

Course Syllabus: Data Structures and ADT
Department of Computer Science,
McCoy College of Science, Mathematics & Engineering
CMPS 1063 Section 101
Spring 2026 January 20 - May 16, 2026

Contact Information

Instructor: Lopamudra Roychoudhuri, PhD
Office: Bolin 124D
Office hours: MTWRF 2:00-3:00 pm
Office phone: (940) 397-4191
E-mail: Lopamudra.roychoudhuri@msutexas.edu
Classroom: Bolin 103
Class Times: TR 11:00 am – 12:50 pm

Course Description

A continuation of the development of a disciplined approach to the design, coding, debugging, and testing of programs. Introduction to data structures, abstract data types (ADT), recursion, and algorithm analysis using a high-level language.

Course Prerequisites

Minimum grade of C in CMPS 1044, and MATH 1233 or MATH 1534.

Student Learning Objectives

At the conclusion of this course, students should be able to:

1. Analyze the requirements of a problem,
2. Apply “software engineering” approaches, such as data abstraction and object-oriented concepts, to design and implement computer programs,
3. Understand and use pointers and strings effectively,
4. Identify and use appropriate data structures, such as linked lists, stacks, and queues,
5. Identify and use appropriate search and/or sort algorithms.

Textbook & Instructional Materials

Starting Out with C++ Early Objects, 10th Edition, Gaddis, Walters, Muganda, Pearson © 2020
Paperback: ISBN-13: 9780135235003. Follow this [link](#).
Loose-leaf: ISBN-13: 9780135241004. Follow this [link](#).
eBook Rental: ISBN-13: 9780138314484. Follow this [link](#).

Software: Microsoft Visual Studio - an Integrated Development Environment (IDE) to write, compile, run, debug and test programs in various languages, such as C++, C# and Visual Basic. We will use Visual Studio to write, compile and test our C++ programs.

- Available on the machines in the classroom lab.
- You can download the Community edition free of cost from visualstudio.com.

More information will follow when class starts.

Please bring a zip drive of at least 16GB to class. We will save all our class assignments in it.

Computer Science Tutoring

Tutors are available to assist with CS classes. A tutor may assist with programs and homework for computer science classes. We will also have a graduate assistant who will be able to help you answering your questions. More details will follow. A tutor may assist with programs and homework for computer science classes. *The tutor will not do your work.* NOTE: Any tutor who is also in this class, may not assist with programs and homework. You must seek out a different tutor. There is general tutoring at the Office of Tutoring and Academic Support Programs (TASP) in Moffett Library. Please see the [TASP](#) web page for schedules and availability.

Grading

Table 1: Course Grade

Grading Criteria	Dates	Weights	Objectives Assessed
Programming Assignments	Daily/Weekly	30%	1-5
Quizzes	Daily/Weekly	20%	1-5
Exam 1	Tue 3/3/26	15%	1-2
Exam 2	Tue 4/14/26	15%	3-4
Final Exam	Tue 5/12/26 1:00-3:00 pm	20%	4-5

Table 2: Grading Criteria

Grade	Percentage
A	90 or above
B	80 to 89
C	70 to 79
D	60 to 69
F	Less than 60

Table 3: Tentative Course Schedule

Week	Starting	Topics
1	1/19	Module 1: Review of CMPS 1044 (CS I)
2	1/26	Module 2: Abstract Data Types, Classes, and Structs (Chapter 7)
3	2/2	Module 2: cont.
4	2/9	Module 3: Recursion (Chapter 14)
5	2/16	Module 3: cont.
6	2/23	Module 4: Pointers and reference parameters (Chapter 10)
7	3/2	Exam 1 on 3/3; Module 4 cont.: Strings (Chapter 12)
	3/9	
8	3/16	Module 5: Linked Lists (Chapter 18)
9	3/23	Module 5: cont.
10	3/30	Module 6: Data structures - stacks and queues (Chapter 19)
11	4/6	Module 6: cont.
12	4/13	Exam 2 on 4/14; Module 7: Search and sort algorithms
13	4/20	Module 7: Search and sort algorithms cont., algorithm complexity analysis – (Chapter 9)
14	4/27	Module 7: cont.
15	5/4	TBD
16	5/11	Final Exam on Tue 5/12 1:00-3:00 pm

Class Policies

Flipped Classroom

Readings from the textbook and/or other sources and videos will be announced prior to class sessions. You will complete reading and watching these videos before class. We will work on many kinds of assignments in class based on this material.

Assignments

These fall in two categories.

Quizzes: We will work on quizzes that will validate the readings. The grade from the quizzes will constitute 10% of the total grade.

Programming Assignments: The purpose of the assignments is to give you individual practice on the topics that you are learning, and to explore some ideas more deeply. The grade from the programming assignments will constitute 40% of the total grade.

Exams

There will be three exams. *All students must take all the exams at the scheduled times.*

For planned absences: Exam may be taken early by prior arrangement.

For unplanned absences: Students need a valid university excuse (e.g., excuse from the doctor, death in the immediate family, etc.). The lowest or missed exam will be replaced with the next lowest non-final exam grade. All other missed exams will receive a zero.

The final exam must be taken on its assigned date and time.

General Policies

Computer Requirements

Taking this class requires you to have access to a computer (with Internet access) to access online course material. Personal computer technical difficulties will not be considered a reason for extra time to submit assignments, tests, or online discussion postings. Computers are available on campus in various areas of the buildings. There is also a computer lab in Clark Student Center that is open 24/7, and a lab in Moffett Library that is open during library hours.

Contact your instructor immediately upon having computer trouble. If you have technical difficulties in the course, there is also a student helpdesk available to you. The university cannot work directly on student computers due to both liability and resource limitations, however they are able to help you get connected to our online services. For help, log into D2L.

Desire-to-Learn (D2L)

Extensive use of the MSU D2L program is a part of this course. Each student is expected to be familiar with this program as it provides a primary source of communication regarding assignments, examination materials, and general course information. You can log into [D2L](#) through the MSU Homepage. If you experience difficulties, please contact the technicians listed for the program or contact your instructor.

Assignment Submission Policy

All assignments, unless otherwise specified, must be submitted to D2L containing the student's name, course name, the title of the assignment, the due date and the date the assignment was turned in. *No e-mail or in-person submission is accepted.*

No late assignment will be accepted. There are no exceptions to this rule.

Attendance Policy

Attendance will be taken each day. **Anyone missing more than 25% of classes will get an automatic F.** Attendance will be taken within the first 10 minutes of class. A student will be marked absent if not there when roll is taken. If a student is absent more than 2 classes without an excuse and is not performing well in class, a report will be submitted to the Dean of Students and the student may be dropped from the class. Classes will not be streamed for absent students, whether it is excused or not.

Behavior in the classroom

Students are to assist in maintaining a classroom environment that is conducive to learning. This means that the presence of electronic devices other than your laptop are not to be seen, heard, or implied, ever. Questions are encouraged and discussion is acceptable, provided it is pertinent and does not distract from the lesson.

Policy on Testing Process

The Department of Computer Science has adopted the following policy related to testing.

- All bags, purses, electronics (turned off), books, etc. will be placed in the front of the room during exams, or in an area designated by the instructor.
- Unless otherwise announced by the instructor, nothing is allowed on the desk but pen/pencil/eraser and test papers.
- A student who leaves the room during an exam must turn in the test and will not be allowed to return.

Academic Misconduct Policy & Procedures

Academic misconduct is cheating, collusion, and plagiarism: it is the act of using either published or unpublished source material of other students, persons, or generative AI (unless there are instructions that allow it) that do not follow accepted techniques of crediting. The Department of Computer Science has adopted the following policy related to academic misconduct. The policy will be applied to all submission of work for credit as determined by the instructor of the course, e.g., assignments, quizzes, and exams. (See below for link to MSU definitions.)

- 1st instance of cheating in the program: The student will be assigned a non-replaceable grade of zero for the assignment, project, or exam. If the final grade in the course does not result in a one letter grade reduction, the student will receive a one letter grade reduction in course.
- Further instances of cheating in any course within the program: The student will receive a grade of F in the course & be removed from the course.
- All instances of cheating will be reported to the Department Chair, the MCOSME Dean, the Dean of Graduate Students, if a graduate student, and the Office of Rights and Responsibilities, who may decide at their own discretion to impose a stiffer sanction based on knowledge of other instances of cheating at MSU Texas.

Note: Letting a student look at your work is collusion and is academic misconduct!

Also see [MSU Student Handbook](#): page 66: Academic Dishonesty Policy & Procedures.

University Policies and Procedures

Change of Schedule

A student dropping a course (but not withdrawing from the University) within the first 12 class days of a regular semester is eligible for a 100% refund of applicable tuition and fees. Dates are published in the Schedule of Classes each semester. See Important Dates section below.

Refund and Repayment Policy

A student who withdraws or is administratively withdrawn from Midwestern State University (MSU) may be eligible to receive a refund for all or a portion of the tuition, fees and room/board charges that were paid to MSU for the semester. HOWEVER, if the student received financial aid

(federal/state/institutional grants, loans and/or scholarships), all or a portion of the refund may be returned to the financial aid programs. Two formulas (federal and state) exist in determining the amount of the refund. (Examples of each refund calculation will be made available upon request).

Student with Disabilities

Any student who, because of a disability, may require special arrangements in order to meet the course requirements should contact the instructor as soon as possible. Students should present appropriate verification from Disability Support Office during the instructor's office hours. Please note instructors are not allowed to provide classroom accommodations to a student until appropriate verification has been provided. For additional information, contact the Disability Support Office in Clark Student Center 168 - Phone: (940) 397-4140. For more details, please go to [Disability Support Services](#).

Policy on Concealed Handguns on Campus

Senate Bill 11 passed by the 84th Texas Legislature allows licensed handgun holders to carry concealed handguns on campus, effective August 1, 2016. Please note, open carry of handguns, whether licensed or not, and the carrying of all other firearms, whether open or concealed, are prohibited on campus. Areas excluded from concealed carry are appropriately marked, in accordance with state law. For more information regarding campus carry, please refer to the University's webpage at [MSU Campus Carry Policy](#). If you have questions or concerns, please contact Interim MSU Chief of Police at steven.callarman@msutexas.edu.

Recording of Class Lectures

Permission must be requested in writing and obtained from the instructor before recording of class lectures. If permission is granted, the recording may only be used by the student making the recording. Recordings (or any class materials) may NOT be posted on any internet source without written permission of the instructor. Failure to adhere to the policy may result in removal from the course with a grade of F or other appropriate punishment.

Midterm Progress Report

In order to help students keep track of their progress toward course objectives, the instructor for this class will provide a Midterm Progress Report for all students in the course. Midterm grades will not be reported on the students' transcript; nor will they be calculated in the cumulative GPA. They simply give students an idea of where they stand at the midpoint of the semester. Students earning below a C at the midway point should a) schedule a meeting with the professor and b) Seek out tutoring.

Inclement Weather

In the event of a university closure due to bad weather, please check your email and D2L announcement to find out what your assignment will be. I will not conduct an online lecture, but I will most likely expect out-of-class work.

Important Dates

Visit [MSU important dates](#) from the Registrar's website.

Grade Appeal Process

Students who wish to appeal a grade should consult the Midwestern State University [Undergraduate Catalog](#).

Notice

Changes in the course syllabus, procedure, assignments, and schedule may be made at the discretion of the instructor.
