#### **Course Description**

For students of all disciplines who want to explore and better understand the theoretical and practical complexities of digital and new media rhetoric. Students will critically analyze rhetoric in the context of historical and current technologies, consider the cultural and ethical issues of composing in a digital age, and demonstrate their understanding in course assignments. Prerequisites: Communication Core

#### **Course Learning Outcomes and Measurements**

Upon completion of this course, a student will be able to:

- Compare various definitions of rhetoric, digital rhetoric, and media and discuss their implications for practice. Measurement: Observation and analysis of informal face-to-face and online asynchronous discussions.
- Critically analyze digital tools and concepts. Measurement: Observation and analysis of discussions. Completion of written assignments. Completion of team and individual class presentations.
- Incorporate visual rhetoric into the composing process. Measurement: Completion of class presentations.
- Synthesize readings into an expression of the student's understanding of rhetoric as it applies to media applications, historical and present. Measurement: Completion of reading responses and course research project.

## University and Course Policies and Procedures

### Professionalism

Members of this class are expected to treat one another with courtesy, professionalism, and respect.

### Instructor Response Policy

I will respond to emails within 24 hours on weekdays, and within 48 hours on weekends and holidays. I typically grade and return assignments within one week following the due date.

### Absentee Policy

Students with three unexcused absences are subject to an administrative withdrawal from the course. Three tardies are counted as one absence. School closure policy: **If the university is closed due to weather or a security alert on the date of a scheduled class, the class will meet virtually in Zoom.**

### Late Assignment Policy

All assignments will be due on dates assigned. No late work will be accepted. Students falling two assignments behind are subject to administrative withdrawal from the course by the instructor.

### Cell phone use

Cell phones and earbuds need to be put away during the class session (e.g., in a pocket, purse, or backpack). If you receive a call or text to which you need to respond, please leave the room to do so. If you are using an e-text, please access the e-text on the class computer. **Earbuds are not allowed in class** unless you have obtained permitted use through Disability Services and provided the instructor the necessary documentation.

## University Academic Dishonesty Policy & Procedures

Academic Dishonesty is defined as “Cheating, collusion, and plagiarism (the act of using source material of other persons, either published or unpublished, without following the accepted techniques of crediting, or the submission for credit of work not the individual’s to whom credit is given).” Additional guidelines on procedures in these matters may be found in the [Student Handbook](#), under Academic Dishonesty Procedure or through the [Office of Student Rights and Responsibilities](#).

### Class Academic Dishonesty Policy Details and Advice

- **Ask for help:** First, and importantly, as the instructor of this course, I am available to assist you with any questions you have about the use and citation of sources. Just contact me several days before the assignment is due with a link to the source so that I have time to look over the article and adequate time to meet with you to discuss your concerns or need for assistance.
- **Provide Instructor access to sources used in assignments:** All sources cited in an assignment must be available, accessible online for me, the instructor, to review as I grade your assignments. Simply provide a working link (URL) to the complete article at the end of each Reference or Works Cited entry at the end of the document, or upload the article to the dropbox for the submission. A link to an abstract or to an online database which has a paywall won’t work: I need to be able to read the entire article, just as you did.
- **Accurately cite sources:** When using the ideas of other published and/or unpublished sources, students must use accepted documentation conventions (i.e., MLA or APA). All quoted content must be placed in “quotation marks,” and for quoted, paraphrased, and summarized content, the correct source must be cited in the text. Stating, “I meant to put the text in quotation marks but forgot to do so,” “I cited the name of the source but forgot the quotation marks,” or “I cited the wrong source” are not acceptable explanations for inaccurately citing sources.
- **Don’t use AI:** Generally speaking, you are not allowed to use artificial intelligence (AI) engines, software, or artwork generating programs to produce content submitted for grading in this class **unless** the assignment instructions specifically call for the use of AI. I will provide more information about any specific assignment that involves the use of AI when the time is appropriate in the course. You may not, however, construe this limited use as permission to use these technologies in any other facet of this course.
- **Be aware of the penalty:** Please don't allow inaccurate use and citing of sources to negatively impact your grade. Doing so will result in a grade of zero for the assignment. If this happens twice, you will receive a grade of “F” for the course.

### Campus Carry Rules/Policies

Information on the University’s policy may be found at [Campus Carry at MSU Texas](#).

### Grade Appeal Process

Students who wish to appeal a grade should consult the Midwestern State University [MSU Catalog](#)

## University Opportunities and Services

### Research & Creative Opportunities

Enhancing Undergraduate Research Endeavors and Creative Activities (EURECA) is a program that provides opportunities for undergraduate students to engage in high-quality research and creative activities with faculty. EURECA provides incentives and funding through a system that supports faculty and students in a cooperative research process. For more information, contact the Office of Undergraduate Research, (940) 397-6274 or [eureca@msutexas.edu](mailto:eureca@msutexas.edu). Information and resources are available on the [EURECA website](#).

### Services for Students with Disabilities

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Midwestern State University endeavors to make reasonable accommodations to ensure equal opportunity for qualified persons with disabilities to participate in all educational, social, and recreational programs and activities. After notification of acceptance, students requiring accommodations should make application for such assistance through Disability Support Services, located in the Clark Student Center, Room 168, (940) 397-4140. Current documentation of a disability will be required in order to provide appropriate services, and each request will be individually reviewed. For more details, please go to [Disability Support Services](#).
