Course Description

A general survey course introducing the functional areas of business. This course is designed to provide the beginning student with an introduction to the various business disciplines and demonstrate their interrelationships. Common business language and professional presentations as well as ethical issues are also introduced.

Learning Goals

Dillard College of Business General Learning Goals

- Students will be effective at problem solving and decision making by understanding the basic business fundamentals of the business environment.
- Students will 1) identify challenges businesses face today, 2) learn and hear from leaders who represent all of the business disciplines and 3) become familiar with the interrelatedness of business concepts by using a business simulation experience.
- Students will develop ethical reasoning skills in the business environment.
 - Students will examine business ethics and social responsibility, detailing decision-making practices. The student will be able to define ethical dilemmas and ethical

lapses; hypothesize ethical arguments; investigate, compare and evaluate the arguments for each alternative.

- Students will develop written and oral communication skills.
- Students will learn how to communicate effectively in writing by preparing resumes, reports, and written answers to quizzes. Students will also improve their oral communication skills in making a team presentation and becoming engaged in discussions with business leaders.
- Students will develop undergraduate inquiry and creativity through teamwork.
 - Students will develop inquiry and creativity skills in developing a successful, comprehensive business plan, in evaluating risks and returns and emulating entrepreneurs, and in making strategic choices in Mike's Bikes business simulation model with their team members.
- Understand the influence of global and multicultural influences on the business environment.
 - The student must be able to recognize and explain the environmental changes leading to the growth of international competition and free trade among nations.

Course Specific Learning Goals: After completing this course, students should be able to:

- Understand the scope of the business environment, both domestically and internationally.
- Learn to communicate business analyses effectively in both oral and written measures.
- Understand the types and functions of various economic systems, defining the roles of supply and demand, competition, and government intervention in the economy.
- Understand the role of entrepreneur.
- Understand the basic definitions and interaction of multiple business disciplines, i.e., economics, management, marketing, operations management, business legal principles, and risk management.
- Students will learn basic terminology for research and/or creative activities.
- Students will learn how to apply knowledge in order to address real-world problems/answer real world questions.
- Understand different leadership styles and motivational theories.

Course Policies

Attendance Policy:

Students are expected to attend all class meetings for this course, following the university attendance policy. (See Midwestern State University Undergraduate Catalog, Volume LXXV, Number 2, page 88). Due to the nature of this course, you are allowed a maximum of 4 *absences in this course, even though there are participation points deducted for any missed classes. Once you exceed 4 absences, the professor has the right to drop you from the course.* Each meeting of the class will run as scheduled. So as not to disturb the class, you are not to walk in and out of the classroom during the class hour except for an emergency. *Cell phone activity (including texting) is prohibited and will result in significantly reduced points from class participation.* Repeated tardiness will also result in a reduction of participation points.

COVID RELATED UPDATES: All students will be expected wear a face covering during the entire class period and while inside the building. Face coverings must be worn appropriately, i.e. if you are wearing a mask it must cover both your nose and mouth. All students will be expected to attend

classes face to face when possible. However, flexibility to participate in a live stream will be given for students who are not feeling well, and do not pass the COVID-19 screening tool. If you are not feeling well, please DO NOT come to the physical classroom. For students who are occasionally unable to attend class, it will be expected that you login and participate in the live stream that will be made available via Zoom inside D2L. Not attending in person and not being available for the live stream will count as an absence. This is not a go at your own pace online course and is built around participation. Therefore, if you are feeling well, we do expect you to attend class. If you are not feeling well or do not pass the COVID-19 self assessment, please do NOT come to class and instead join us via the live stream. Please use good judgement here as participating in a live stream is ok when you are not physically well enough to come to class and attendance will be taken via both methods of instruction.

Students who fail to strictly adhere to the MSU COVID-19 policies (not wearing a mask/face covering, repeatedly wearing a mask incorrectly, and other behavioral standards) will be asked to leave the classroom and possibly dropped from the course.

Requirements for the live stream: Students must be logged into the Zoom live stream no later than 12:03. Students arriving later than 12:03 may not be granted access into the stream if I have already started teaching. *Students will be expected to remain logged in the entire time with their camera on.* If I see that your camera is off or you are not actively taking notes and participating, you will be counted absent from the course that day. Additionally, in order to make sure you are an active participant, I will call on people participating via live stream just as much as people in the classroom. As I will still take attendance for those participating in the live stream, please make sure your Zoom name reflects your name. I will not record the live streams as you are expected to participate in the class during the set time, just like the face to face components of the course.

Other Related Policies

Quiz Policy: All of the quizzes in this course will be of the pop quiz variety. **No makeup will be allowed for any missed quizzes.**

Class Participation: Most of the class sessions will be discussion oriented with ample opportunity for students to provide input to those discussions. An important characteristic of business students is the ability to verbally communicate ideas and thoughts. Participation will be a part of your grade and is directly contingent on your involvement in class discussions. Furthermore, everyone should be motivated to develop this characteristic since it is so important in business. If you have a question, please ask!!

Food and Beverage Policy: Food and beverages of any kind are not permitted in classrooms at any time. However, food and beverages may be consumed in public areas of this building. This is a Dillard College of Business rule and is an effort to keep the Dillard Building beautiful.

Grading and Evaluation

Americans with Disabilities Act

This class follows the guidelines suggested by the Disabilities Support Office for those students who qualify for disability services. For more information, see Midwestern State University Undergraduate Catalog.

Campus Carry Statement

Senate Bill 11 passed by the 84th Texas Legislature allows licensed handgun holders to carry concealed handguns on campus, effective August 1, 2016. Areas excluded from concealed carry are appropriately marked, in accordance with state law. For more information regarding campus carry, please refer to the University's webpage at <https://mwsu.edu/campus-carry/rules-policies>.

Academic Integrity

With regard to academic honesty, students are referred to the "Student Honor Creed" on page 23 of Midwestern State University Undergraduate Catalog, Volume LXXV, Number 2. Plagiarism will not be tolerated. Any student who plagiarizes on any written assignment will receive a 0 for the assignment and/or course and be referred to the Dean of Students for further disciplinary action.

Professional Conduct

Students in this course should behave in a professional manner at all times. This includes classroom conduct, group interactions, presentations, and correspondence with the instructor. E-mails to the instructor that are not professional will not be answered. Please see the later section of the syllabus for the full professionalism statement of the Dillard College of Business Administration.

Business Simulation

Each student will participate in the Mikes Bikes business simulation. You will be grouped into teams of 3-4 depending on the class size. Each team will be responsible for meeting with their group members and for playing an active role in the future of your company.

- Mikes Bikes is a business simulation that teaches students the key concepts of business and strategy.
- Students will make decisions about their company in an effort to achieve the largest shareholder value.
- Decisions will be made in regard to pricing, marketing, inventory, production, finance, and distribution.
- The team with the highest shareholder value at the end of the term will receive 15 bonus points, while the second highest team will receive 10 points.

At the end of the course, each group will be responsible for giving a 10 minute presentation about their company. There will be grades for the oral part of the presentation, written part of the presentation, and your professional appearance (see page 8 of syllabus for more information). All group members are required to speak and play an active role in the presentation. PowerPoint or Prezi is the preferred method for presentation delivery. More details on the content and structure will be discussed in class.

Mikes Bikes Single Player Introduction

In order for each student to prepare for the business simulation, each student should complete the Mikes Bikes single player introduction. During this “trial” simulation, the student will have the opportunity to become familiar with the Mikes Bikes program and will get to experiment with making decisions that do not affect the outcome of the team experience.

This will be conducted prior to the student being placed in their group for the actual simulation. Grading will be done on a completed/not completed basis, with only minimal to moderate emphasis placed on company performance. This is simply an exercise for you to become familiar with the simulation and get a basic understanding of how the decisions affect the company bottom line.

Late Work

Late work is generally not accepted for any reason. Students have the opportunity to submit papers early. More details on assignment submission can be found in the Project Guidelines.

Desire2Learn

This is the website for the course. Students are expected to check this website for important course information, course documents, and correspondence from the instructor multiple times per week.

Passport

Each student will have the opportunity to attend different business oriented events through the semester. Students will be required to attend two of the specified events in order to get credit for the

assignment. Those who attend at least three more (for a grand total of 5 events) of the specified events can earn 10 bonus points.

Quizzes

There will be both announced and unannounced quizzes given over the material we are studying and the speakers who visit class. Please make sure to attend class and pay attention to what is being discussed. Most quizzes will start precisely at the beginning of class. No makeup quizzes will be allowed, including students who are tardy.

File Submission

Most files for this course will be submitted through our online component, Desire 2 Learn (D2L). Please do not submit any assignments directly to me unless you are specifically instructed to do so.

Business Communications

Understanding how to properly communicate is one of the keys to being successful in the business world. In this class, each student will be required to submit examples that show the student has mastered the basics of business communication. Please see the information below about specific assignments that relate to business communications.

Midterm Grades

Students can always find their current grade in the course by looking under the progress report/gradebook function of D2L. However, students with a grade of C or lower will have a midterm grade put into their WebWorld account. Midterm grades are not reported on transcripts, and will not be calculated in the cumulative GPA. They simply give students an idea of where they stand at the midpoint of the semester. Students earning a C or below at the midway point should consult with the instructor to discuss strategies for improvement.

Career Interview

Each student will be required to interview someone from the field in which you desire to work upon graduation. It can be from someone in Wichita Falls, your hometown, or anywhere else where your potential job may be located. It is strongly preferred that you meet with your interviewee in person, but if that is not possible, please get permission from me to conduct a phone interview. You can choose anyone to interview, but the person you choose to interview should be someone who works in the field that you desire to work. More specifics on what topics should be covered during the interview will be given in class.

Professional Resume

- Each student must complete a professional resume. Evaluations will be based upon the following factors:
 - Proper submission of a draft resume to the Career Management Center (CMC) for professional review and critique.
 - Use of resume guidelines as outlines in the CMC class presentation.
 - Completion of two peer reviews of the corrected CMC critiqued resume.
 - Submission of final printed resume to instructor as described in class.
- Students will be graded on their continual improvement of their resume and their ability to offer constructive and valuable feedback to their peers.

- Students must submit the first draft of the resume to the CMC before February 5, 2020. Each student should receive a CMC critique and correction recommendations before March 31, 2020. Two peer reviews will take place during class subsequently thereafter.
- A finalized resume with documentation/evidence of a completed review by the CMC and two peers must be submitted to the instructor in a professional manner before the assigned due date. It is NOT possible to participate in the peer critiques if you do not submit an initial draft to the CMC.
