Course Introduction

Course Quote

"100% of customers are people. 100% of employees are people. If you don't understand people, you don't understand business." – Simon Sinek

Course Description

This course is designed to provide students new to sociology with the foundations of the discipline. Students will be introduced to the scientific study of human groups, organizations, and societies and will examine the major sociological questions and approaches to studying them. Subjects discussed will include culture, social stratification, race/ethnicity, gender, marriage and family, education, religion, social organizations, and social theories.

Instruction will be provided through a variety of different methodologies to provide a more comprehensive learning environment and introduction to the various ways of learning and use of sociological data and collection.

Please note that sociology is the study of collectives and as such personal experience is sometimes contrary to research studies. This does not invalidate your experience or the research. Please proceed through this course with an open mind and a willingness to see society objectively as an 'outsider'.

Who is the instructor?

My career has included a wide range of professional experiences, from teaching at universities to working in businesses, nonprofits, hospitals, and governmental agencies. My diverse professional journey has been united by my work with, love of, and curiosity for people. Although I have changed careers many times, sociology has been at the core of all my careers because I have dealt with people.

I am married with five children. My youngest three are 17, 15, and 13. My two oldest kids are adults who are both married and have children. We have three dogs at my house—Cupcake, Oreo, and Waffles. I love spending time with my family and hanging out.

I have earned two doctorates, two master's, and a bachelor's degree. Part of my research focus is on applying sociology in the real world. I have a sociology podcast called "As a Matter of Interact: Practical Sociology for Everyone." I am a Certified Clinical Sociologist through the Association for Applied and Clinical Sociology and serve as an Associate Editor of the *Journal of Applied Social Sciences*.

Teaching Philosophy

I want to come alongside students and help them discover themselves and their social world. In addition to providing information, I want to listen and learn from others and their experiences. While I care about students, I also want them to grow and experience some level of discomfort. While people do not like tension and conflict, people experience growth through it. People need to feel some stress and have their existing knowledge challenged to gain new understanding. I encourage students to engage in an action/reflection model where they can

learn, do something with their knowledge, come back and reflect on their experience, and repeat the process. Lastly, learning is difficult, but it is also fun. I welcome playfulness, humor, and student interaction throughout class time.

Additional Sociological Resource

To learn more about sociology and its practical applications, check out my bi-weekly podcast, [As a Matter of Interact: Practical Sociology for Everyone](#). The podcast helps people understand and evaluate social interactions, relationships, human behaviors, and systems. Check out the podcast to better navigate your life and make informed decisions as you practically apply sociology.

London Study Abroad: Sociology

I highly encourage students to consider participating in the Study Abroad program that MSU offers through its Global Education Office. In the summer of 2025, I will teach British Culture and Society (SOCL 4883, 4893). Students will earn six credit hours towards their degree in only five weeks. Studying sociology in London is a great learning opportunity, and it provides students with a chance to experience, live, and travel to a foreign country. The London classes last for five weeks with a one-week minibreak in between. The flight will depart on Thursday, July 3rd, and we will return to the United States on Monday, August 4th.

You can take my London sociology class with any major. Depending on your major and minor, this course could count towards your major, minor, or elective course requirements. My sociology class will compare British society and culture to American society and culture. The class will teach students how to evaluate and assess cultures, societies, and social interactions. The class will be highly interactive, and several assignments will include activities and immersion into British culture.

Planning is critical to a successful study abroad experience. I will share the London Study Abroad finalized dates and information as soon as it is available through the Global Education Office. If you have any questions or concerns, you can always contact me or schedule a meeting with MSU's Global Education Office and Study Abroad. Remember, the application deadline is usually in March, and the Global Education Office is there to discuss financial aid and scholarship opportunities to ensure you are well-prepared for this exciting journey.

Assignment Submission

Submit all your assignments via D2L, and they need to be in Word or PDF. Students are responsible for ensuring assignments are submitted on time and in an accessible format.

Assignment Feedback

I will provide assignment feedback within seven days of the due date. My feedback will be provided in the form of comments on the assignment in D2L. You are welcome to come and talk to me about any assignment and feedback that I have offered. Your grades will be posted in D2L.

Email Communication with the Instructor

Please follow the below template when sending me an email. Failure to follow this format will result in a response from me stating, "Please read the syllabus and follow the email formatting instructions." Students are welcome to ask questions, but I want them to first check the syllabus for the answer before asking or clarifying a question.

Dr. Cohoon

My name is (Xyz), and I am a student in your SOCL 1133, 201: Introductory Sociology class this spring semester. I am emailing to ask you about (blank). I looked in the syllabus, and it states (blank) about my question.

Thanks,

(Your Name)

Late Work

All assignments are due in D2L before 11:59 p.m. on their listed due date in Word or PDF. If the assignment does not upload, I do not have it. The student is responsible for ensuring that their assignments are uploaded. Corrupted documents do not count, and you need to ensure that the assignment is uploaded in the proper format. I will deduct ten percent per day for late assignments. There are no exceptions, and all late work will be deducted 10% for every day it is late. This late policy is generous, and students can still earn a good grade on an assignment when it is late.

Attendance

Presence is important. There is a high correlation between attendance and class grades. In-class attendance is required. If a student is going to miss class, they need to email the instructor. Students who miss more than 20% of the classes can result in a reduction of a full letter grade. Students who miss more than 30% of the classes can either be dropped or receive an F in the course. Students with excessive absences, or those who fail to notify the instructor of class absences, can be dropped at the instructor's discretion.

Plagiarism

The appropriation, theft, purchase, or obtaining by any means another's work, and the unacknowledged submission or incorporation of that work as one's own offered for credit. Appropriation includes the quoting or paraphrasing of another's work without giving credit. Using AI technology (like ChatGPT) to write assignments is considered plagiarism. Students who plagiarize will receive a zero on the assignment and can face additional academic consequences. However, students are welcomed and encouraged to use proofreading applications like Grammarly. The difference between technology ChatGPT and Grammarly is that technology like Grammarly uses the student's original ideas and helps proofread.

Evaluation and Grading

Cultural Assignments – 21%

Students will have three assignments this semester that test their intercultural knowledge, ability to think critically, and utilize their sociological imaginations. Each of these assignments is worth 7 points each for a total of 21 points towards the final grade. The assignment details are listed below.

Cultural Assignment #1: World Health Organization

Students will gather information from the World Health Organization. The purpose of this exercise is to give students experience understanding and

working with statistical data related to social issues. In addition, this exercise requires critical thinking in comparing numbers, understanding differences, and drawing conclusions based on the data.

This assignment has two parts. For the first part, students will need to make a table that compares their countries like the one listed below. The second part of the assignment involves the students analyzing their findings in written form. The written part should be 500 to 750 words (1.75 to 2.5 pages). **The assignment is due on February 9th.**

Steps to Complete the Assignment:

- Go to The World Health Statistics 2019 data visualization dashboard (<https://apps.who.int/gho/data/node.sdg?lang=en>)
 - Scroll down and you will see boxes with health issues such as maternal mortality or newborn and child mortality. If you click on one of the topics, you will be given some choices of data. For example, under maternal mortality you will see a maternal mortality link, a link for births attended by skilled health personnel, and a link for a data table.
 - Click on the maternal mortality link and you will see a chart with six world regions from Africa to Western Pacific listed on the left. If you click on a region, you will get more specific information for those countries in that region; note the second chart for data. For example, if you click on Americas you will see a distribution chart showing Canada and USA have low rates of maternal deaths compared to Haiti which is a shockingly high rate.
- Your task is to examine two of those health issues in those initial boxes and explore the data for one option provided the six regions (If you select a box and find that you have no regional averages, pick one of the other health issue boxes).
 - A note on the assignment, pick only one option in your section. For example, in Newborn and Child Mortality you have two choices, under-five mortality and neonatal mortality. One use one of those. Also, in some areas, you will see that many countries do not report data so you may not have data on every country in that region.

Questions to answer in the written part:

1. Give a brief history and description of the World Health Organization. What is the purpose of the organization and how is it funded? What is its reputation for accurate, reliable data? Specify where you got this information. Don't copy and paste.
2. Within each of those regional averages, which countries have the highest and lowest rates for your Health Issue Choice #1 and Health Issue Choice #2.
3. Examine the data that you gathered from the World Health Organization site and analyze your findings for each of your two health-related issues. You will need to compare and contrast the regions and suggest explanations for the varying rates. Pay particular attention to where the United States ranks. You might also note rates for China, India, and Germany. Were there any surprises when comparing other countries to the United States? Explain.

The assignment is that you are to watch the documentary "The Mask You Live In." It is an excellent documentary, and it illustrates the socialization process along with concepts where you can think about Mead, Cooley, and the Looking-Glass Self. We will watch the documentary during class time. However, if you miss the class, you can stream it/watch it for free if you go to the MSU LIBRARY on KANOPY. Here are step-by-step instructions:

1. Go to [Kanopy](#)
2. Scroll down to the bottom of the page and click the "Get Started" button under the words, "Sign up today for free through your public library or university."
3. Click the "Find Your University" button on the page.
4. Type "Midwestern State University" under the Find Your University search bar.
5. Click the "Log in to MSU" button.
6. Enter your MSU Username and MSU Password

7. I believe the next page will give you an option to sign up, and you can skip that step if you want.
8. Now you should be on the Kanopy main page. Type in "The Mask You Live In" in the search bar.
9. The "Mask You Live In" movie should be listed along with several other films. Click "The Mask You Live In," then hit the "Play" button.
10. The movie is a little over one hour and thirty minutes.

After you watch the movie, answer the following four questions. Each answer should be at least one paragraph. This paper is due by February 23rd.

1. What were your thoughts and feelings about "The Mask You Live In?" Did the documentary resonate with any of your experiences of socialization? If so, how?
2. Even if you did not hear the same phrases as the people in the documentary, what messages of socialization and identity did you receive as a child?
3. How does "The Mask You Live In" reflect socialization, Mead, Cooley, or the Looking Glass Self?
4. Which agent of socialization has the most impact on your life at the moment? Why and how so?

Please do not wait until the last minute to try and watch this movie. Usually, I respond to emails quicker, but my policy is that I will respond within two business days. If you wait until or right before it is due, I may not get back to you in time. Also, while I love sociology and people, I am deficient in most technical matters. You are responsible for finding and watching the movie and submitting questions on or before the due date.

Students are welcome to use their books and notes on the exam.

The exam is scheduled for Wednesday, May 14th between 10:30 a.m. to 12:30 p.m. I will open the test first thing on May 14th, and it must be completed before 11:59 p.m. *In rare cases, I can reschedule the Final Exam up to two days after the due date. Students are responsible for communicating with and contacting me. After two days of the exam, students who have not taken it will receive a zero on the assignment.*

Change to Schedule

A student dropping a course (but not withdrawing from the University) within the first 12 class days of a regular semester or the first four class days of a summer semester is eligible for a 100% refund of applicable tuition and fees. Dates are published in the Schedule of Classes each semester.

Refund and Repayment Policy

A student who withdraws or is administratively withdrawn from Midwestern State University (MSU) may be eligible to receive a refund for all or a portion of the tuition, fees, and room/board charges that were paid to MSU for the semester. However, if the student received financial aid (federal/state/institutional grants, loans and/or scholarships), all or a portion of the refund may be returned to the financial aid programs. As described below, two formulas (federal and state) exist in determining the amount of the refund. (Examples of each refund calculation will be made available upon request).

Service for Students with Disabilities

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Midwestern State University endeavors to make reasonable accommodations to ensure equal opportunity for qualified persons with disabilities to participate in all educational, social, and recreational programs and activities. After notification of acceptance, students requiring accommodations should make application for such assistance through Disability Support Services, located in the Clark Student Center, Room 168, (940) 397-4140. Current documentation of a disability will be required in order to provide appropriate services, and each request will be individually reviewed. For more details, please go to [Disability Support Services](#).

Students and employees are also subject to all applicable legal sanctions under local, state and federal law for any offenses involving illicit drugs on University property or at University-sponsored activities.

Campus Carry

Effective August 1, 2016, the Campus Carry law (Senate Bill 11) allows those licensed individuals to carry a concealed handgun in buildings on public university campuses, except in locations the University establishes as prohibited. The new Constitutional Carry law does not change this process. Concealed carry still requires a License to Carry permit, and openly carrying handguns is not allowed on college campuses. Active Shooter

The safety and security of our campus is the responsibility of everyone in our community. Each of us has an obligation to be prepared to appropriately respond to threats to our campus, such as an active aggressor. Please review the information provided by MSU Police Department regarding the options and strategies we can all use to stay safe during difficult situations. For more information, visit [MSUReady – Active Shooter](#). Students are encouraged to watch the video entitled "Run. Hide. Fight." which may be electronically accessed via the University police department's webpage: ["Run. Hide. Fight."](#)
