**Course Prerequisite(s)**

Junior standing or above, and FINC 4933 with a grade of “C” or higher.  
The course must be taken in a consecutive semester following FINC 4933 for a total of 6 credit hours. Students must have earned a grade of “C” or higher in FINC 4933.

## **Learning Goals**

### **1. DCOBA Undergraduate Program General Learning Goals**

GLG 1: Our students will be effective at problem solving and decision making.

Objective: Our graduates will demonstrate problem solving and decision-making abilities through the critical analysis, evaluation, and interpretation of business information.

In this class students will demonstrate problem solving and decision-making ability as they synthesize information to analyze firms' financial conditions and value, and make investment recommendations and decisions. Grades on analysis reports are partially based on the appropriateness of student's qualitative and quantitative analysis.

GLG 2: Our students will be effective communicators.

Objective: Our graduates will be able to demonstrate a competency in speaking and writing for common business scenarios.

2a: Our graduates will be able to demonstrate a competency in speaking for common business scenarios.

2b: Our graduates will be able to demonstrate a competency in writing for common business scenarios. In this class students will make several presentations based on their research on specific sectors/industries and individual companies/stocks. Students will also be expected to deliver a formal report and presentation about the fund performance to the college at the end of the semester. Students will be graded on the quality of their writing and the effectiveness of their presentation.

GLG 3: Our students will be technologically prepared.

Objective: Our graduates will be able to utilize available technology for business applications.

In this class students will conduct investment analysis using tools such as MS Excel. In addition, students will learn how to use Bloomberg Terminal to collect market and financial information. Grades on the analysis reports are partially based on the student's proficiency in Excel and Bloomberg Terminal.

GLG 5: Our students will be effective team members.

Objective: Our graduates will know how to use team building and collaboration to achieve group objectives.

Students will work in teams as they gather information, make investment decisions, and evaluate fund performance. Grades are partially based on student's ability to work in a team.

### **2. Course Specific Learning Goals**

This course provides an opportunity for students to participate in the management of DCOBA's Student Managed Security Trading and Research (STAR) Fund. Upon successful completion of this course, students should be able to:

- 1) Explain the importance of an Investment Policy Statement;
- 2) Carry out common stock valuation and selection;
- 3) Determine asset allocation and diversification in a portfolio context;
- 4) Summarize and evaluate portfolio performance.

## Grading and Evaluation

Evaluation of student performance will be conducted by means of written reports, presentations, and participation in fund operation and management.

### 1. Analyst Report and Presentation

Each student enrolled in FINC 4943 is required to prepare individually two analyst reports (one for each stock selected for the fund portfolio) and present the reports to the class on the scheduled dates. Students are required to submit their analyst reports, including all supporting materials, to the instructor and all SMIF members by 5:00 PM on the scheduled presentation dates.

### 2. Stock Follow-up

Students will track the performance of assigned stocks in the SMIF portfolio, and report to the class about important information of the stocks, such as market development, earning release updates, mergers and acquisitions, and revised outlook, etc. Each student then needs to make recommendations regarding whether to continue to hold an existing stock, to sell an existing stock, or to set new parameters such as target price and/or stop loss price on an existing stock. The actual adjustments of the holdings of the Fund will be based on recommendations accepted by the class and the instructor.

### 3. Fund Operation and Management Tasks

SMIF students need to take responsibilities in the fund management. For FINC 4933 students, each student is required to undertake one of the following fund management tasks:

- Class President (1-2 persons). Tasks include but are not limited to:
  - Preside over class meetings
  - Taking class votes and report the results/decisions to the instructor
  - Coordinating with other SMIF members to make sure each project and assignment, including the final presentation, can be finished on time
- Portfolio Maintenance in Bloomberg (1-2 persons). Tasks include but are not limited to:
  - Update SMIF's portfolio in Bloomberg terminal after each transaction
  - Provide in-time and accurate portfolio information to the portfolio evaluation team
  - Work with the portfolio evaluation team in the assessment and evaluation process
- Portfolio Evaluation Analyst (2-3 persons). Tasks include but are not limited to:
  - Evaluate SMIF's holdings and performance three times during this semester: at the beginning of the semester, at mid-semester, and at the end of the semester.
  - Report to the class about the allocation, diversification and performance of the portfolio. Explain to class about the reason(s) for changes in allocation and performance change
  - Lead the discussions of portfolio performance in the final presentation and report.
- Fund Economist (2-3 persons). Tasks include but are not limited to:
  - Follow up with the economy and financial markets and provide the class each week with most updated market information
  - Explain to class how the movement in the economy and market would affect SMIF.
- Public Relation/Communication (1-2 persons). Tasks include but are not limited to:
  - Make arrangements with guest speakers
  - Lead the production of the semester-end portfolio report
  - Organize the final presentation, including invitations.

- Maintain the class LinkedIn Group, and organize networking activities within the class and among SMIF alumni.
- Senior Analyst (1-2 Persons)
  - Work with economists to discuss the sectors of interest and make informed recommendations to the fund on new investment opportunities that could enhance or diversify the portfolio
  - Ensure the understanding and use of appropriate valuation models by all fund members.

Assignment of these tasks will be discussed on the first class. Grade will depend on the performance in fulfilling assigned tasks.

#### 4. Portfolio Performance Report and Presentation

SMIF Students are required to work as a team to prepare a performance evaluation report for the fund portfolio. A formal presentation on fund performance will be delivered by the class to the Faculty Advising Committee and DOCBA administration at the presentation. Students are required to submit the performance report to the instructor at least one day before the scheduled presentation time.

#### 5. Team Collaboration and Participation

The fund operates as a team and it's very important that team members collaborate effectively and smoothly together to achieve the group goals. During the semester a peer review will be conducted to evaluate individual member's participation and collaboration. Grade will be based on the peer review result, student's attendance, and the instructor's evaluation about the member.

Table 1 and Table 2 below illustrate the grade components and the grading standard.

Table 1: Points allocated to each grading element

Element	Points
Analyst Reports	30%
Holdings Follow-ups	20%
Individual Task	20%
Final Presentation and Report	20%
Team Participation	10%
Total	100%

Table 2: Grading Standard

Grade	Points
A	90 or greater
B	80 to 89.99
C	70 to 79.99
D	60 to 69.99
F	Lower than 60

### Midterm Progress Report

In order to help students keep track of their progress toward course objectives, the instructor for this class will provide a Midterm Progress Report through WebWorld for at-risk students. Midterm grades will not be reported on the students' transcript; nor will they be calculated in the cumulative GPA. They

simply give students an idea of where they stand at the midpoint of the semester. Students earning below a C at the midway point should schedule a meeting with the instructor and seek out tutoring options.

## **Attendance and Classroom Policy**

1. Instructor Drop. This class follows MSU Undergraduate Catalog regarding to the [Instructor Drop policy](#):  
An instructor may drop a student any time during the semester for excessive absences, for consistently failing to meet class assignments, for an indifferent attitude, or for disruptive conduct. The instructor must give the student a verbal or written warning prior to dropping the student from the class. An instructor's drop of a student takes precedence over the student-initiated course drop of a later date. The instructor will assign a grade of either WF or F through the first 9 weeks of a long semester, the first 6 weeks of a 10 week summer term, or the 12<sup>th</sup> class day of a 4 or 5 week summer term consisting of 20 days. After these periods the grade will be an F.
2. Students are expected to attend every class, including analyst presentations and the end-of-semester presentation. Absence from important class events will result in a lower grade by at least one grade level.
3. No food or beverage is allowed in the classroom. This is a college policy.
4. Redistribution of any course material provided by the instructor in any form outside this class is strictly prohibited.

Violating above rules will either cause you being dropped from this class or cause your final letter grade to be lowered depending on the severity of the violation.

## **Academic Integrity**

With regard to academic honesty, students are referred to the [Student Honor Creed](#), including the following statements:

"We consider it dishonest to ask for, give, or receive help in examinations or quizzes, to use any unauthorized material in examinations, or to present, as one's own, work or ideas which are not on entirely one's own. We recognize that any instructor has the right to expect that all student work is honest, original work. We accept and acknowledge that responsibilities for lying, cheating, stealing, plagiarism, and other forms of academic dishonesty fundamentally rests with each individual student"

Academic dishonesty such as cheating, lying, collusion, and plagiarism will be taken seriously and will be investigated. The minimum penalty is an "F" in this course and referral to the Dean of Students for disciplinary action, which may result in expulsion from the University.

## **Americans with Disabilities Act**

If a student has an established disability as defined in the Americans with Disabilities Act and would like to request accommodation, that student should see me as soon as possible (preferably within the first two weeks of the semester). This class follows the guidelines suggested by [Office of Disabilities Support Services](#) for students who qualify for disability services. Please see [Midwestern State University Undergraduate Catalog](#) for details.

## **Campus Carry statement**

Senate Bill 11 passed by the 84th Texas Legislature allows licensed handgun holders to carry concealed handguns on campus, effective August 1, 2016. Areas excluded from concealed carry are appropriately marked, in accordance with state law. For more information regarding campus carry, please refer to the [University's campus carry policy webpage](#).

## **Professionalism**

The faculty, staff, and students of the Dillard College of Business Administration are committed to being a “professional” in our words, conduct, and actions. The qualities of a professional include:

- A commitment to the development of specialized knowledge
- Competency in analytical, oral and written communication skills
