

Course Syllabus: Calculus 2
Math 1734-102 | Fall 2025 | 4 Credit Hours
MTRF 10-10:50am

Contact Information

Instructor: Dr. Jihyun Lee
Office: Bolin Hall 122B
Office Hours: Mon, Thurs 1:30 – 3:00 PM
 Tue 1:00 – 2:00 PM
 Fri 12:30 – 1:30 PM
 Other times by appointment(Zoom/in-person)
Office phone: (940) 397-4981
E-mail: jihyun.lee@msutexas.edu

Course Description

Elementary transcendental functions, techniques of integration, sequences, series, Taylor's formula, conic sections, parametrized curves, and polar coordinates. Each student must have a scientific calculator with exponential and trigonometric functions.

Course Materials

Desire-to-Learn (D2L)

This course will use D2L to distribute information. Each student is expected to be familiar with this program and to regularly check posted information. You can log into [D2L](#) through the MSU Homepage. On D2L, I will post any announcements and reminders that I feel will be helpful as we go through the semester. I will also post grades within D2L.

Textbook

Calculus Early Transcendentals, Ninth Edition by James Stewart.

Calculators

You are not allowed to use a graphing calculator or phone on quizzes or exams. You may use a scientific calculator that includes exponential and trigonometric functions.

Coursework and Grading

Homework

Homework is not a separate component of your grade and will not be collected regularly. However, quiz and exam problems are based on homework problems, so it is essential that you complete all assignments.

Homework problems may come from handouts, the lecture notes, or the textbook.

Quizzes

There will be 12 in class, open book quizzes. Depending on the type of problems, partial credit may be awarded. The two lowest quiz scores will be dropped, and the best 10 quizzes will count toward your final grade. If you miss a quiz, you will receive a score of 0. Make up quizzes will **not** be given for any reason.

Quiz dates are not fixed and will be announced in class as the course progresses.

Grading

Table 1: Percentages Allotted:

Category	Percentage
Exams (4 at 18% each)	72%
Quizzes (Best 10 of 12)	8%
Final Exam	20%

The lowest midterm-test score will be replaced with the final exam score, provided the final exam score is higher. The final exam score cannot be replaced.

Table 2: grading scale for final grade.

Grade	Percentage
A	At least 90%
B	80%-89%
C	70%-79%
D	60% to 69%
F	Less than 60%

Exam Schedule

The dates of the exams are

- Exam 1 is on Thursday, **September 18**, 2025.
- Exam 2 is on Thursday, **October 9**, 2025.

- Exam 3 is on Thursday, **October 30**, 2025.
- Exam 4 is on Thursday, **November 20**, 2025.
- The Final Exam - TBA

Course Policies

Attendance

Students who miss more than **seven lectures** may be withdrawn from the course with the grade of F.

If you miss class, it is your responsibility to

1. get notes from another student for the day(s) you missed, and
2. see me before the next class for any handouts from the day(s) you missed.

Academic Misconduct

Any incident in which a student submits work for grading that does not reflect their own effort is considered academic dishonesty. This includes using sources (by paraphrase or direct quotation) without proper attribution; collaborating on work where collaboration is not authorized; use of sources on an assignment or test where those sources are not authorized; and turning in work completed by another person. All incidents of academic misconduct will be reported as specified in your student handbook.

For most of this course, students may use any resources they wish to. For Graded Knowledge Checks, the only allowed resources are pencil, paper, and calculator.

Changes to Syllabus

Some portions of this syllabus may alter during the semester. I will announce changes by email through the D2L email system. You are responsible for knowing everything I email to your D2L email address.

Student Handbook

Make sure you are familiar with the university policies as described in the [student handbook](#). This course will abide by all university policies.

Student Resources

For information about other services available to students, please visit the Student Resources web page at https://msutexas.edu/academics/scienceandmath/student_resources.php

Services for Students with Disabilities

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Midwestern State University endeavors to make reasonable accommodations to ensure equal opportunity for qualified persons with disabilities to participate in all educational, social, and recreational programs and activities. After notification of acceptance, students requiring accommodations should make application for such assistance through Disability Support Services, located in the Clark Student Center, Room 168, (940) 397-4140. Current documentation of a disability will be required in order to provide appropriate services, and each request will be individually reviewed. For more details, please contact the Disability Support Services office.
