when having several chapters to read per week, I find it time-consuming to have to complete 2 discussions in comparison to 1. The discussions can cover multiple topics and chapters and while more topics are covered in a discussion, the likelihood to see students interact more in a single discussion would be greater. Especially when the responses the students have may combine the multiple topics into a single response. Seeing that 2 discussions are required each week alone can make it become more stressful, especially when students have other things outside of school to do at any time during the week. In this case, the due dates should all be at the very end of each week instead of spread out while not knowing someone's personal schedule.
BUS 215	Shah, Rob	One course I looked forward to. Was not disappointed. Instructor shared valuable knowledge and was great overall.
BUS 215	Shah, Rob	Overall, course and content were good. Instructions for week 5 assignment could be slightly more clear.
BUS 215	Shah, Rob	Probably one of the most informative classes than can be directly applied to everyone.
BUS 215	Shah, Rob	Professor Rob Shah was a great teacher. It is refreshing to have a teacher that cares about his students and is always providing positivity. This class felt like it flew by and it was all because of how great the environment was created. He was also quick to respond to emails which helped me as a student understand homework assignments better and be able to turn them in on time. Thank you for all your help in this class Professor!
BUS 215	Shah, Rob	Professor Shah did a wonderful job of engaging the class through weekly posts and replies to everyone's questions.
BUS 215	Shah, Rob	Professor Shah is an amazing instructor. If I could have him teach all my classes it would be a great educational experience. His instructions were clear, he responds promptly, and is very knowledgeable about the classwork given.
BUS 215	Shah, Rob	Professor Shah is an amazing teacher. He is encouraging, supportive, and kind. He provides great feedback. I have learned valuable information from him. I am so glad I took this class.

BUS 215	Shah, Rob	Professor Shah, taking your class was a complete learning experience. BUS 215	Shah, Rob	The only area that I had an issue with was the textbook. The table of contents was really difficult to manage and the limit on pages that could be printed made my study methods very challenging. BUS 215	Shah, Rob	The instructor was awesome. Always had a positive attitude and is willing to help. The course was very knowledgeable and I personally learned more than I thought I would. I would recommend this course to anyone that would like to improve their financial plan.
BUS 215	Shah, Rob	The instructor was great!
BUS 215	Shah, Rob	The only thing I would want this class to do is be more lenient with due dates like I have had in previous classes. Especially since we don't get breaks after each class or any for that matter. It really gets to be a lot.
BUS 215	Shah, Rob	The only thing that I could say negative about this class is that the quizzes, once taken, did not give the right page number in the book to review after the quiz.
BUS 215	Shah, Rob	The percentage grade for the 4th week assignment and the final project is too much of the total course grade. It would help if discussion grade percentage counted a little more since they do require a lot of critical thinking and time reading through sources.
BUS 215	Shah, Rob	The professor is engaging and supportive.
BUS 215	Shah, Rob	THE TEXTBOOK IS TERRIBLE... I HIGHLY SUGGEST PICKING A DIFFERENT PLATFORM, IT IS VERY HARD TO NAVIGATE AND READ. TERRIBLE TERRIBLE. PLEASE CHANGE THIS. OTHER THEN THAT THE COURSE WAS GREAT, BUT PLEASE CHANGE THE TEXTBOOK!!!
BUS 215	Shah, Rob	The title of the course is "Personal Financial Management", therefore, I thought this class would be about my own personal finances. Instead, this class is from the perspective of being a financial advisor to someone else. Had I known this, I would have not picked this class. The professor was excellent.
BUS 215	Shah, Rob	This class has provided some valuable insight when it comes to my credit and how to go about financial planning for the future. The professor encouraged active class participation.
BUS 215	Shah, Rob	This class was great!
BUS 215	Shah, Rob	This course and the insight and instruction from Dr. Shah were both engaging and beneficial to my personal development.
BUS 215	Shah, Rob	This course has been very interesting and it has changed my way of thinking. Instructor Rob Shah, is great he responded to my concerns as quickly as possible. I appreciate his willingness to help.
BUS 215	Shah, Rob	This course was engaging and the topics covered were beneficial in both a professional and personal setting. The instructor provided clear feedback in a timely manner.
BUS 215	Shah, Rob	This course was extremely informative and impactful to my everyday livelihood.
BUS 215	Shah, Rob	This course was full of great information that will be vital to a Finance degree. Professor Shah was phenomenal in his engagement and feedback.

BUS 215	Shah, Rob	This was probably the most enriching class I have had so far. The only drawback is it was not long enough to learn more from it. The professor was extremely helpful and active.
BUS 215	Shah, Rob	This was the best course I have taken so far in 18 months. The instruction was engaging and returned grades within 24 hours of assignments due date, which most do not. This allowed for a review of feedback to improve next week. I appreciate that more than anything else.

BUS 368	Shah, Rob	Great instructor. Well done, knows a lot about the subject at hand. Always pushing for better from his students as he knows we can do better with our critical thinking skills. Thank You, Instructor Rob Shah you are greatly appreciated.
BUS 368	Shah, Rob	the best way to pass this course is with groups.
BUS 368	Shah, Rob	The instructor is the first instructor that I have had in my 3 1/2 years at Ashford to grade our discussions and assignments as soon as he does. I do not have to wait a week to find out what my grades are. I appreciate that!
BUS 368	Shah, Rob	This class was great and I learned so much about starting a business and getting the funding for a new business. This class was a great addition to my course load. Thanks Professor Shah!
BUS 368	Shah, Rob	Weekly group assignments are practically useless in this sort of course. Students need to learn and understand the materials that were in the papers even more than they need the information in the discussion boards. By dividing up the work per paper I learned next to nothing of the course content since I was not forced to interact with it on my own part my small portion of each group paper. This course also should be able to be taken after Accounting I and II without the prereq of Intro to Entrepreneurship. A lot of the accounting principles apply and, since it was almost 18 months between my accounting classes and this one, a lot of time was wasted relearning basic principles. Professor Shah was a good instructor who graded consistently and gave good feedback. I really appreciated the timely turnaround of grades at the end of a school week.
BUS 402	Shah, Rob	Great class
BUS 402	Shah, Rob	Great class!
BUS 402	Shah, Rob	Instructor Rob Shah, goes the extra mile to ensure the class is motivated... He is by far a great instructor who seems to genuinely care about what he does as an professor!
BUS 402	Shah, Rob	Overall, I think this class was very interactive. The final exam was extremely challenging. Even the simplest questions made me second guess myself, but I think that was due to each one having a timed limit. This was something that no other quiz had so it was a bit shocking however, I know in a classroom setting it would be as such. I think everything on this course was adequate and the professor was genuinely engaged.
BUS 402	Shah, Rob	The course is my 20th course and my last, Dr. Rob Shah was the best instructor and several others were very good as well. He promotes a great learning environment. His input and feedback helped me to perform better on the next assignment. Thank you, Jon.
BUS 402	Shah, Rob	This was one of my favorite courses throughout my degree program. I learned a lot and the instructor was very involved in discussion posts and provided detailed feedback for each assignment.

BUS 450	Shah, Rob	Dr. Shah has been one of my favorite professors! Dr. Shah poses good follow up questions or makes relevant comments to foster further understanding of the topics. I have enjoyed international finance. The quizzes were the best quizzes I have had. My only critique would be to update the book as it is five years old and so much has happened in the international finance realm in five years, especially 2020.
BUS 450	Shah, Rob	I appreciated how quickly assignments were graded, always knew where I stood for grades. Really appreciated Professor Shah.
BUS 450	Shah, Rob	I really liked how quickly all the assignments were graded and feedback was provided. Most times, it was the day the week ended or right after. It was nice to have such fast feedback.

Assignments can be lengthy, but definitely an engaging course. I wish we had more time to deepen more in the content.

The quality of my educational experience, with this course, did not receive a better rating because I had no expectations on the quality going into this course. It is not that this experience lacked quality, simply that I had no idea what the course would be or should be, so there were no expectations.

Rob shah was the best instructor I have had the privilege of learning from since I have started with Ashford 3 1/2 years ago.

This course was very engaging and my classmates were very knowledgeable so I was able to learn from them and my instructor as well. This was a very engaging class and I have learned a lot over these past five weeks. The announcements were a great way for me to start my week to get the information to sink in a little better as they were very well written and easy to grasp before I went to the text.

Great course! Great instructor!

Great instructor. Well done, knows a lot about the subject at hand. Always pushing for better from his students as he knows we can do better with our critical thinking skills. Thank You, Instructor Rob Shah you are greatly appreciated.

The instructor is the first instructor that I have had in my 3 1/2 years at Ashford to grade our discussions and assignments as soon as he does. I do not have to wait a week to find out what my grades are. I appreciate that!

Weekly group assignments are practically useless in this sort of course. Students need to learn and understand the materials that were in the papers even more than they need the information in the discussion boards. By dividing up the work per paper I learned next to nothing of the course content since I was not forced to interact with it on my own past my small portion of each group paper. This course also should be able to be taken after Accounting I and II without the prereq of Intro to Entrepreneurship. A lot of the accounting principles apply and, since it was almost 18 months between my accounting classes and this one, a lot of time was wasted relearning basic principles. Professor Shah was a good instructor who graded consistently and gave good feedback. I really appreciated the timely turnaround of grades at the end of a school week.

This class not only taught me about the global economy but it also helped me with my personal investments.

The course overall was ok, and I would like to see it expanded. What truly drove the course was Dr. Shah. He is easily one of the best professors I have had.

I appreciated how quickly assignments were graded, always knew where I stood for grades. Really appreciated Professor Shah.

Dr. Shah engages with the students if he sees that they may be fuzzy about an area of his teachings to ensure that the student is learning the idea or concept properly. He does this generally with a story or thought process (idea) and then asks the student questions accordingly in a polite way. Very fond of him and his teachings.

Re: Recommendation for Dr. Rob Shah

To Whom It May Concern,

It is with immense pleasure and without hesitation that I recommend Dr. Rob Shah. I had the distinct privilege of working alongside Rob for three years as part of the MS Finance and BA Finance team at the University of Arizona Global Campus (UAGC). During this time, I witnessed firsthand his profound dedication to education and his exceptional personal qualities.

My strongest impression of Rob is his remarkable thoughtfulness. When he speaks, his words are always deep, insightful, and meticulously considered, never merely speaking for the sake of it. This quality made every interaction with him incredibly valuable and enriching. He is an exceptional leader and mentor, and a good listener.

For my first year at UAGC, Rob served as my mentor. I worked closely with him on my initial courses, and we collaborated on revising a course together. His guidance during this formative period was invaluable. He is consistently calm, respectful, and possesses a genuinely approachable personality, which made him an ideal mentor and colleague.

Rob's contributions extended beyond teaching. He was with UAGC (formerly Ashford University) for 17 years, from 2008 to 2025, demonstrating a long-standing commitment to the institution. His dedication to the department and the university was evident in all his endeavors. He primarily taught Finance courses, where his expertise and thoughtful approach undoubtedly benefited countless students.

I deeply cherish the collaboration we shared on various projects over the years. Rob's integrity, authenticity, and strong service mindset are qualities I observed and greatly admired. He consistently treated others with respect and genuinely supported his team and students. Rob's intellectual depth, calm demeanor, and collaborative spirit make him a valuable asset to any team or organization. I am confident that he will continue to make significant contributions wherever he goes.

Sincerely,
