- Recitals were performed and attended as expected for this course.

2. Effectiveness of Instructor

2.2) Make a comment on your choice here.

- All we did was show up at recital and take a picture of ourselves.
- I never had to ask about this class or get help so I can't say for this question.

2.4) Make a comment on your choice here.

- Professor McGowen ensured everything ran smoothly for this course.
- Showing up and taking a picture seems cool.

3. Classroom Environment

3.2) Make a comment on your choice here.

- I learned that I need to take a self at the performance each time I show up.
- Performing a piece during this course opened my eyes to what it was like to be the performer instead of being part of the audience.

4. Student Engagement

4.2) Make a comment on your choice here.

- There are some concerts that people couldn't make so it was hard to get a score.
- This class had guests that opened my eyes to different sides of music I didn't know about before.

5. Open-Ended Questions

5.1) What worked well in this course?

- I think most people actually really liked the lectures from people who work in different aspects of music.
- The guest visitors, the way things are run, how sign-ups work, and the amount of opportunities there are to perform.
- Watching people play worked well for the class.

5.2) What would make this course better?

- A different form of attendance. There has to be some way to have like a sign in or something that is only offered at the end or end and beginning. In person attendance would most likely be the best bet.
- Attending performances and taking a selfie would increase my grades.
- I have nothing of note for this question.
