**Quizzes:** We will have short quizzes throughout the semester. These quizzes will be questions that are similar in nature to the problems at the end of the sections. Although I will not assign homework, it is expected that you attempt to work the problems at the end of the sections and ask questions about them in class. Aggregately the quizzes will constitute a possible 100 points in your final grade calculation. There are no make-up quizzes.

**Exams:** There will be 4 exams during the semester, each covering the material previously presented in class. Each exam will be worth 100 points.

The last exam will be given during Finals week (**Thursday, Dec 11 at 10:30pm-12:30pm**).

**Grade calculation:** Your grade will be based on the total number of points you accumulate during the semester.

		Total points	Letter Grade
Quizzes	100 points	500-450	A
Exams	400 points	449-400	B
		399-350	C
		349-300	D
		Below 300	F
Total 500 points			

**Attendance Policy:** Attendance at all classes is expected. On the back of this sheet is a time table for the sections that we will be covering. It is strongly encouraged that you read the sections before we go over them in class.

**Classroom Policies and Procedure:** You are expected to attend every class that you are assigned to meet. This includes arriving on time, staying until the end, and being prepared and engaged. It is also important to email your professor and keep them informed.

**Computer Requirements:** This class may require you to have access to a computer (with Internet access). Please check the university site for technology requirements on PCs. Assignments are due by the due date, and personal computer technical difficulties will not be considered reason for the instructor to allow students extra time to submit assignments. Computers are available on campus in various areas of the buildings as well as the Academic Success Center. Your computer being down is not an excuse for missing a deadline. You must be able to use Respondus Lockdown Browser Monitor on your computer when taking exams in this course. Please see the instructions in D2L for the computer requirements.

**Academic Misconduct:** Cheating on any work in this course will result in no credit for that work. Egregious or repeated incidents will result in a failing grade in the course and may lead to dismissal from your academic program. All incidents of academic misconduct will be reported as specified in the MSU student handbook. University academic dishonesty policies can be found at: [https://msutexas.edu/student-life/\\_assets/files/handbook.pdf](https://msutexas.edu/student-life/_assets/files/handbook.pdf)

*Students should refer to the current MSU Student Handbook and Activities Calendar for university policies on academic dishonesty, class attendance, student rights and activities. Students with disability must be registered with Disability Support Services before classroom accommodations can be provided.*
