Instructor Class Policies

Classroom Climate

Students are expected to assist in maintaining a classroom environment which is conducive to learning. Inappropriate behavior in the D2L online classroom or in the face-to-face classroom shall result, minimally, in a request to drop the class and/or a Professional Fitness Form will be filed for review with the college. If the instructor must file a Fitness Alert Form for any reason, including failure to demonstrate appropriate classroom behaviors, the student may receive an instructor drop with an "F" for the course.

An instructor may drop a student any time during the semester for failure to participate, for consistently failing to meet class assignments, for an indifferent attitude, or for disruptive conduct. The instructor must give the student a verbal or written warning prior to dropping the student from the class. An instructor's drop of a student takes precedence over the student-initiated course drop of a later date. The instructor will assign a grade of either WF or F through the first 8 weeks of a long semester, the first 6 weeks of a 10 week summer term, or the 11th class day of a 4 or 5 week summer term consisting of 20 days. After these periods the grade will be an F. The date the instructor drop form is received in the Office of the Registrar is the official drop date.

Late Work

Assignments are due by 11:59 PM of the date listed on the calendar. Assignments are expected to be turned in by the due date. It is your responsibility to keep up with when assignments are due in the syllabus calendar. *Arrangements must be made at least two days in advance for any exceptions to be given.

Acceptable Use of Artificial Intelligence (AI) Tools:

AI is an amazing tool and can be a powerful reference and resource; however, it should be used as a reference/resource only. Passing another person or entity's work off as your own is dishonest and can also prevent you from properly learning the material you should in this course. Therefore, using AI to compose/create your assignments for you will not be tolerated. Assignments in which the professor suspects the majority was composed by AI will receive a zero. If a student receives a zero, the student may resubmit the work, revised in their own writing for half credit. The following are acceptable ways to use AI in this course but a citation must be provided to give credit to the AI program used such as providing you an example answer to a question (put answer into your own words), give you a template or provide you a format to follow, assist with wording difficult concepts (then put into your own words for your assignment), researching topics to give you additional information or other viewpoints on a topic, and/or ideas for lesson activities.
