Final Exam - TBD

Textbook: The following text is required for the course. Material presented in class will NOT be exclusively from the text, but will enhance the contents introduced in the readings.

Boone, Tommy (2014). Introduction to Exercise Physiology. Jones & Bartlett Learning, Publishers. Burlington, MA.

Course Objectives:

1. Explain the energy systems, energy transfer during exercise and how best to train these systems for maximum performance in the development of physical fitness and performance.
2. Describe the basic physiology of muscular contraction and the principles related to the development and maintenance of strength, muscular endurance and flexibility.
3. Describe the function of the respiratory and circulatory system during rest and during exercise.
4. Describe the function of the cardiovascular system including the associative factors and theories in the prevention/rehabilitation of cardiovascular disease.
5. Describe the physiological responses and adaptations to environmental changes at rest and during exercise.
6. Develop an understanding of sport training methods for strength, power and endurance and the physiological effects.
7. Describe hormonal regulation of exercise as it relates to metabolism and energy transfer.

Course Evaluation: Evaluation of the course material will be broken down between four (4) exams throughout the semester, five (5) quizzes taken on D2L, and ten (10) participation opportunities. Exams will be in person and worth 66% of your overall grade. **MAKE UP EXAMS WILL NOT BE GIVEN AFTER THE SCHEDULED DATE.** Quizzes taken on D2L will account for 17% of total grade. Participation opportunities will be unannounced and will consist of activities related to the daily lecture.

A. Participation (10 @ 10pts each)	100 pts	17%
B. Quizzes (5 @ 20pts each)	100 pts	17%
C. Exams (4 @ 100pts each)	<u>400 pts</u>	<u>66%</u>
	Total: 600 pts	100%

GRADING SCALE:

Grades will be assigned on the following points needed:

A: $\geq 90.00\%$	≥ 540
B: 80.00-89.99%	480-539
C: 70.00-79.99%	420-479
D: 60.00-69.99%	360-419
F: $\leq 59.99\%$	359 pts and below

Attendance

Attendance at class is **compulsory** if you intend on performing well in this course. Attendance will be taken for each class period. If you are not feeling well, I encourage you to stay away from the classroom. Lectures will not be recorded so it is your responsibility to get notes from fellow classmates.

Classroom Policies: It is assumed that everyone enrolled in this course is here to pursue further knowledge in the area of human movement. The following list provides what will be expected by the instructor and should also be expected by the students:

1. Attendance in class is expected. If you will not be able to participate in a class session please notify the instructor **PRIOR** to your absence in a timely manner. Only those with excuses that are related to University events (academic, athletic, etc.) or religious purposes may make-up work. If you have an excused absence and will not be available for an exam (**EXCLUDING the FINAL EXAM**) you must take the exam **PRIOR** to your absence (**NO EXCUSES!!**). Those individuals who do not have an excuse for an absence will receive a zero score for that day's evaluation. If you fail to inform the instructor in a timely manner of your absence, then any make-up work performed will be worth 50% of the original work.
2. Turn off all cell phones, pagers, and any other electronic devices before class begins. It is disrupting to other students, and disturbing to the instructor if these electronic devices are active during the class period.
3. If you have a question that was not answered during the class period please feel free to stop by my office or email me your question (see front page).
4. Neither academic dishonesty nor plagiarism will be tolerated and as such, disciplinary action will be issued in accordance with university guidelines.

Services for Students with Disabilities

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Midwestern State University endeavors to make reasonable accommodations to ensure equal opportunity for qualified persons with disabilities to participate in all educational, social, and recreational programs and activities. After notification of acceptance, students requiring accommodations should make application for such assistance through Disability Support Services, located in the Clark Student Center, Room 168, (940) 397-4140. Current documentation of a disability will be required in order to provide appropriate services, and each request will be individually reviewed. College Policies

Campus Carry Rules/Policies

Refer to: Campus Carry Rules and Policies

Smoking/Tobacco Policy

College policy strictly prohibits the use of tobacco products in any building owned or operated by WATC. Adult students may smoke only in the outside designated-smoking areas at each location.

Alcohol and Drug Policy

To comply with the Drug Free Schools and Communities Act of 1989 and subsequent amendments, students and employees of Midwestern State are informed that strictly enforced policies are in place which prohibits the unlawful possession, use or distribution of any illicit drugs, including alcohol, on university property or as part of any university sponsored activity. Students and employees are also subject to all applicable legal sanctions under local, state and federal law for any offenses involving illicit drugs on University property or at University-sponsored activities.
