

Dillard College of Business Administration

Syllabus: Macroeconomic Principles

ECON 2333 Sections 101

Fall 2020

Tuesday and Thursday: 8:00 am – 9:20 am

Dillard Building 101

Contact Information:

Instructor: Dr. Sanchari Choudhury

Office: Dillard Building 220

Office Hours: Tuesday 9:30 am - 11:30 am (virtual),
Wednesday 10 am – 11 am (virtual), and
Thursday 9:30 am – 11:30 am (virtual), or,
By appointment, or,
Email me at any “reasonable” time as I am almost “always” available via email.

Phone: 940.397.4834

Email: sanchari.choudhury@msutexas.edu

Text:

Mankiw, N. Gregory, *Principles of Macroeconomics*, 9th Edition, Cengage Learning. (*Required*)

You may choose between buying a hardcover and renting a print book or just accessing e-book through Cengage. You also have the option of accessing e-book **and** additional resources to enhance your own learning like videos and practice questions through MindTap (instructions to register for that is provided on D2L). Or you may prefer to sign up for Cengage Unlimited to access **all** Cengage products if they are being used in other courses as well besides this. Refer to the link below to see all the options mentioned above: <https://www.cengage.com/c/principles-of-macroeconomics-9e-mankiw/9780357133491PF/>.

Course Description:

This is an introductory course to macroeconomics. This specific branch of economics focuses on studying an economy as a whole, that is, in the aggregate. This includes learning about how and why an economy grows, why recessions occur, what are the causes and consequences of inflation and unemployment, and international trade.

Course Prerequisites:

MATH 1203 (Mathematical Analysis for Business) or MATH 1233 (College Algebra)

Learning Goals:

The general objective of this course is to help students understand fundamental macroeconomic concepts like comparative advantage, opportunity cost, Gross Domestic Product, inflation, unemployment rate, real vs nominal values, fiscal vs monetary policies, etc. Additionally, this course will help students to relate and apply macroeconomic concepts to real life issues.

A. General Learning Goals:

1. Critical thinking and problem solving: Students will demonstrate their critical and problem-solving abilities by applying principles of macroeconomic theory to the solution of problems in homework, quizzes, and exams, or when engaging in class discussions.
2. Communication skills: Students will demonstrate their communication abilities by effectively communicating their interpretations of the applications of macroeconomic theory and policies.
3. Ethical decision makers: Students will demonstrate their ethical reasoning skills when analyzing applications of macroeconomic principles to cases that are related to regional, national, and/or global economic issues.
4. Global/multicultural understanding: Students will demonstrate their understanding of the importance of global factors in the performance of US and other foreign economies.

These general learning goals represent or are related to those established by the Dillard College of Business Administration. The goals represent the skills that graduates will carry with them into their careers. While assessing student performance in obtaining these general learning goals, the College seeks to assess its programs. The assessments will assist us as we improve our curriculum and curriculum delivery.

B. Course Specific Learning Goals:

- Understand the role of an economist and her objectives
- Learn the fundamental macroeconomic indicators
- Understand the meaning of production, growth, savings, investment, and unemployment
- Learn about money, banking, and financial institutions in the US
- Gather basic knowledge about international trade and investments
- Understand various macroeconomic policies including fiscal and monetary

Teaching Method:

This is a face to face class starting on August 25, 2020 and ending on December 12, 2020 as per the 2020-21 academic calendar. Course material will be presented in class through lectures and discussions. Students are highly encouraged to participate on a regular basis and ask question at any point of time. In addition to this, power-point slides on each chapter will be uploaded on D2L to *assist* your learning at home and when preparing for exams and doing assignments. However, reading the textbook (mentioned earlier) is **mandatory** to understand every concept thoroughly and perform well in the course. I will conduct virtual office hours every week (mentioned above) through D2L to answer any question or concern that you may have. You can also reach out to me anytime during the week - besides the designated office hours - through email if stuck with a concept.

You are expected to regularly check D2L for homework assignments and any other announcements pertaining to this class. (See the tentative course schedule below).

Course Policies:

A. Attendance Policy:

Attending class is absolutely mandatory unless you receive my prior approval for missing a class for **compelling reasons**. All-important announcements pertaining to this course (like homework assignments, exam due date, exam format, etc.) will be made in class. Over and above, every course material is explained and discussed in detail in class. So, failure to attend class will invariably impact your learning process and performance in this course in a negative way.

In addition to the above, attendance will be checked through assignment submissions. Missing four assignments from 08/22/2020 to 10/26/2020 will be considered excessive. Students who reach this level of missed assignments will be automatically dropped with a grade of “F” given the university attendance policy. In addition to this, missing six assignments during the semester is also excessive; students who reach this level of missed assignments will get a final grade of “F” given the university attendance policy. You may find this information in the Student Handbook and Activities Calendar at [Handbook](#). Also note, classroom is not a substitute for day care facility. Hence, you cannot attend a class with a child and if you still choose to do so, you will be asked to leave immediately and counted as absent.

Lastly, you are expected to settle down in the classroom at least a minute prior to the beginning of the class. No late entry will be allowed because once the class starts, the door will be locked from inside. Entering class late and leaving before time are not allowed unless my prior approval is taken for some compelling reasons. You are also not supposed to walk in and out of the class while the lecture is on (that disturbs both your instructor as well as your classmates, so be respectful to all).

B. Other Course Related Policies

Academic Integrity:

As for academic honesty, students must follow the “Student Honor Creed” presented in the [Student Handbook of MSU TX](#) and failure to do so will call for sanctions.

Also, since all your assignments will be conducted through D2L, academic integrity is applicable in this case as well. If I learn of students sharing the quiz/assignment contents in any way, that’s a breach of academic integrity on all parties' part. Please don’t do that, as I don’t want to give everyone involved a 0 for the assignments (and potentially an F for the course).

Americans with Disability Act:

Any student who, because of a disability, may require special arrangements in order to meet the requirements of this course should contact the instructor as soon as possible to make necessary arrangements. Students must present appropriate verification from the University’s Disability Support Services (DSS) office to the instructor over email or virtual office hours. Please note that instructors are not allowed to provide any accommodations to a student on the basis of disability until appropriate verification from DSS has been provided by the student. (See the

section on “Disability Support Services” in the Student Handbook for reference).

Campus Carry Policy

Senate Bill 11 passed by the 84th Texas Legislature allows licensed handgun holders to carry concealed handguns on campus, effective August 1, 2016. Areas excluded from concealed carry are appropriately marked, in accordance with state law. For more information regarding campus carry, please refer to the University’s webpage at [campus handgun policy](#).

Dillard Building Classroom Policy:

No food or drink is allowed in the classroom. The only exception is **bottled water** provided the cap is left on when it is not used in the classrooms.

Syllabus Change Policy:

This syllabus is a guide for the course and is subject to change with an advanced notice.

Correspondence:

All email correspondence must be conducted using your Midwestern State University (MSU) email only. I will not respond to any question sent from any other email account. It is highly recommended that you regularly monitor your both MSU email account and that of D2L. For your own convenience, I suggest that you link your D2L emails with your MSU email account such that any incoming message to D2L account will get automatically forwarded to your MSU email account. Note, grades will be posted on D2L and on MSU Banner and not sent over email.

Technical Support:

I, as your instructor for an economics class, can only make sure that all the course materials are in working order but beyond that, I cannot provide any technical support to a student’s hardware/software problems. For problems related to D2L, a student is recommended to contact [MSU Distance Education](#).

Late Submissions:

For homework assignments, I highly recommend students to **not** wait for the last minute to make their submissions. Since all your assignments and discussions and exams will be through D2L, we are heavily dependent on technology that may decide to abandon us at a crucial moment. Therefore, start working on assignments in advance. Any late submission needs to get a prior permission from myself and will automatically incur a penalty of ten points unless provided with a compelling reason for the same.

For exams, no make-up exam will be allowed unless a student requests for my approval in advance *and* for compelling reasons. If you miss an exam unexcused, you receive a zero and there is absolutely **no** exception to this policy.

Lastly, if you have any questions or concerns about your grades, bring that to my attention within one week of the homework/exam graded.

Monitoring of Exams:

All exams will be taken on D2L that will require Respondus Lockdown Browser and Webcam monitoring. So, every student is expected to have access to a webcam from the beginning of the semester. However, these monitoring tools are **not** compatible with Chromebook Laptop, Phones and Tablets. iPad can be used but you need to allow it in the setup. Contact [MSU Distance Education](#) to get proper instructions to execute this.

Classroom Decorum:

You don't need laptop in class unless you are more comfortable in taking notes there instead of using pen and paper (even though the latter is recommended since a lot of graphs and diagrams will be drawn on the white board while lecturing).

Usage of cell phone or any other device is strictly prohibited in class. If a student is caught to do so, he/she will be prompted to leave the class immediately. All electronic devices must be kept away and muted.

Covid-19 Policies:

Students must wear facemasks covering both **mouth and nose** while in the Dillard Building at all times. We will maintain at least 6' social distancing at all times in the classroom. If you have concerns about being in a classroom, speak with me to make appropriate arrangements ASAP. If you are feeling ill (no matter how minor), please do NOT attend the physical classroom session and instead attend class via the Zoom live stream. I plan to live stream every class session, so while you should notify me, if feasible, about any absence in advance as a professional courtesy, the live stream should be available even without advance coordination.

Grading and Evaluation Measures:

Exams: There will altogether be three mid-term exams, each of equal weight (20% each). So, note, 60% of your final grade depends on your performance in the exams. Exams may include both multiple choice and open-ended questions.

Homework assignments: There will altogether be 18 homework assignments, each based on one chapter at a time. These assignments will together contribute to 30% of your final grade. Homework assignments may have both multiple choice and open-ended questions. Each homework may have 20-50 questions in total.

Discussions: Additionally, there will be three discussions on latest news articles or research letters, directly corresponding to the macroeconomic theories and concepts that you are learning in this class. These discussions will account for 10% of the final grade.

Every student is expected to be in touch with me throughout the semester regarding their performances and grades to avoid any semester end "surprises."

Grading Scale:

A = 90-100%

B = 80-89%

C = 70-79%

D = 60-69%

F = <60%

Class Schedule:

First day of class: August 25 (Tuesday)

No class/office hours: September 7 (Monday) - Labor Day

November 24 (Tuesday) – Nov 29 (Sunday) – Thanksgiving

Last day of class: December 3 (Thursday)

Last day for “W”: December 4 (Friday) by 4 pm (drops after this will receive “F”)

Exam I: Sept 25 (Friday) (*tentative*)

Exam II: Oct 30 (Friday) (*tentative*)

Exam III: Dec 10 (Thursday) at 8 am

Course Schedule (*tentative*)

ECON 2333

Section 101

Fall 2020

Weekly Modules	Chapters	Assignments
Week 1 (Aug 22 - 28)	Go through syllabus thoroughly 1 (Ten Principles of Economics)	HW 1 due Aug 28 (Friday)
Week 2 (Aug 29 - Sept 4)	2 (Thinking Like an Economist) 3 (Gains from Trade)	HW 2 and HW 3 due Sept 4 (Friday)
Week 3 (Sept 5 - 11)	4 (Demand and Supply)	HW 4 due Sept 11 (Friday)
Week 4 (Sept 12 - 18)	6 (Government Policies) 9 (International Trade)	HW 5 and HW 6 due Sept 18 (Friday)
Week 5 (Sep 19 - 25)	Review, Exam 1 on Chaps 1-2-3-4-6-9, Discussion 1	Exam 1 and Discussion 1 due Sept 25 (Friday)
Week 6 (Sep 26 – Oct 2)	10 (National Income)	HW 7 due Oct 2 (Friday)
Week 7 (Oct 3 - 9)	11 (Cost of Living)	HW 8 due Oct 9 (Friday)
Week 8 (Oct 10 - 16)	18 (Basic Concepts of Open Economy) 19 (Macroeconomic Theory for Open Economy)	HW 9 and HW 10 due Oct 16 (Friday)
Week 9 (Oct 17 - 23)	12 (Production and Growth)	HW 11 and HW 12 due Oct

	13 (Savings and Investment)	23 (Friday)
Week 10 (Oct 24 - 30)	Review, Exam 2 on Chaps 10-11-18-19-12-13, Discussion 2	Exam 2 and Discussion 2 due Oct 30 (Friday)
Week 11 (Oct 31 - Nov 6)	14 (Basic Tools of Finance) 15 (Unemployment)	HW 13 and HW 14 due Nov 6 (Friday)
Week 12 (Nov 7 - 13)	16 (Monetary System) 17 (Money Growth and Inflation)	HW 15 and HW 16 due Nov 13 (Friday)
Week 13 (Nov 14 - 20)	20 (Aggregate Demand and Aggregate Supply)	HW 17 due Nov 20 (Friday)
Week 14 (Nov 21 - 29)	Thanksgiving Holiday	
Week 15 (Nov 30 - Dec 4)	21 (Monetary and Fiscal Policies), Review	HW 18 due Dec 4 (Friday)
Week 16 (Dec 5 - 11)	Exam 3 on Chaps 14-15-16-17-20-21, Discussion 3	Due December 10 (Thursday)
