

Midwestern State University  
Department of Computer Science  
Spring 2026

**Course Information**

Course syllabus: Data Structures and ADT.  
Course number: CMPS 1063.  
Course Section: 202.  
Class Days: Tuesday and Thursdays.  
Class hours: 9:30 am to 10:50 am.  
Classroom: Bolin 144.

**Instructor Information**

Instructor's Name: Doctor Eduardo Colmenares.  
Instructor's office: Bolin Hall, office 124B.  
Instructor's email: [eduardo.colmenares@msutexas.edu](mailto:eduardo.colmenares@msutexas.edu)

**Office Hours**

Monday: 3:30 pm to 4:30 pm  
Tuesday: 8:30 am to 9:30 am  
Wednesday: 10:00 am to 11:00 am  
Thursday: 8:30 am to 9:30 am, and noon to 1:00 pm.  
Friday: **No office hours**

**ZOOM information**

[Zoom Link](#)

**Course Description**

A continuation of the development of a disciplined approach to the design, coding, debugging, and testing of programs. Introduction to data structures, abstract data types (ADT), recursion, and algorithm analysis using a high level language.

**Textbook**

Is the textbook required? The answer is yes.  
Textbook name: Starting Out with C++, Early Objects.  
Textbook edition: Most Recent Edition  
Textbook Author: Gaddis, Walters and Muganda.

**Required Software**

Visual Studio 2022. Please remember that Visual Studio is available to MSU students free of charge and is accessible in multiple computer labs in the Bolin Building. Students are welcome to use Replit **without AI assistance** to develop their programming projects and to build foundational, marketable skills expected of a computer scientist. All projects will be run and graded based on their correctness and behavior when executed in Visual Studio 2022. It is the student's responsibility to ensure that any project successfully developed in Replit executes flawlessly in Visual Studio 2022. Failure to comply with this requirement will result in a poor grade. Please note that Visual Studio is not the same as Visual Studio Code. Make sure that you understand the difference.

## Evaluation Process

The final grade for this course will be based on participation, projects and exams. A description is provided below:

- You will have two tests, each one of these tests is worth 20 percent.
- You will have one final exam worth 20 percent.
- All your tests will count for 60 percent of final your grade.
- You will have several programming assignments. All your programming assignments will count for 25 percent of final your grade.
- The next category is attendance. Attendance will count for 5 percent of your final grade.
- The last category is participation, and this will count for ten percent of your final grade. Please be aware that this category includes in class activities and quizzes. Below you will find additional information about this category.
  - Activities given in class, also known as in class activities (ICAs) will be unannounced in nature.
  - Quizzes will be non-pop-up quizzes.
  - No makeup participation activities or assignments are given.
  - Arriving late, leaving early to class voids the right to take a quiz or in class activity if it already started or it is about to start.

## Evaluation Process Summary Table

Category	Percentage
Test 1	20%
Test 2	20%
Final Exam	20%
Homework	25%
Attendance	5%
Participation (Quizzes)	10%

## Grading Policy

89 to 100 points is an A.

79 to 88.99 points is a B.

69 to 78.99 points is a C.

59 to 68.99 points is a D.

0 to 58.99 points is an F.

## Attendance

- Attendance is a component of the course grade (five percent). Each student will begin with 100 points for their attendance grade. For each additional unexcused absence 33.33 points will be subtracted from the attendance grade.
- Your instructor will go over the class roster at the beginning of class and will call the students by name, if the student is not present at that time, an absence will be given and not removed after arrival. Arriving late will be considered unexcused absence. The Attendance grade is 100% under the student's control.
- After five (5) unexcused absences the student will be dropped from the class (To be enforced).
- In the case of international students, in addition to an absence, an email will be send to you and Miss Rhiannon Barnett (International Services Specialist) [dso@msutexas.edu](mailto:dso@msutexas.edu). Your faculty members are not responsible for your immigration status. It is in your best interest to maintain a correct and good immigration status.

- Traveling during the semester to attend a family related matters such as weddings, vacations, etc, will not exclude you from an absence and will waive the right to any exam, quizzes, presentations, projects due during the time that were absent.
- Additional class attendance related MSU Policies apply.

## **Tests**

Tests are comprehensive in nature. No make-up exams will be given, except for the following cases:

- Properly documented Surgery, Medical Emergency, Death in the family, Presentation at a Conference, some others as determined by the instructor.
- If you miss an exam, the make-up exam you need to notify the instructor and demonstrate with the proper official documentation (signatures, seals, contact information) that an emergency that you could not circumvent existed. This documentation must be presented not later than 24 hours after the test.
  - a. Students who miss an exam due to University business should notify the instructor in advance, and present the sponsoring university member's written justification.
  - b. If your instructor cannot verify or validate the given documentation, then it will consider invalid and no make-up exam will be given.

If you do miss an exam and your case fall in one of the categories above this means that you have a properly documented case. Your instructor will proceed to assign a temporary grade of zero, which will be substituted for your excused test grade (Final Exam). However, this substitution can only be performed once during the semester. Exams are uniquely composed for each term.

## **Homeworks**

This category may have two types of homeworks, in class homeworks (ICH) and take home homeworks (THM). Take-home homework assignments must be completed without the assistance of any AI tools or classmates. The main objective of these assignments is to expose students to situations in which conceptual knowledge, combined with critical thinking skills, results in a functional and valid solution, while developing and strengthening the lifelong, marketable skills expected of a computer scientist.

In-class homework assignments may be designed to be completed on paper or on a laptop. However, during these assignments, the use of AI plugins or AI assistants is strictly prohibited and will result in an automatic grade of zero for the assignment.

Students must be prepared to defend and properly explain any submitted code or homework at any time.

## **Laptop Policy**

For this class, you are not required to buy a laptop. However, if the instructor announces an ICH (In Class Homework) or ICA (In Class Activity), you are responsible for:

- a. Bringing a laptop with all necessary programs properly installed, configured and tested.
- b. Bringing the laptop's charger: If you do not bring your charger and cannot complete the assignment(s) because your battery died, then your grade will not be a good one.
- c. Make sure that you have a fully working and in-classroom tested Wi-Fi capabilities. If you cannot submit your homework because your Wi-Fi does not work, then your grade will not be a good one.

## **No Procrastination Policy**

Students are strongly encouraged to contact the instructor during office hours to clarify questions associated with lectures, exams, assignments, presentations, quizzes, homework,

etc. Questions are more than welcome from the moment the assignments, projects, quizzes, exams are either released or announced, however, all questions stop the day before the assignment, exam, quiz, presentation is due. This rule is designed to promote responsible time management and personal organization.

### **Late Policy & Deadlines**

- Submitted work is due when specified, as specified (format) by the instructor. It is in the student's best interest to keep track of all deadlines.
- The instructor is not required to remind students of ANY date and/or deadline associated with tests, homework, reports, project assignment, etc.
- **Late assignments WILL NOT BE ACCEPTED. This rule will be enforced**
  - **What does it mean to be late?** Answer: for example, if your assignment is due today at 8:00 am and you attempt to deliver your report by 8:00:01 am (1 second late) then it will be considered late. There will not be exemptions of any kind.
  - **Assignments MUST be submitted to the corresponding Dropbox via D2L before it closes (deadline).** If the Dropbox has closed and you cannot upload your assignment to it, then you are late and your assignment will not be accepted.
  - Students will have more than enough time to complete their assignment on time.
  - Internet outage, computer problems, car problems, work, and several others are NOT a valid excuse for a late delivery.
- Very Important: Before you submit any file, take your time and double OR triple check that
  - a. You are uploading the correct and ALL necessary files
  - b. Your work is correct at the best of your abilities
  - c. Failure to fulfill (a) and (b) ON TIME, WILL NOT excuse you from a bad grade.

Please let your instructor know if you are going to miss a class for academically related extracurricular activities. If this is the case you must present the sponsoring university member's written justification before your absence occurs.

### **Excusing Late Work**

Any document used to excuse the late delivery of an assignment MUST be presented no longer than one week from the corresponding missed deadline. Valid excuses (Surgery, Medical Emergency, Death in the family, and Presentation at a Conference). Failure to fulfill this requirement will make null the excuse, leading to a permanent grade of zero in the corresponding assignment.

### **Additional Grade Policy**

Once the grades, have been either returned to the students, or published via D2L, the student will have one week to examine them and check for inconsistencies, errors, etc. After the one week window of opportunity all grades will become PERMANENT and WILL NOT change. It is not only the student's responsibility to check the accuracy of his/her grades, but also in his/her best interest to do it. This rule DOES NOT apply to the final exam because the final is exam triple checked by the instructor before publishing the grade.

### **Academic Misconduct Policy & Procedures**

Cheating, collusion, and plagiarism (the act of using source material of other persons, devices, AI Generators, either published or unpublished, without following the accepted techniques of crediting, or the submission for credit of work not the individual's to whom credit is given). The Department of Computer Science has adopted the following policy related to cheating

(academic misconduct). The policy will be applied to all instances of cheating on assignments and exams as determined by the instructor of the course. (See below for link to MSU definitions.)

- 1st instance of cheating in a course: The student will be assigned a non-replaceable grade of zero for the assignment, project or exam. *If the final grade in the course, does not result in a one letter grade reduction, the student will receive a one letter grade reduction in course.*
- 2nd instance of cheating in a course: The student will receive a grade of F in course & immediately be removed from course.
- All instances of cheating will be reported to the Department Chair and, in the case of graduate students, to the Department Graduate Coordinator.

***Note: Letting a student look at your work is collusion and is academic misconduct!***

***Can I use AI to solve my homework and/or project: The answer is NO, this is also an academic misconduct!***

See Also: [MSU Student Handbook](#): Appendix E: Academic Misconduct Policy & Procedures.

### **Policy on Testing Process**

The Department of Computer Science has adopted the following policy related to testing.

- a) All bags, purses, electronics (turned off), books, etc. will be placed in the front of the room during exams, or in an area designated by the instructor.
- b) Unless otherwise announced by the instructor, nothing is allowed on the desk but pen/pencil/eraser and test papers.
- c) You are not allowed to leave the classroom. Please take this seriously and into consideration before any test and the final. Prepare yourself to be in the classroom during the entire exam.
- d) If you decide to leave the classroom during a test and/or the final exam, your exam will be collected, and you will not be allowed to continue.

### **Classroom Civility**

All violations of classroom civility will be reported to the Dean of Students.

Students are expected to assist in maintaining a classroom environment that is conducive to learning. In order to ensure that all students gain from time spent in class, students are prohibited from engaging in any form of distraction, e.g. leaving the room for extended periods of time, reading newspapers (or other articles), working on other courses, and using cell-phones or laptops for calls or messages. If you indulge in any such inappropriate behavior (without explicit consent of the instructor), you will (at the very least) be asked to leave the classroom. [MSU Dean of Students Website](#).

### **Student with Disabilities**

Any student who, because of a disability, may require special arrangements in order to meet the course requirements should contact the instructor as soon as possible to make any necessary arrangements. Students should present appropriate verification from disability support office during the instructor's office hours. Please note instructors are not allowed to provide classroom accommodations to a student until appropriate verification from Disability Support Office has been provided. For additional information you may contact the [Disability Support Services](#).

## **Dean of Students**

The Dean of Students can assist in notifying the campus community of student illnesses, immediate family deaths and/or student death. Generally, in cases of student illness or immediate family deaths, the notification to the appropriate campus community members occur when a student is absent from class for four consecutive days with appropriate verification. It is the student's responsibility for missed class assignments and/or course work during their absence. [MSU Dean of Students Website](#).

## **RECORDING OF CLASS LECTURES**

Permission must be requested in writing & obtained from the instructor before recording of class lectures. If permission is granted, the recording may only be used by the student making the recording. Recordings may NOT be posted on any internet source without written permission of the instructor. Failure to adhere to the policy may result in removal from the course with a grade of F or other appropriate punishment.

## **University's Campus Carry**

Senate Bill 11 passed by the 84th Texas Legislature allows licensed handgun holders to carry concealed handguns on campus, effective August 1, 2016. Areas excluded from concealed carry are appropriately marked, in accordance with state law. For more information regarding campus carry, please refer to the University's webpage at [Campus Carry](#).

## **Additional Office Hours & Meeting Policies**

In order to protect your wellbeing and the one of those that you care about, the following preventive measurements will take place:

- a) Office hours may be conducted virtually via Zoom. To request a virtual meeting, students must email the instructor in advance and include their first and last name, course name, and several possible meeting times. Requested times must fall within the office hours listed at the beginning of this syllabus. Virtual office hours are not additional office hours; they are held during the instructor's scheduled office hours. After receiving the request, the instructor will send a Zoom invitation. Please refer to this syllabus for detailed office hour information.
- b) Your instructor will not touch any computer or USB Drive. NO Exemptions.
- c) If at some point you need/want me to look at your programming assignment or class project, you can do it by sharing your desk via ZOOM (Virtually) during office hours.
- d) Questions associated with ADVISING, degree plans, etc., will be addressed (Virtually-ZOOM) during office hours.
- e) The faculty member is open and available to face to face meetings if the student is in good health condition and not showing symptoms of running nose, sneezing, coughing.

## **Research and Creative Activity Opportunities at MSU**

Enhancing Undergraduate Research Endeavors and Creative Activities (EURECA) is a program that provides opportunities for undergraduates to engage in high-quality research and creative activities with faculty. EURECA provides incentives and funding through a system that supports faculty and students engaged in collaborative research and creative works. For more information contact the Office of Undergraduate Research at (940) 397-6274 or by email at [eureca@msutexas.edu](mailto:eureca@msutexas.edu) or better yet, stop by the UGR office located in the atrium of the Clark Student Center, room 161. Information and resources are also available at [Eureca's website](#)

## **Undergraduate Research Opportunities and Summer Workshop (UGROW)**

Like EURECA, UGROW provides opportunities for students to conduct research with faculty. However, the research occurs in the summer. For five weeks UGROW students experience the authenticity of scientific research as well as research and creative activities in art, music, theater education, business, health and social sciences, English, history, etc. in a highly interdisciplinary environment. Students work on projects of their choice and present their findings at the end of program and the MSU Undergraduate Research and Creative Activity Forum. Faculty members will introduce their research ideas February 13th, 2019, at 5:00 p.m., Comanche Suites, Clark Student Center. A break-out session with individual faculty members will follow. If you have any questions, contact the Office of Undergraduate Research at (940) 397-6274 or by email at [eureca@msutexas.edu](mailto:eureca@msutexas.edu). More information and resources are available at [ugrow's website](#)

## **Pregnant and Parenting Students**

To support the academic success of pregnant and parenting students and students with pregnancy related conditions, the University offers reasonable modifications based on the student's particular needs. Any student who is pregnant or parenting a child up to age 18 or has conditions related to pregnancy, may contact MSU's designated Pregnancy and Parenting Liaison to discuss support available through the University. The Liaison can be reached by emailing [ruby.garrett@msutexas.edu](mailto:ruby.garrett@msutexas.edu) or calling 940-397-4500. Should a student communicate with me that they are pregnant or have a pregnancy related condition or may need additional resources related to pregnancy or parenting, I will communicate that student's information to the Title IX Coordinator, who will work with the student and others, as needed, to ensure equal access to the University's education program or activity.

A pregnant student, a parenting student, or a student with pregnancy related conditions may be provided with supportive measures, based on the student's individualized needs, analogous to those provided to a student with a temporary medical condition, and provided such supportive measures do not fundamentally alter the nature of an education program or activity.

## **Precautions for Covid, Flu, Streptococcus, or any respiratory disease.**

You are not obligated to wear a mask; however, if you wish to show courtesy and help protect the well-being of your classmates, please feel free to wear one. This would be greatly appreciated.

## **Final Exam**

- There is no make-up final exam. The final exam will take place in our regular classroom (unless decide otherwise by the University). It is the student's responsibility to keep track of the designated date, time. A complete list of all MSU exams (by time) can be found at [Final Exam Schedule](#).
- The date of our final exam is Tuesday, May 12 from 8:00 am to 10:00 am.
- There is no make up for the final exam.

## **Tentative Agenda**

The instructor reserves the right to add, remove, reorder topics as he considered convenient towards the benefit of the class. By the end of the semester you will have a very good understanding of the following categories and multiple non mentioned subcategories.

1. Review from 1044
  - a. Functions

- b. 1D-2D Array
  - c. Assignment # 1
- 2. Abstract Data Types
  - a. Classes and Objects (Light Treatment)
    - i. Member Functions
    - ii. Constructors/Destructors
    - iii. Member Function Overloading
  - b. Composite Data Structures
    - i. Structures
    - ii. Arrays of Objects / Structures
    - iii. Objects / Structures with Array data members
  - c. Objects / Structures as Function return types
- 3. Strings
  - a. Assignment # 2
- 4. Searching, Sorting, and Algorithm Analysis
  - a. Array Search and Sort
  - b. Introduction to Algorithm Analysis and  $O(n)$
  - c. Growth Functions
  - d.  $O(n^2)$  Sorts
  - e. Assignment # 3
- 5. Pointers
  - a. Pass by Reference
  - b. Dynamic Memory Allocation (incl. 1D and 2D arrays)
  - c. Assignment # 4
- 6. Recursion
  - a. Inductive Reasoning
  - b. Divide and Conquer
  - c. Recursion vs. Iteration
  - d. Recursion Implementation
- 7. Linked Lists
  - a. Linked List Operations
  - b. Single, double, circular lists
- 8. Stacks & Queues
  - a. Array based
  - b. Pointer based
  - c. Assignment # 5
    - i. Assignment # 5 may be replaced with a 50 minutes in the lab programming assignment that will require the student to show and exercise all the knowledge compiled during the semester. This means that you will have only 50 minutes to solve a problem.
