

Course Syllabus: Population Focused Community Nursing  
College of Robert D. & Carol Gunn College of Health Sciences & Human Services  
NURS 4733  
Spring 2023  
Contact Information

Instructor: Lesia DeVito MSN, RN  
Office: virtual  
Office hours: Monday- 5-9pm  
Office phone: 972-302-6186 Text  
Cell Phone: 972-302-6186 Text  
E-mail: lesia.devito@msutexas.edu

#### Course Description

##### Course Description

1. This course introduces the concept of the community of persons, patients, families, and populations as the patient in the healthcare system and roles of the nurse in community services.
2. The course provides an opportunity to understand nurse roles that include public policy, provision of primary care, prevention of disease or health risk, education and health promotion, and restoration.
3. The course is designed to integrate knowledge from nursing theory and public health services in assessing the health care needs of aggregates, communities, and society
4. The course has an emphasis on the community assessment process and the development of nursing strategies to assist families with consideration of health on a continuum throughout the lifespan.
5. AACN Essentials: For further information regarding the AACN Essentials identified for each course objective, refer to: [The Essentials of Baccalaureate Education for Professional Nursing Practice](#)

##### Course Objectives

Upon completion of this course, the student will be able to:

1. Analyze local, state, and national public health system components, policies, missions, goals, and programs.
2. Compare and contrast community populations with differing needs and resources and match with available services or identify needed services and resources.

3. Differentiate the roles of nurses in community-based practice for persons, patients, families and populations with culturally diverse communities.
4. Explain epidemiologic, social, political, economic, and cultural trends that affect the health status of individuals, families, populations, and communities.
5. Analyze and propose culturally sensitive and developmentally appropriate health services and education programs to maintain or restore health status.
6. Use introspection and conscious examination of personal beliefs and value systems to increase sensitivity, respect, and caring for diverse populations.

## Clinical Objectives

1. Analyze local, state and national public health system components, policies, missions, goals, and programs. (AACN IV).
2. Compare and contrast community populations with differing needs and resources and match with available services or identify needed services and resources. (AACN IV).
3. Differentiate the roles of nurses in community-based practice for persons, patients, families and populations within culturally diverse communities. (AACN IV).
4. Explain epidemiologic, social, political, economic, and cultural trends that affect the health status of individuals, families, populations, and communities. (AACN IV).
5. Analyze and propose culturally sensitive and developmentally appropriate health services and education programs to maintain or restore health status. (AACN IV).
6. Use introspection and conscious examination of personal beliefs and value systems to increase sensitivity, respect, and caring for diverse populations. (AACN IV).
7. Identify population health determinants by assessing protective and predictive factors including culturally appropriate health promotion and disease prevention strategies. (AACN VII).
8. Discuss the role of the baccalaureate prepared nurse in promoting professional healthcare to diverse groups and populations. (AACN IX).
9. Describe the effects of effective collaboration and communication on improvement of healthcare outcomes for groups and populations. (AACN VI).

## Textbook & Instructional Materials

### Required textbook

### Student Handbook

Refer to: Student handbook 2021-2022

### Academic Misconduct Policy & Procedures

Academic Dishonesty: Cheating, collusion, and plagiarism (the act of using source material of other persons, either published or unpublished, without following the accepted techniques of crediting, or the submission for credit of work not the individuals to whom credit is given). Additional guidelines on procedures in these matters may be found in the Office of Student Conduct.

### Grading

Table 1: Points allocated to each assignment –

Assignments	Points
Discussions	10
Evidence based practice Assignments	30
Family Assessment (Friedman) with Genogram (Individual)	20
Community Assessment presentation and paper	40
Total Points	100

Table 2: Total points for final grade. **There will be no rounding of grades.**

Grade	Points
A	90 to 100
B	80 to 89
C	79 to 74
D	65 to 73
F	64 and below

### Projects Required

Assignments vary in each module and each assignment has its own rubric for completion and grading. Written work is to be completed and submitted electronically in the appropriate assignment (drop box) on D2L and submitted by assigned due date and time. An overall average of at least 74% is required to pass this course. Faculty reserves the right to make changes at any time to this syllabus. Students are to be accountable for all communications sent by faculty on Desire 2 Learn; therefore, you **must** check the site for announcements, assignments, and messages. Faculty prefers students use email as a means to make a specific request or to ask for content clarification. Virtual and phone appointments are available upon request.

### Discussion Board

You must post a substantive response to each of the required questions. A substantive response is constructive and adds value to the weekly discussions. Substantive responses should be at least 150 words in length. Rarely should each require more than 250 words. Your responses need to reflect critical thought and demonstrate an understanding of the relevant concepts. All factual knowledge must be supported with appropriate citation of source. Response to the discussion board questions must be posted by 10:59 PM CST of the due date on the Discussion Board section in the appropriate Discussion Question thread as stated in the course outline. Initial discussion responses posted more than 2 days late and or in the wrong thread will not be accepted. Initial postings will receive a 10 percent deduction for each day late and will not be accepted if posted more than 2 days late. It is the responsibility of the student to post the assignment on the correct thread by 10:59 PM CST on or prior to the due date. Participation in the classroom discussion is required. In addition to posting your Initial response to the discussion questions you must post a substantive comment to at least two of your classmate's posts. Peer post may be made anytime during the week but must be made prior to the close of the week before the due date and time. Peer Posts made after the due date and close of the week will not be accepted for credit.

### Late Work

Assignments more than two days late will not be accepted. Assignments submitted late which is within two days of the due date will receive a ten point deduction for each day they are late.

### Important Dates

Last Day to drop with a grade of "W:" is **Feb 15<sup>th</sup>, 2023**

Refer to: [Drops, Withdrawals & Void](#)

### Desire-to-Learn (D2L)

Extensive use of the MSU D2L program is a part of this course. Each student is expected to be familiar with this program as it provides a primary source of communication regarding assignments, examination materials, and general course information. You can log into [D2L](#) through the MSU Homepage. If you experience difficulties, please contact the technicians listed for the program or contact your instructor.

### Online Computer Requirements

Taking an online class requires you to have access to a computer (with Internet access) to complete and upload your assignments. It is your responsibility to have (or have access to) a working computer in this class. ***Assignments and tests are due by the due date, and personal computer technical difficulties will not be considered reason for the instructor to allow students extra time to submit assignments, tests, or discussion postings.*** Computers are available on campus in various areas of the buildings as well as the Academic Success Center. **Your computer being down is not an excuse for missing a deadline!!** There are many places to access your class! Our online classes can be accessed from any computer in the world which is connected to the internet. Contact your instructor immediately upon having computer trouble. If you have technical difficulties in the course, there is also a student helpdesk available to you. The college cannot work directly on student computers due to both liability and resource limitations however they are able to help you get connected to our online services. For help, log into [D2L](#).

### Instructor Class Policies

**Instructor Drop.** An instructor may drop a student any time during the semester for excessive absences, for consistently failing to meet class assignments, for an indifferent attitude or for lack of engagement in the online learning environment. For example, failure to participate in online discussions as scheduled and on time is considered being absent. Prior to dropping a student from the class, the instructor must give the student a verbal or written warning. An instructor's drop of a student takes precedence

over the student-initiated course drop at a later date. The instructor will assign a grade of WF or F the 6<sup>th</sup> week of a 10 week summer term. After this time, the grade will be an F. The date the Office of the Registrar receives the instructor drop form is the official drop date.

### **Change of Schedule**

A student dropping a course (but not withdrawing from the University) within the first twelve class days of a regular semester or the first four class days of a summer semester is eligible for a 100% refund of applicable tuition and fees. Dates are published in the ***Schedule of Classes*** each semester.

### **Refund and Repayment Policy**

A student who withdraws or is administratively withdrawn from Midwestern State University (MSU) may be eligible to receive a refund for all or a portion of the tuition, fees and room/board charges that were paid to MSU for the semester. HOWEVER, if the student received financial aid (federal/state/institutional grants, loans and/or scholarships), all or a portion of the refund may be returned to the financial aid programs. As described below, two formulas (federal and state) exists in determining the amount of the refund. (Examples of each refund calculation will be made available upon request).

### **Disability Support Services**

Midwestern State University is committed to providing equal access for qualified students with disabilities to all university courses and programs, and by law all students with disabilities are guaranteed a learning environment that provides reasonable accommodation of their disability. This guarantee is provided through Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. The ADA reads: "No qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subject to discrimination by any such entity." The Director of Disability Support Services serves as the ADA Coordinator and may be contacted at (940) 397-4140, TDD (940) 397-4515, or 3410 Taft Blvd., Clark Student Center 168.

### **College Policies**

Campus Carry Rules/Policies

Refer to: [Campus Carry Rules and Policies](#)

Smoking/Tobacco Policy

College policy strictly prohibits the use of tobacco products in any building owned or operated by WATC. Adult students may smoke only in the outside designated-smoking areas at each location.

## Alcohol and Drug Policy

To comply with the Drug Free Schools and Communities Act of 1989 and subsequent amendments, students and employees of Midwestern State are informed that strictly enforced policies are in place which prohibits the unlawful possession, use or distribution of any illicit drugs, including alcohol, on university property or as part of any university-sponsored activity. Students and employees are also subject to all applicable legal sanctions under local, state and federal law for any offenses involving illicit drugs on University property or at University-sponsored activities.

### Grade Appeal Process

Students who wish to appeal a final course grade should consult the Midwestern State University [Undergraduate Catalog](#)

#### Notice

Changes in the course syllabus, procedure, assignments, and schedule may be made at the discretion of the instructor.

### Course Schedule
