Discussion Answer Guidelines

13 Discussions will be completed in D2L (One for each Chapter). Each discussion will consist of two or more questions from the Chapter.

Be sure to meet ALL the minimum requirements if you would like to earn an "A" on your discussions.

Discussion answers for EACH question must be a MINIMUM of 50 words. This is only the minimum. If you only complete the minimum, you are unlikely to receive full credit for the discussion. Thus, more than 50 words is highly encouraged.

Discussion answers must be posted (typed or pasted) directly to the discussion forum. If you prefer to type your answers in Microsoft Word, you must copy and paste your answers from Word to the Discussion Forum. Do not upload a Microsoft Word Document as you would an attachment in an email. If you do not post directly to the forum you will not receive any credit for the discussion.

Your initial post must include your Discussion answers. You cannot see your classmates' posts until after you have posted your own answers.

A good discussion answer offers insight that goes beyond simply restating a few sentences directly from your textbook. **In order to receive full credit for any given discussion you must provide a substantial comment/reply to at least 1 of your classmates' discussion posts for that week.** This will help you gain a more thorough understanding of the content. Make an effort to expand the dialogue by reflecting on the topic with your thoughts, opinions, experiences, etc. The idea is to answer the questions in a manner that fosters

discussion amongst your class mates. Replies such as "Good job!! I completely agree with your answer" are not substantial.
 The most important element of a good Discussion answer is that it specifically addresses all parts of the questions at hand.
 See the "Calendar" for Discussion Due Dates/End Dates. Late submissions will receive a score of ZERO...no exceptions.
