Course Requirements

Lectures are for enrolled students only. Permission to post any audio/visual recording of the instructor on social media (e.g., tiktok, YouTube) IS NOT granted and a violation of the instructor's privacy. Any student caught posting a video(s) of the instructor will be dropped from the course and receive a grade of "F." In addition, the behavior will be reported to the proper university authorities for discipline.

Grades will be based on your performance, 4 exams, 9 Assignments, and a research requirement.

(200 points-50 points each) Each **exam** will be worth 50 points. Tests will be multiple choice and taken online. I reserve the right to add essay questions at any point during the semester.

Note: Exams will be taken in D2L and open for 24 hours. Students who do not have access to a computer/tablet and/or internet at home can take the exam at the Clark Student Center computer lab or the first floor Dillard computer lab. Lack of access to a computer/tablet and/or internet is not an excuse for failing to take an exam. Questions will be randomly chosen from the test bank. Each exam will last 60 minutes, only one test question will show on the screen, but you will be able to go back and see past questions.

(90 Points) Personal Application Assignments- Answer **2** or more personal application questions from the textbook at the end of each chapter. Will be submitted in D2L as word documents.

(30 Points) Participation- Students are expected to be present and show active listening skills. Attendance will be taken **6** times randomly throughout the semester. Each will be worth **5** points.

(30 points) Research Requirement-It is important that students of scientific psychology learn firsthand something about the scientific nature of the discipline. Therefore, all students in PSYC 1103 and 2203 are required to participate in one of the two following research-related exercises. **The deadline for completing the research requirement is 2 weeks before finals week.**

1. Participate in one or more psychology research projects totaling at least 90 minutes. Research opportunities will be announced throughout the semester in postings that appear at <https://msutexas.edu/academics/libarts/psychology/undergraduate-research.php>

OR

2. Complete a research ethics essay. Participating students will read academic writings addressing research ethics. Following this, students will complete a 3-4 page double-spaced, typed summary and review of the information they read. Tables, figures, pictures do not count toward the minimum page requirement. **Essays must be submitted no later than the second to last week of class.**
-

(15 Points) Assessment for Empirical and Quantitative Skills-15 items over research methods, sampling, and correlation vs causation. Core requirement for the State of Texas. Students will complete this independent quiz after reading Chapter 2.

(25 Points) In-class ethics assessment-written assessment. Core requirement for the State of Texas. A key aspect of Psychological Research is the ethical treatment of participants. Although research ethics are strongly emphasized by modern psychologists, early studies sometimes crossed ethical lines, exposing participants to risks that would be considered unacceptable today. For this assignment, you will choose one famous psychological study that raised ethical concerns and analyze it using the following guidelines. You have 50 minutes to answer this question and in your essay you should:

1. Provide an overview of the study
 - a. What questions were the researchers trying to answer?
 - b. Who were the participants?
 - c. What were the procedures
 - d. Summarize the key findings
2. Analyze the ethics based on APA standards
 - a. Identify which ethical principles or standards were most relevant
 - b. Discuss any specific ethical concerns raised by the study
 - c. Clearly explain how the study violated these guidelines
3. Impact on Modern Psychological Research
 - a. How did this study influence ethical practices in modern psychology?
 - b. How would this study need to be redesigned today to meet ethical expectations?

390 points are possible and grade ranges are as follows:

A = 390-351
B = 350-312
C = 311-273
D = 272-234
F = 233 or lower

By enrolling in this course, the student expressly grants MSU a 'limited right' in all intellectual property created by the student for the purpose of this course. Note

Note: Students with disability must be registered with Disability Support Services before accommodations can be provided. Individuals requiring special accommodation should contact me and must provide documentation by Disability Support Services. The Director of Disability Support Services serves as the ADA Coordinator and may be contacted at (940) 397-4140, TDD (940) 397-4515, or 3410 Taft Blvd., Clark Student Center 168.

Americans with Disabilities Act

Midwestern State University does not discriminate on the basis of an individual's disability and complies with Section 504 and Public Law 101-336 (Americans with Disabilities Act) in its admissions, accessibility, treatment and employment of individuals in its programs and activities.

A copy of the ADA Compliance Document is available online at [disability faq](#). It is the responsibility of the student to inform the instructor of any disabling condition that will require modifications. Students who require special accommodations must register with Disability Support Services before these accommodations can be provided. An Accommodation Request Form can be obtained at [Accommodation Request](#).

Computer Requirements

Taking a modern class requires you to have access to a computer (with Internet access) to complete tests and/or upload assignments. It is your responsibility to have (or have access to) a working computer in this class.

Assignments and tests are due by the due date, and personal computer technical difficulties will not be considered reason for the instructor to allow students extra time to submit assignments, tests, or discussion postings. Computers are available on campus in various areas of the buildings as well as the Academic Success Center. **Your computer being down is not an excuse for missing a deadline!!** There are many places to access your class! Our online classes can be accessed from any computer in the world which is connected to the internet. Contact your instructor immediately upon having computer trouble. If you have technical difficulties in the course, there is also a student helpdesk available to you. The college cannot work directly on student computers due to both

liability and resource limitations; however, they are able to help you get connected to our online services. For help, log into [D2L](#).

Desire-to-Learn (D2L)

Extensive use of the MSU D2L program is a part of this course. Each student is expected to be familiar with this program as it provides a primary source of communication regarding assignments, examination materials, and general course information. You can log into [D2L](#) through the MSU Homepage. If you experience difficulties, please contact the technicians listed for the program or contact your instructor.

- a. Brightspace (maker of D2L) has tutorials available on YouTube. Please go to [Brightspace YouTube](#) for additional help.

Your exams require the LockDown Browser and a Webcam. Most of the time you will not encounter any problems, however, listed below are some common issues.

1. Make sure you have the most recent version of the [LockDown Browser](#) on your computer. You can install the latest version here: <https://msutexas.edu/distance/lockdown-browser.php>
2. The most common issue is the loss of connection during the test. If you get a blank page or a spinning wheel, you will need to exit the test, close the browser, and re-enter the test.
3. If you are taking this test at home, it is best that no other device is being used that requires the Internet while you are taking the test.
4. **Chromebook Laptops are NOT compatible with the LockDown Browser**, so you will need to locate a different device. If you have the ability to come to campus, the LockDown Browser is on the computers in the Clark Student Center lab and the first floor Dillard lab. **Note:** There are no cameras on these computers, you will need to bring your own webcam or check one out from the Library.

If you need assistance with issues, please use the Report a Problem link at the top of this page or email d2lhelp@msutexas.edu.

Always let your Instructor know that you've had a technical difficulty and have reached out to us.

Please be aware of:

1. The LockDown Browser flags problematic behavior like going off camera, talking, or even being back lit. The instructor gets an alert. All moderate and high alert notifications result in the video being watched for evidence of academic dishonesty. Please don't sit with a lamp or bright light behind you as the camera has a hard time reading your face.
2. Please do not take an exam with anyone else present. If you are in an MSU computer lab, we understand that other people may be around. Please don't have conversations with them until after you complete the exam.

3. The **environment scans are not acceptable in many cases.**
Students are to show the room including the desk/table top and the wall behind the computer. Students who fail to properly scan the environment are watched very closely. Any behavior that appears like a person is looking at notes or another device may be reported as academic dishonesty.

Student Code of Conduct

MWSU's official policy in the University's Code of Student Conduct on page 52, states:

Instructor Drop: An instructor may drop a student any time during the semester for excessive absences, for consistently failing to meet class assignments, for an indifferent attitude, or for disruptive conduct. The instructor must give the student a verbal or written warning prior to dropping the student from the class. An instructor's drop of a student takes precedence over the student-initiated course drop of a later date. The instructor will assign a grade of either WF or F through the first 9 weeks of a long semester, the first 6 weeks of a 10-week summer term, or the 12th class day of a 4- or 5-week summer term consisting of 20 days. After these periods, the grade will be an F. The date the instructor drop form is received in the Office of the Registrar as the official drop date. A student dropped from a class by a faculty member for disruptive behavior has the right of appeal to the Student Conduct Committee through the Student Conduct office.

Midwestern State University Student Honor Creed

"As an MSU Student, I pledge not to lie, cheat, steal, or help anyone else do so."

As students at MSU, we recognize that any great society must be composed of empowered, responsible citizens. We also recognize universities play an important role in helping mold these responsible citizens. We believe students themselves play an important part in developing responsible citizenship by maintaining a community where integrity and honorable character are the norm, not the exception.

Thus, We, the Students of Midwestern State University, resolve to uphold the honor of the University by affirming our commitment to complete academic honesty. We resolve not only to be honest but also to hold our peers accountable for complete honesty in all university matters.

We consider it dishonest to ask for, give, or receive help in examinations or quizzes, to use any unauthorized material in examinations, or to present, as one's own, work or ideas which are not entirely one's own. We recognize that any instructor has the right to expect that all student work is honest, original work. We accept and acknowledge that responsibility for lying, cheating, stealing, plagiarism, and other forms of academic dishonesty fundamentally rests within each individual student.

We expect of ourselves academic integrity, personal professionalism, and ethical character. We appreciate steps taken by University officials to protect

the honor of the University against any who would disgrace the MSU student body by violating the spirit of this creed.

Written and adopted by the 2002-2003 MSU Student Senate.

By enrolling in this course, the student expressly grants MSU a 'limited right' in all intellectual property created by the student for the purpose of this course. The 'limited right' shall include but shall not be limited to the right to reproduce the student's work product in order to verify originality and authenticity, and educational purposes.
