Inappropriate behavior in the D2L online classroom or in the face-to-face classroom shall result, minimally, in a request to drop the class and/or a Professional Fitness Form will be filed for review with the college. If the instructor must file a Fitness Alert Form for any reason, including failure to demonstrate appropriate classroom behaviors, the student may receive an instructor drop with an "F" for the course.

An instructor may drop a student any time during the semester for failure to participate, for consistently failing to meet class assignments, for an indifferent attitude, or for disruptive conduct. The instructor must give the student a verbal or written warning prior to dropping the student from the class. An instructor's drop of a student takes precedence over the student-initiated course drop of a later date. The instructor will assign a grade of either WF or F through the first 8 weeks of a long semester, the first 6 weeks of a 10 week summer term, or the 11th class day of a 4 or 5 week summer term consisting of 20 days. After these periods the grade will be an F. The date the instructor drop form is received in the Office of the Registrar is the official drop date.

Additional guidelines on procedures in these matters may be found in the [Office of Student Conduct](#)

Acceptable Use of Artificial Intelligence (AI) Tools

Since writing, analytical, and critical thinking skills are part of the learning outcomes of this course, all writing assignments should be prepared by the student. Developing strong competencies in this area will prepare you for a competitive workplace. Therefore, AI-generated submissions are not permitted and will be treated as plagiarism.

AI is an amazing tool and can be a powerful reference and resource; however, it should be used as a reference/resource only. Passing another person or entity's work off as your own is dishonest and can also prevent you from properly learning the material you should in this course. Therefore, using AI to compose/create your assignments for you will not be tolerated. Assignments in which the professor suspects the majority was composed by AI will receive a zero. If a student receives a zero, the student may resubmit the work, revised in their own writing for half credit. The following are acceptable ways to use AI in this course but a citation must be provided to give credit to the AI program used: providing you an example answer to a question as resource (put answer into your own words), give you a template or provide you a format to follow, assist with wording difficult concepts (then put into your own words for your assignment), researching topics to give you additional information or other viewpoints on a topic ideas for lesson activities.
