Text: Calculus, Early transcendental, by Stewart (8th edition) **Credit Hours:** 4 undergraduate hours

Quizzes: We will have short quizzes throughout the semester. This quizzes will be questions that are similar in nature to the problems at the end of the sections. Although I will not assign homework, it is expected that you attempt to work the problems at the end of the sections and ask questions about them in class. All the quizzes will count for 100 points in your final grade calculation.

Exams: There will be 4 exams during the semester, each covering the material previously presented in class. Each exam will be worth 100 points.

Final Exam: The final exam will be comprehensive and will be given on the date and time listed in the final exam schedule. (**Section 101: Wednesday, December 11, 8am-10am, Section 103: Tuesday, December 10 8am-10am**) This exam will be worth 100 points.

Grade calculation: Your grade will be based on the total number of points you accumulate during the semester.
