## Homework

You will have a diagnostic assignment, skills assignment, two longer essays, and a final paper this semester. The topics for these assignments will be explained in detail online. The specific requirements for each assignment will be sent to your D2L email, and available online. These papers will involve your observation of a scenario (a topic the professor will assign). You will then write about various aspects of what you research and/or observe (YouTube, web search, etc.). These assignments will give you the opportunity to demonstrate the writing skills you have learned up to that specific point in the course. Remember, exploring the scholarly work of others is an important part of active research. However, when the work of others is reflected in your own paper, credit **must** be given through proper citation. Failure to do this is plagiarism, and constitutes academic dishonesty. If in doubt, use a citation or consult with the professor. All work must be your own, submitted specifically for this course, this semester.

## Exams

No exams will be given in this course – you will write papers only. Your final, as explained below, will be a research paper.

## Projects Required

During the second half of the semester, each student will be required to complete a research paper. This will be your final for this course, and it is worth

40% of your grade. The process of researching, writing, developing, and editing this paper will take place throughout the semester, as you learn and develop the skills necessary to write such a paper. The requirements for the research paper will be discussed more extensively online throughout the semester, as we get closer to writing the final paper. The final paper will show your ability to choose an appropriately narrow topic, conduct scholarly research, develop a thesis statement, draft the paper, and revise that paper to produce a professional work product. When the time comes to write the paper, you can submit a rough draft for feedback – the professor will give you the last date the rough draft will be accepted.

#### Mid-Term Exam

You will not have a mid-term for this course. However, papers submitted up to that point will serve as a measure for your mid-term assessment.

#### Final Exam

Your final for this course is the final research paper. This research paper is due by April 29, 2021, no later than 11:50 PM. You will be given ample time to work on this paper towards the end of the semester.

#### Late Work

Students are expected to submit assignments on or before the due date. Late assignments will not be accepted unless prior arrangements have been made with the professor. Otherwise, students will not receive any credit for an assignment submitted after the due date.

#### Make Up Work

Make up assignments will only be allowed in extreme circumstances, and with the proper documentation. You are responsible for letting the professor know if you have an extenuating circumstance before the due date of the assignment. In the event of an extenuating circumstance, such as an illness, death in the family, etc., please get in touch with me as soon as possible. Assignments and deadlines may be modified on a case-by-case basis. Verifiable documentation of the circumstance may be required. The more quickly you let me know what is going on, the more options I will have for allowing you to complete the course.
