V. COURSE EXPECTATIONS

The Clinical Mental Health Counseling Program, its faculty, and its students adhere to the University Code of Conduct, State of Texas licensure laws and regulations, and the American Counseling Association's Code of Ethics (2014). The program has a professional responsibility to ensure that all students display ethical, professional, and personal behaviors that comply with these guidelines. Students are strongly encouraged to review, understand, and consult the [American Counseling Association website](#) for details related to these guidelines.

Department of Counseling students are expected to demonstrate appropriate classroom behavior, consistent with their counselor-in-training roles. Counselors-in-training are expected to convey attentiveness and respect in all professional and classroom settings.

Online Etiquette: It is expected that students use formal, professional language when corresponding online. It is expected that you use complete sentences, address one another with respect, follow the American Counseling Association Code of Ethics (2014), and treat all members of the class with respect.

Inclusivity: It is my intent to present material and activities that are respectful. It is also my intent that this course serves students from all perspectives and diverse backgrounds, addressing their learning needs both in and out of the classroom. I aim for students' unique experiences and viewpoints to be seen as valuable resources, strengths, and benefits to our collective learning.

Your suggestions about how to improve the value of inclusivity in this course are encouraged and appreciated.

Confidentiality: Upholding confidentiality is a major responsibility of the student. Anything discussed during supervision, online in this class, or shared by individual students about themselves is considered confidential. Please do not share any information shared to you by other students.

Academic Dishonesty: Students at Midwestern State University are an essential part of the academic community and enjoy substantial freedom within the framework of the educational objectives of the institution. The freedom necessary for learning in a community so rich in diversity and achieving success toward our educational objectives requires high standards of academic integrity. Academic dishonesty has no place in an institution of advanced learning. It is each student's responsibility to know what constitutes academic dishonesty and to seek clarification directly from the instructor if necessary. Examples of academic dishonesty include, but are not limited to:

- Submission of an assignment as the student's original work that is entirely or partly the work of another person.
- Failure to appropriately cite references from published or unpublished works or print/non-print materials, including work found on the World Wide Web.
- Observing or assisting another student's work.
- Multiple Submission - Submitting a substantial portion or the entire same work (including oral presentations) for credit in different classes without permission or knowledge of the instructor.
- Usage of Artificial Intelligence (AI) software, this does not include editing tools of Word or Grammarly, i.e., spell check or rewriting suggestions for clarity.

Statement of Disability: Disability Support Services (DSS) provides services to students with disabilities to insure accessibility to university programs. DSS offers information about accommodations and disability, evaluation referral, adaptive technology training and equipment, and interpreter services for academically related purposes. If you suspect you have a disability that is impacting your academic performance or have been previously documented as a person with a disability, you will need to apply and provide documentation of that disability to the Disability Support Services. This documentation must be supplied by a qualified professional who is licensed or certified to diagnose the disability in question.

The Disability Support Services office is in Room 168 of the Clark Student Center. If you need assistance, you can also contact them at (940) 397-4140.

Attendance: You will be required to post at least three academic paragraphs on each week's discussion board. You are also required to reply to at least one other student's discussion board post. This is seen as your weekly attendance in class. Failing to post, reply, or both each week results in loss of points and would be the same as if you did not attend class that week. An academic paragraph needs to include at least five sentences. You are required to attend

mandatory weekly zoom meetings.

Late Work: All papers and assignments must be submitted the day they are due. **No exceptions.** If you have an emergency, please let me know in advance, and/or email me your assignment the same day it is due. Any late papers will be lowered **10%**. Please observe that your assignments are worth a considerable number of points and skipping even one assignment will significantly lower your grade. Please begin planning your semester schedule accordingly.

COVID: Scientific data shows that being fully vaccinated is the most effective way to prevent and slow the spread of COVID-19 and has the greatest probability of avoiding serious illness if infected in all age groups. Although MSU Texas is not mandating vaccinations in compliance with Governor Abbott's executive orders, we highly encourage eligible members of our community to get a vaccination. If you have questions or concerns about the vaccine, please contact your primary care physician or health care professional. Given the recent rise in cases, individuals are also strongly encouraged to wear facial coverings when indoors among groups of people, regardless of vaccination status. Although MSU Texas is not currently requiring facial coverings, they have been an effective strategy in slowing the spread.

Practicum: Students must register for a three-credit hour practicum. Placements must begin and end in one academic semester (Fall, Spring, Summer) for the duration of at least 10 weeks for summer, and 15/16 weeks for fall and spring. The practicum is the first experience during which students apply their counseling theory and demonstrate their counseling skills in a professional supervised setting. A minimum of 160 hours is required for practicum. To meet the 160 hours of field experience requirement, summer students must gain a minimum of four direct hours a week, and six indirect hours a week on site. For fall/spring semesters, students must gain a minimum of three direct hours per week, and four indirect hours per week. Students must get all placements approved by their professor of record. Additionally, private practice, and home or field settings are only approved for clinical courses by the instructor of record.

The students' practicum includes the following:

1. A **minimum** of 160 hours is required for practicum. Of the minimum 160 hours, at least 60 hours must be direct hours, and 100 hours must be indirect hours.
2. It is recommended in practicum that students participate in facilitating a counseling group at their practicum site as part of their 60 direct hours.
3. A minimum of **one hour per week** of individual on-site supervision from site supervisor each week students are present at the site.
4. An average of **one and one-half hours per week of group supervision** with other students in practicum with the university supervisor.
5. Formal evaluations of students' performance will be submitted at the end of the semester by all supervisors (site, university).

6. Students will conduct three 45-minute counseling sessions with a client. A pre-observation conference must be held with the professor at least 24 hours before the session. The professor will provide feedback to the student using the MSU Skills Rating form during a post-observation conference. Any skills' strengths and deficits will be addressed in individual supervision following the observed session, in addition to the rating form. Students will receive a copy of the rating form. A video of a counseling session is required. For students who are unable to record at their site, the university supervisor may observe counseling sessions live via telehealth.

7. Internship I to II Rollover Policy: Students are permitted to rollover a maximum of 50 hours. Hours can be transferred between COUN 6043 Graduate Internship I and COUN 6053 Graduate Internship II. These hours can include direct hours, indirect hours, or a combination of both. However, students are not allowed to accumulate hours between semesters, nor can any hours from the practicum be rolled over into internship semesters. Roll-over hours are strictly limited to COUN 6043 and COUN 6053. Failure to acquire 240 direct hours and 360 indirect hours over the course of COUN 6043 and COUN 6053 will result in the student having to retake COUN 6053.

Three Counseling Sessions & Three Video Reflection Papers: (20 pts. each for a total of 60 pts.) Students must turn in their Video Reflection Paper to Tk20 and D2L and submit their video to the professor. Students also have the option to have the teaching professor (university supervisor) observe their session via telehealth. Students will conduct three 45-minute counseling sessions with a client. The student must have a pre-observation conference with the professor at least 24 hours before the session. The instructor will provide feedback to the student using the MSU Skills Rating form in a post-observation conference. Any skills' strengths and deficits will be addressed in individual supervision following the observed session, in addition to the rating form. Students will receive a copy of the rating form. Videos of the counseling sessions are required and must be deleted after they have been graded. Students may email their video using google drive to the university supervisor due to file size. For students who are unable to video tape at their site, the teaching professor (university supervisor) may video into the session to observe via telehealth. Students are required to write a video reflection paper on their counseling session identifying their strengths and weaknesses. Please use the template to reflect on your performance. VIII. DEPARTMENT OF COUNSELING STATEMENT OF EXPECTATIONS

The counselor education program is charged with the dual task of nurturing the development of counselors-in-training and ensuring quality client care. To fulfill these dual responsibilities, faculty must evaluate students based on their academic, professional, and personal qualities. A student's progress in the program may be interrupted for failure to comply with academic standards or if a student's interpersonal or emotional status interferes with training-related requirements. For example, to ensure proper training and client care, a counselor-in-training must abide by relevant ethical codes and demonstrate professional knowledge, technical and interpersonal skills, professional attitudes, and professional character. These factors are evaluated based on one's academic performance and one's ability to convey warmth, genuineness, respect, and empathy in interactions with clients, classmates, staff, and faculty. Students should demonstrate the ability to accept and integrate feedback, be aware of their impact on others, accept personal responsibility, and be able to express feelings effectively and appropriately. For further clarification on review and retention, refer to the handbook.

Classroom Behaviors: Department of Counseling students are expected to demonstrate appropriate classroom behavior, consistent with their counselor-in-training roles. Counselors-in-training are expected to convey attentiveness and respect in all professional and classroom settings. Specifically, these include:

- Avoiding tardiness and late arrival to class.
- Being attentive and participative in class and online.
- Not using cell phones and text messaging during class.
- Not surfing the web, emailing, tweeting, or using instant messaging (IM) during class.
- Minimizing eating and disruptive snacking during class.
- Avoiding personal conversations with students during class, which are disruptive to fellow students and the learning environment.

Excerpt from Classroom Incident Reports

Excerpts from Jimmy's Classroom Incident Reports (from the assistant principal's notes)

Wednesday, September 12

Jimmy had difficulty completing the English language arts assignment today. The assignment involved working in groups to brainstorm potential solutions to a problem described in an assigned homework article. Jimmy stated that he preferred to work alone. When Jimmy was asked to try working with his group he stated, "No" and walked out of the classroom. After I spoke with Jimmy, he apologized and said that he did not read the article for homework.

- English Language Arts Teacher

Tuesday, September 18

Jimmy demonstrated a strong understanding of math concepts being taught today. I asked him to assist several other students who were having difficulties with the math concepts after he finished the assignment and he agreed. Jimmy worked with the other students until almost the end of class. At the end of class, one student made an inappropriate comment to one of the students that Jimmy was assisting. I intervened and informed the student that his comment was extremely inappropriate, but Jimmy went up to the other student and verbally threatened harm. Both Jimmy and the other student were written up. They agreed not to speak to each other.

- Math Teacher

Friday, September 21

Jimmy received a 98 on today's science test. He was the first person in the class to complete the test and I was able to correct it before the end of class. I allowed Jimmy to read a book of his choice while other students finished their tests. Another student made a rude comment to Jimmy in passing. The student got out of his seat and verbally threatened to assault Jimmy. Jimmy lunged at the other student and a physical altercation ensued. The principal was called. Jimmy and the other student each received a three-day in-school suspension.

– **Science Teacher**

Tuesday, September 25

Jimmy was written up today for refusing to complete an assignment in Spanish class. He stated that he was tired, did not feel like completing the assignment, and put his head on his desk throughout the entire class.

– **Spanish Teacher**

Tuesday, October 2

Jimmy refused to work with another student during science class. He stated that he did not like the other student because the student was rude to other classmates. Jimmy walked out of class for several minutes without permission before returning.
