Homework

Personal Application Assignments- Answer **2** or more personal application questions from the textbook at the end of each chapter. Will be submitted in D2L as word documents.

Quizzes

Assessment for Empirical and Quantitative Skills-15 items over research methods, sampling, and correlation vs causation. Core requirement for the State of Texas. Students will complete this independent quiz after reading Chapter 2.

Exams

Each **exam** will be worth 50 points. Tests will be multiple choice and taken online. I reserve the right to add essay questions at any point during the semester.

Note: Exams will be taken in D2L and open for 24 hours. Students who do not have access to a computer/tablet and/or internet at home can take the exam at the Clark Student Center computer lab or the first floor Dillard computer lab. Lack of access to a computer/tablet and/or internet is not an excuse for failing to take an exam. Questions will be randomly chosen from the test bank. Each exam will last 60 minutes, only one test question will show on the screen, but you will be able to go back and see past questions.

Research Participation

Research Requirement-It is important that students of scientific psychology learn firsthand something about the scientific nature of the discipline. Therefore, all students in PSYC 1103 and 2203 are required to participate in one of the two following research-related exercises. **The deadline for completing the research requirement is 2 weeks before finals week.**

1. Participate in one or more psychology research projects totaling at least 90 minutes. Research opportunities will be announced throughout the semester in postings that appear at <https://msutexas.edu/academics/libarts/psychology/undergraduate-research.php>

OR

2. Complete alternative 4-page paper assignment. See me for details.

Ethics Paper

Core requirement for the State of Texas. A key aspect of Psychological Research is the ethical treatment of participants. Although research ethics are strongly emphasized by modern psychologists, early studies sometimes crossed ethical lines, exposing participants to risks that would be considered unacceptable today. For this assignment, you will choose one famous psychological study that raised ethical concerns and analyze it using the following guidelines. You have 50 minutes to answer this question and in your essay you should:

1. Provide an overview of the study
 - a. What questions were the researchers trying to answer?
 - b. Who were the participants?
 - c. What were the procedures
 - d. Summarize the key findings
2. Analyze the ethics based on APA standards
 - a. Identify which ethical principles or standards were most relevant
 - b. Discuss any specific ethical concerns raised by the study
 - c. Clearly explain how the study violated these guidelines
3. Impact on Modern Psychological Research
 - a. How did this study influence ethical practices in modern psychology?
 - b. How would this study need to be redesigned today to meet ethical expectations?

Late Work

Late assignments will be accepted with a 5-point deduction for each day they are submitted past the deadline, unless prior arrangements have been made with the instructor.

Make Up Work/Tests

Missed exams will be made up during the last week of class and will be docked one letter grade, unless prior arrangements have been made.

It is your responsibility to have (or have access to) a working computer in this class. ****Assignments and tests are due by the due date, and personal computer technical difficulties will not be considered reason for the instructor to allow students extra time to submit assignments, tests, or discussion postings.*** Computers are available on campus in various areas of the buildings as well as the Academic Success Center. ****Your computer being down is not an excuse for missing a deadline!!*** There are many places to access your class! Our online classes can be accessed from any computer in the world which is connected to the internet. Contact your instructor immediately upon having computer trouble. If you have technical difficulties in the course, there is also a

student helpdesk available to you. The college cannot work directly on student computers due to both liability and resource limitations however they are able to help you get connected to our online services. For help, log into [D2L](#).
