Dissertation Project Defense Evaluation Rubric

Overview:

While leadership is about influence and getting results, it also requires continuous growth in the process of leading. The self-actualized leader reflects on personal mastery and excellence. As the culminating experience that demonstrates the scholarly practitioner's ability to solve problems of practice, the Dissertation in Practice (DIP) showcases the doctoral candidate's ability "to think, to perform, and to act with integrity" (Shulman, 2005). The ***Leading with Influence*** evidence places the candidate in a leadership role to implement a series of short-term "next-step" interventions, which have been identified previously during the strategic planning process, as well as to evaluate each one's overall effectiveness and potential for expansion. Along with other pertinent discussions, the candidate will also present a final strategic communication plan at the conclusion of the DIP which is designed to provide a compelling argument for continuing with certain interventions based on short-term data analyses and findings. The "strategic communication plan" (developed by the candidate in EDLE 6203) should present information suitable for sharing the results of the DIP with key stakeholders (principals, parents, faculty/staff, school board, community leaders, county commissioners, etc.). The written communication plan should be in the form of an *Executive Summary*.

Directions to the Candidate and Requirements:

The Dissertation in Practice (DIP) is a formal demonstration of the doctoral candidate's knowledge, skills and behaviors, scholarship, and dispositions of educational leadership. It is intended to serve as a demonstration that the doctoral candidate is capable and prepared to provide extraordinary leadership. The DIP is a strategic plan to solve a problem of practice with the preliminary steps "next steps" of implementation and evaluation of potential solutions. It involves working with a -level leader (superintendent or designee) on a problem, or opportunity, that is of mutual concern to them. The DIP serves to provide major evidence of leadership performance, leadership capacity, and leadership thinking.

The candidate should be aware that the DIP must be a practical application of the candidate's: (1) strategic planning skills; (2) use of data to impact teaching and learning; (3) ability to build and use relationships toward the same end; and (4) ability to apply theory to practice. These four cornerstones emanate from the framework of four key strands of Midwestern State University's Ed.D. Program in Educational Leadership: *Strategic Leadership*; *Data and Learning*; *Building Collaborative Relationships*; and *Theory, Application and Practice*. The assessment of the DIP is guided by the rubric below, which evaluates the candidate's proficiency in knowledge, skills in oral and written communication, leadership, and dispositions as they are applied to the evidence or product produced by the candidate.

Evaluation:

The Dissertation in Practice Rubric will be utilized by the candidate's DiP chair to evaluate the candidate's DiP during the final semester of dissertation work (EDLE 6203). It will also be used as a formative assessment of progress in the dissertation classes prior to the last semester.
