

Course Syllabus: Advanced Computer Architecture
Department of Computer Science,
McCoy College of Science, Mathematics & Engineering
CMPS 5133 Section 101
Fall 2026 August 24 - December 12, 2026

Contact Information

Instructor: Lopamudra Roychoudhuri, PhD
Office: Bolin 124D
Office hours: MWF 12:30-1:30 pm; TR 11:00-12:00 pm.
Office phone: (940) 397-4191
E-mail: Lopamudra.roychoudhuri@msutexas.edu
Classroom: Bolin 324
Class Times: MW 2:00-3:20 pm

Course Description

A study of the organization and interconnection of components of computer system. Emphasis is given to the study of the instruction set and performance analysis of different computer architectures. Also included is the study of memory management, virtual memory, pipeline, parallel and multicore architectures.

Course Prerequisites

Minimum grade of C in CMPS 2084 Computer Architecture.

Student Learning Objectives

At the conclusion of this course, students should be able to:

1. Discuss the basic concepts of computer architecture and the evolution of computer systems,
2. Describe instructions sets and addressing modes,
3. Discuss memory related concepts, such as memory hierarchy, cache memory and virtual memory,
4. Discuss advanced Central Processing Unit concepts, such as pipelining and Reduced Instruction Sets,
5. Conduct hands-on experiments with microcontroller systems,
6. Describe various techniques of parallel processing, such as Superscalar Processors and multicore computers.

Textbook & Instructional Materials

Required: William Stallings, Computer Organization and Architecture, 11th Edition, Pearson, 2019. *You may also get the 10th edition of this book, but 11th edition is highly recommended.*
Rental+Hardcover: ISBN-13: 9780134997193 – [link](#).
Pearson+ eBook subscription – Single: ISBN-13: 9780135205129 - [link](#).

Grading

Table 1: Course Grade

Grading Criteria	Dates	Weights	Objectives Assessed
Homework Assignments	Daily/Weekly	35%	1-6
Quizzes	Daily/Weekly	15%	1-6
Short Presentations	Occasionally	5%	1-6
Midterm Exam	Mon 10/12/26	20%	1-3
Final Exam	Wed 12/9/26 5:45-7:45 pm	25%	3-6

Table 2: Grading Criteria

Grade	Percentage
A	90 or above
B	80 to 89
C	70 to 79
D	60 to 69
F	Less than 60

Table 3 Tentative Course Schedule

Week	Starting	Topics
1	8/24	Module 1: Basic Concepts - Computer Evolution (Ch. 1);
2	8/31	Module 1: Team presentations on Computer Architecture topics;
3	9/7	Module 1: Basic Concepts cont. - Top-level View (Ch. 3); Team presentations cont.
4	9/14	Module 2: Number systems (Ch. 10), Computer Arithmetic (Chapter 11);
5	9/21	Module 2: cont.
6	9/28	Module 3: Instruction Sets - Characteristics and Functions (Ch. 13);
7	10/5	Module 3: Instruction Sets cont. - Addressing Modes and Formats (Ch. 14)
8	10/12	Midterm Exam on 10/12 ; Module 4: Memory -Memory Hierarchy (Ch. 4)
9	10/19	Module 4: cont. - Cache Memory (Ch. 5)
10	10/26	Module 5: Operating System Support - Virtual Memory (Ch. 9)
11	11/2	Module 6: Central Processing Unit - Processor Structure and Function - Pipelining (Chapter 16)
12	11/9	Module 6: CPU cont. - Reduced Instruction Set (Ch. 17)
13	11/16	Module 7: Discussion on Microcontrollers, experiments with Arduino
14	11/23	Module 8: Parallel Organization - Instruction Level Parallelism and Superscalar Processors (Chapter 18)
15	11/30	Module 8: Parallel Organization cont. - Parallel Processing (Ch. 20)
16	12/7	Final Exam on Wed 12/9 5:45-7:45 pm

Class Policies

Flipped Classroom

Readings from the textbook and/or other sources will be announced prior to class sessions. You will complete reading before class.

Assignments

These fall in three categories.

Quizzes: We will work on quizzes that will validate the readings. The grade from the quizzes will constitute 10% of the total grade.

Short Presentations: You may research on announced topics and present your findings. You will also submit a PowerPoint presentation. The grade from the presentation assignments will constitute 10% of the total grade.

Homework: The purpose of the homework assignments is to give you individual out-of-class practice on the topics that you are learning, and to explore some ideas more deeply. The grade from the homework assignments will constitute 30% of the total grade.

Exams

There will be two exams. All students must take both exams at the scheduled times.

For planned absences: Exam may be taken early by prior arrangement.

For unplanned absences: Students need a valid university excuse (e.g., excuse from the doctor, death in the immediate family, etc.).

The final exam must be taken on its assigned date and time.

General Policies

Computer Requirements

Taking this class requires you to have access to a computer (with Internet access) to access course material. Personal computer technical difficulties will not be considered a reason for extra time submitting assignments, tests, or online discussion postings. Computers are available on campus in various areas of the buildings, as well as the Academic Success Center. Contact your instructor immediately after having computer trouble. If you have technical difficulties in the course, there is also a student help desk available to you. The university cannot work directly on student computers due to both liability and resource limitations; however, they are able to help you get connected to our online services. For help, log into D2L.

Desire-to-Learn (D2L)

Extensive use of the MSU D2L program is a part of this course. Each student is expected to be familiar with this program as it provides a primary source of communication regarding assignments, examination materials, and general course information. You can log into [D2L](#) through the MSU Homepage. If you experience difficulties, please contact the technicians listed for the program or contact your instructor.

Assignment Submission Policy

All assignments, unless otherwise specified, must be submitted to D2L containing the student's name, course name, the title of the assignment, the due date and the date the assignment was turned in. *No e-mail or in-person submission is accepted.*

No late assignment will be accepted. There are no exceptions to this rule.

Attendance Policy

Attendance will be taken each day. **Anyone missing more than 25% of classes will get an automatic F.** *Attendance will be taken within the first 10 minutes of class. A student will be marked absent if not there when roll is taken.* If a student is absent more than 2 classes without an excuse and is not performing well in class, a report will be submitted to the Dean of Students and the student may be dropped from the class. Classes will not be streamed for absent students, whether it is excused or not.

Behavior in the classroom

Students are to assist in maintaining a classroom environment that is conducive to learning. This means that the presence of electronic devices other than your calculator are not to be seen,

heard, or implied, ever. Questions are encouraged and discussion is acceptable, provided it is pertinent and does not distract from the lesson.

Policy on Testing Process

The Department of Computer Science has adopted the following policy related to testing.

- All bags, purses, electronics (turned off), books, etc. will be placed in the front of the room during exams, or in an area designated by the instructor.
- Unless otherwise announced by the instructor, nothing is allowed on the desk but pen/pencil/eraser and test papers.
- A student who leaves the room during an exam must turn in the test and will not be allowed to return.

Academic Misconduct Policy & Procedures

Academic misconduct is cheating, collusion, and plagiarism: it is the act of using either published or unpublished source material of other students, persons, or generative AI (unless there are instructions that allow it) that do not follow accepted techniques of crediting. The Department of Computer Science has adopted the following policy related to academic misconduct. The policy will be applied to all submission of work for credit as determined by the instructor of the course, e.g., assignments, quizzes, and exams. (See below for link to MSU definitions.)

- 1st instance of cheating in the program: The student will be assigned a non-replaceable grade of zero for the assignment, project, or exam. If the final grade in the course does not result in a one letter grade reduction, the student will receive a one letter grade reduction in course.
- Further instances of cheating in any course within the program: The student will receive a grade of F in the course & be removed from the course.
- All instances of cheating will be reported to the Department Chair, the MCOSME Dean, the Dean of Graduate Students, if a graduate student, and the Office of Rights and Responsibilities, who may decide at their own discretion to impose a stiffer sanction based on knowledge of other instances of cheating at MSU Texas.

Note: Letting a student look at your work is collusion and is academic misconduct!

Also see [MSU Student Handbook](#): page 66: Academic Dishonesty Policy & Procedures.

University Policies and Procedures

Change of Schedule

A student dropping a course (but not withdrawing from the University) within the first 12 class days of a regular semester is eligible for a 100% refund of applicable tuition and fees. Dates are published in the Schedule of Classes each semester.

Refund and Repayment Policy

A student who withdraws or is administratively withdrawn from Midwestern State University (MSU) may be eligible to receive a refund for all or a portion of the tuition, fees and room/board charges that were paid to MSU for the semester. HOWEVER, if the student received financial aid (federal/state/institutional grants, loans and/or scholarships), all or a portion of the refund may be returned to the financial aid programs. Two formulas (federal and state) exists in determining the amount of the refund. (Examples of each refund calculation will be made available upon request).

Services for Students with Disabilities

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Midwestern State University endeavors to make reasonable accommodations to ensure equal opportunity for qualified persons with disabilities to participate in all educational, social, and recreational programs and activities. After notification of acceptance, students requiring accommodation should make application for such assistance through Disability Support Services, located in the Student Wellness Center, (940) 397-4140.

Current documentation of disability will be required in order to provide appropriate services, and each request will be individually reviewed. For more details, please go to [Disability Support Services](#).

Policy on Concealed Handguns on Campus

Senate Bill 11 passed by the 84th Texas Legislature allows licensed handgun holders to carry concealed handguns on campus, effective August 1, 2016. Please note, open carry of handguns, whether licensed or not, and the carrying of all other firearms, whether open or concealed, are prohibited on campus. Areas excluded from concealed carry are appropriately marked, in accordance with state law. For more information regarding campus carry, please refer to the University's webpage at [MSU Campus Carry Policy](#). If you have questions or concerns, please contact Interim MSU Chief of Police at steven.callarman@msutexas.edu.

Recording of Class Lectures

Permission must be requested in writing and obtained from the instructor before recording of class lectures. If permission is granted, the recording may only be used by the student making the recording. Recordings (or any class materials) may NOT be posted on any internet source without written permission of the instructor. Failure to adhere to the policy may result in removal from the course with a grade of F or other appropriate punishment.

Midterm Progress Report

In order to help students keep track of their progress toward course objectives, the instructor for this class will provide a Midterm Progress Report for all students in the course. Midterm grades will not be reported on the students' transcript; nor will they be calculated in the cumulative GPA. They simply give students an idea of where they stand at the midpoint of the semester. Students earning below a C at the midway point should a) schedule a meeting with the professor and b) Seek out tutoring.

Important Dates

Visit [MSU important dates](#) from the Registrar's website.

Grade Appeal Process

Students who wish to appeal a grade should consult the Midwestern State University [Graduate Catalog](#).

Notice

Changes in the course syllabus, procedure, assignments, and schedule may be made at the discretion of the instructor.
