Academic Misconduct Policy & Procedures

Academic Dishonesty: Cheating, collusion, and plagiarism (the act of using source material of other persons, either published or unpublished, without

following the accepted techniques of crediting, or the submission for credit of work not the individual's to whom credit is given). Additional guidelines on procedures in these matters may be found in the Office of Student Conduct. [Office of Student Conduct](#)

Since writing, analytical, and critical thinking skills are part of the learning outcomes of this course, all writing assignments should be prepared by the student. Developing strong competencies in this area will prepare you for a competitive workplace.

Generative AI Disclosure

You will be **required to disclose information** about your AI-generator use in the following situations:

- If you use an AI-generator to help you brainstorm, come up with an outline, or summarize a concept for you, you must acknowledge that use in a statement at the end of your work.
- If you use text that was created by an AI-generator within your essay, you must acknowledge the AI-generator as the source of that text within your work just as you would any other source.

Students who fail to disclose the use of AI tools but whose work contains marked similarities with text created by AI generators will be required to meet with Dr. Lindt. If it's determined that the student over-used AI text in the submission without properly citing it and/or disclosing its use, the student will have all subsequent work monitored by Dr. Lindt.

If you did use a GenAI, your statement needs to contain the following information, which includes your interactions with (prompts and responses) the LLMs you use (you can copy and paste what's below and address the pertinent parts):

- GenAI program(s) used and reason for using that (those) program(s)
- Explanation of how GenAI was used; responses may address
 - Summarizing readings or other content.
 - Brainstorming ideas, or testing out ideas (a sounding board).
 - Sharpening up lengthy sentences or passages so your intentions are clearer or more concise.
 - Having it generate text to help you refine your position.
 - Getting it to prompt you and ask you follow up questions to help develop your thinking.
 - Asking questions.
 - Having it check your grammar and citations.
 - Soliciting feedback on what you wrote; as a test reader: Is x content doing what you want it to do? Use with caution since many LLMs use the content you uploaded for further training.
- In what ways was the algorithm helpful?

- In what ways was the algorithm's output flat, homogenized, or otherwise not representing your voice, language(s), etc.
- What would you do differently when prompting next time? Here, you can consider why the LLM wasn't as helpful as you'd hoped.
- **Include ALL inputs and outputs used (your prompts and the GenAI's responses).**
