Module Discussions

We will have five online discussions throughout the class, one for each module. These discussions will allow you to further explore topics more in depth, making connections among theories, supplemental readings, and comments from your peers. Discussion questions are posted on D2L/Brightspace in advance, so you can post your response at any time; however, points will be deducted if you habitually post late in the week preventing classmates to respond to your posts. Initial posts are worth 6 points with 2 points for each response you post for a peer for a total of 10 possible points. Be respectful of one another, and use appropriate language in the discussions.

Instructor Class Policies

Students are expected to assist in maintaining a classroom environment which is conducive to learning. Inappropriate behavior in the D2L online classroom shall result, minimally, in a request to drop the class and/or a Professional Fitness Form will be filed for review with the college. If the instructor must file a Fitness Alert Form for any reason, including failure to demonstrate appropriate classroom behaviors, the student may receive an instructor drop with an "F" for the course.

An instructor may drop a student any time during the semester for failure to participate, for consistently failing to meet class assignments, for an indifferent attitude, or for disruptive conduct. The instructor must give the student a verbal or written warning prior to dropping the student from the class. An instructor's drop of a student takes precedence over the student-initiated course drop of a later date. The instructor will assign a grade of either WF or F through the first 8 weeks of a long semester, the first 6 weeks of a 10 week summer term, or the 11th class day of a 4 or 5 week summer term consisting of 20 days. After these periods the grade will be an F. The date the instructor drop form is received in the Office of the Registrar is the official drop date.

Late Work

Assignments are expected to be turned in by the due date. Late work will receive 50% maximum credit.

Written Work

All written work should be completed in a professional style. Using correct spelling and grammar are important communication skills. Therefore, all written assignments will have 10% -20% of the grade based on spelling and grammar. Expectations are for quality work.

Desire-to-Learn (D2L)/Brightspace

Extensive use of the MSU D2L program is a part of this course. Each student is expected to be familiar with this program as it provides a primary source of communication regarding assignments, examination materials, and general

course information. You can log into D2L through the MSU Homepage. If you experience difficulties, please contact the technicians listed for the program or contact your instructor. All assignments must be submitted to D2L/BRIGHTSPACE for this course and should be in a PDF unless otherwise specified in the assignment guidelines. I will not accept assignments via email. Taking an online class requires you to have access to a computer (with Internet access) to complete and upload your assignments. It is your responsibility to have (or have access to) a working computer in this class. *Assignments and tests are due by the due date, and personal computer technical difficulties will not be considered reason for the instructor to allow students extra time to submit assignments, tests, or discussion postings.* Computers are available on campus in various areas of the buildings as well as the Academic Success Center. Computer issues are not an excuse for missing a deadline. There are many places to access your class! Our online classes may be accessed from any computer, which is connected to the internet. Contact your instructor immediately upon having computer trouble. If you have technical difficulties in the course, there is also a student helpdesk available to you. The college cannot work directly on student computers due to both liability and resource limitations however, they are able to help you be connected to our online services. For help, log into [D2L](#).

Academic Dishonesty:

Cheating, collusion, and plagiarism (the act of using source material of other persons, either published or unpublished, without following the accepted techniques of crediting, or the submission for credit of work not the individual's to whom credit is given). Additional guidelines on procedures in these matters may be found in the [Office of Student Conduct](#)

Plagiarism

"By enrolling in this course, the student expressly grants MSU a 'limited right' in all intellectual property created by the student for the purpose of this course. The 'limited right' shall include but shall not be limited to the right to reproduce the student's work product in order to verify originality, authenticity, and educational purposes." from [Student Handbook](#). All assignments submitted in BRIGHTSPACE will also be checked through Turn It In for originality. Assignments with more than 50% match will be given a 0.

Acceptable Use of Artificial Intelligence (AI) Tools

Since writing, analytical, and critical thinking skills are part of the learning outcomes of this course, all writing assignments should be prepared by the student. Developing strong competencies in this area will prepare you for a competitive workplace. Therefore, AI-generated submissions are not permitted and will be treated as plagiarism.

AI is an amazing tool and can be a powerful reference and resource; however, it should be used as a reference/resource only. Passing another person or entity's work off as your own is dishonest and can also prevent you from properly learning the material you should in this course. Therefore, using AI to compose/create your assignments for you will not be tolerated. Assignments in which the professor suspects

the majority was composed by AI will receive a zero. If a student receives a zero, the student may resubmit the work, revised in their own writing for half credit. The following are acceptable ways to use AI in this course but a citation must be provided to give credit to the AI program used: providing you an example answer to a question (put answer into your own words), give you a template or provide you a format to follow, assist with wording difficult concepts (then put into your own words for your assignment), researching topics to give you additional information or other viewpoints on a topic, or ideas for lesson activities.

Notice

Changes in the course syllabus, procedure, assignments, and schedule may be made at the discretion of the instructor. Teaching is about being responsive to student needs, as such, the topic dates may change as there may be more or less time needed for particular concepts. However, assignment due dates will not be moved up.

Ideas and opinions expressed in course materials are those of the respective authors and do not imply endorsement by the professor or university.

MSU-TEXAS Policies and Procedures and Dates:

Refer to: [Academic Calendar](#) for all deadlines.

Scientific data shows that being fully vaccinated is the most effective way to prevent and slow the spread of COVID-19 and has the greatest probability of avoiding serious illness if infected in all age groups. Although MSU Texas is not mandating vaccinations in compliance with Governor Abbott's executive orders, we highly encourage eligible members of our community to get a vaccination. If you have questions or concerns about the vaccine, please contact your primary care physician or health care professional. Given the recent rise in cases, individuals are also strongly encouraged to wear facial coverings when indoors among groups of people, regardless of vaccination status. Although MSU Texas is not currently requiring facial coverings, they have been an effective strategy in slowing the spread.
