

BIOL 1234-201: Anatomy and Physiology II

Midwestern State University, Spring 2022

Description

An overview of the structure and function of the human body. This course covers the endocrine, cardiovascular, respiratory, lymphatic, immune, urinary, digestive and reproductive systems.

This course meets the general education requirement for a science course in the core curriculum. It is not intended for Biology majors or minors.

A pre-requisite "C" or better in A&P I and concurrent enrollment in a lab section is required for enrollment in this course.

Section Details and Instructor Information

Your section meets on: TR at 8:00 – 9:20 a.m.

Location: Bolin, Room 100

Contact Information:

Instructor: Mrs. Jeanel Georges Insalaco

Office: Bolin Science Hall Room 307C

Phone: (940) 397-4023

Email: jeanel.insalaco@msutexas.edu

Office Hours: MWF: 9 am – 11 am; TR: 9:30-11:30 am; or by appointment

Office hours may be held via Zoom: <https://msutexas-edu.zoom.us/j/8697142289>;

Zoom ID: 869 714 2289. If you prefer to come to my office please wear a mask to reduce the risk of community spread of the Covid-19 virus.

Required Materials

BIOL 1234 201 is included in the Courseware Access & Affordability Program at MSU Texas. What does this mean?

1. Your materials will be available the first day of class, for all students in your class. To access your materials, please log into D2L and navigate to your course.
2. The charges for this material have been posted to your student account at the Business Office. If you want to "opt out" of this program and the cost savings, you will receive the "opt out" instructions in your my.msutexas.edu email on the second day of class.
3. The cost of your materials charged to your acct. is:
COSM Electronic Courseware \$43.75
Tax \$ 3.61
Comparable pricing at bookstore: \$221.00
Publisher's website: \$135.00

If you have any questions or need assistance, please feel free to contact us over at the MSU Bookstore (940) 397-4303.

For Lecture:

- **Required:** Anatomy and Physiology: Unity of Form and Function, 9 e by Saladin and McFarland, ISBN 9781264349227. This provides access to the eBook and SmartBook: as well as lab simulations and virtual dissections.
- **Required:** A computer with internet access
- For those who prefer a physical textbook you may purchase a Loose Leaf – ISBN: 9781264260744
- Four Scantron sheets for in-class lecture exams (can be purchased in the bookstore)

This course uses Desire-to-Learn (D2L) extensively.

Each student is expected to be familiar with D2L as it will be a primary source of communication regarding assignments, exam materials, and general course information. You can log into [D2L](#) through the MSU Homepage. If you experience difficulties, please contact MSU's technical support department by phone at 940-397-4278, or by email at helpdesk@msutexas.edu.

For technical support for Connect:

Phone: (800) 331-5094

Online: Submit a Support Request

Chat: Chat with a Representative

Evaluation Procedures**How your grade will be calculated**

In lecture, 80% of your average will come from 4 equally weighted exam grades, 15% of your lecture grade will come from weekly Smartbook assignments and 5 % from your participation. Smartbook is an adaptive learning tool that you access via the McGraw Hill Connect link on the D2L homepage. You get full points for completing the assignments. Participation will be assessed by the percentage of the uploaded lecture PowerPoints/videos that you review weekly.

At the end of the semester, the lecture and lab components of this course will be combined into a single weighted average, with 75% of the final grade coming from lecture, and the remaining 25% coming from lab.

Lecture and lab grades will be determined as follows.

| | |
|---|-----------|
| A | 90-100% |
| B | 80-89% |
| C | 70-79% |
| D | 60-69% |
| F | below 60% |

| Item in Lab | % of Lab Grade |
|--------------------|----------------|
| Lab quizzes | 30 |
| Poster project | 10 |
| Lab midterm | 30 |
| Lab final | 30 |
| | |

| Item in Lecture | % of Lecture Grade |
|------------------------|--------------------|
| Lecture exam average | 80% |
| Connect Smartbook | 15% |
| Participation | 5% |

| Overall Course Grade | % of Overall Course Grade |
|-----------------------------|---------------------------|
| Lecture average | 75% |
| Lab average | 25% |

Note: Final grades are rounded to the NEAREST whole number (0.5 rounds up, 0.4 rounds down). Grades will NOT be curved (adjusted) for students close to a cut-off between letter grades. A grade of C or better is required to enroll in BIOL 1234 Anatomy & Physiology II (see University catalog).

More about exams

- There will be four multiple-choice exams in the lecture part of this course. Exams will require a Scantron sheet, which students must bring to the exam. They can be purchased in packs of four at the MSU bookstore. If an exam must be taken online Lockdown Browser and Respondus monitor will be used. You will need a webcam.
- Exams will be based off of material covered in the lectures.
- **No exam grades will be dropped.**

If you are late to an exam

If you are late to an in-class exam but no one has turned in a completed exam yet, you have the remaining exam time to take your test. If a student has already turned in the exam, you must schedule a make-up test (see below for “missed exams”).

About missed exams

A make-up exam will only be allowed at the instructor’s discretion and if the student contacts the instructor during business hours **before** or, in the case of unforeseen circumstances, the same day that the exam was originally scheduled.

If a make-up exam is granted, it must be taken during the instructor’s available office hours, no later than the next business day after the originally scheduled exam.

Failure to contact the instructor within the accepted time, inability to take the exam during the instructor’s available office hours or failure to show up for the arranged appointment will result in a zero for that exam.

The make-up exam may not be the same as the original exam and will most likely be in essay or short-answer format.

Integrity is expected from all students.

If a student is suspected of cheating, he/she may receive a zero for that assignment. The student may also be dropped from the course and/or ultimately be reported to the Dean of students for academic dishonesty.

Any action suspicious of cheating, attempting to cheat, or helping someone cheat on an exam (such as but not limited to looking on someone else’s paper, using notes, having a cell phone or any electronic device out during an exam, or recording or communicating exam content to other students) will result in termination of your exam and a grade of zero. If I can see any kind of electronic device (such as a cell phone) during an exam, regardless of what you are using it for, this may also result in automatic termination of and a zero on your exam.

For more information about the University Academic Misconduct Policy, see the [2020-2021 MSU Student Handbook](#), Appendix E, “Academic Dishonesty Policies and Procedures”

Frequently asked questions about grades:

How do I know what my grades are?

- Lecture grades will be posted on the lecture D2L page
- Lab averages will be updated in D2L after the midterm and final exams.

How do I calculate my overall course grade so far?

- $[(\text{lecture average so far}) \times (0.75)] + [(\text{lab average so far}) \times (0.25)] = \text{Course Grade}$

Will you round my average?

- I will only round averages in instances where the average would normally and mathematically round up to the next number (such as in instances of 0.5 and higher). For example, an average of 89.5 will round to a 90.

Is there any extra credit I can do?

- **No.** Generally, I find that extra credit is unfair to students and discourages hard work from the start if students think they can make easy points with extra credit assignments. If you cannot complete the material assigned for credit then you will not be able to do extra work.

Attendance Policy

You are expected to attend classes. If you are experiencing illness or any signs/symptoms of Covid-19 DO NOT attend class and contact me as soon as possible to make alternate arrangements.

A student may request to limit or eliminate their physical class attendance due to an underlying condition through the Disability Support Services.

In general

The only absences that are counted as excused by MSU are those required for MSU organizations or events. All other absences are deemed as excused or unexcused at the instructor's discretion.

The student is responsible for all material, announcements, reminders, and changes to the syllabus (should they occur) discussed in class whether or not you were present.

In lecture

While attendance in lecture will be recorded it will not be used in calculating your grade.

However, excessive absences may result in you being instructor-dropped from the course particularly if you are at risk of failing the course. I will contact you by email before I do this.

Lab attendance

Attendance will be measured based on completion of lab quizzes and lab activities. **More than two unexcused absences in lab** can result in an F in the course or removal from the course.

Devices in Class

Cell phones

You may use your phone as a tool to access or record lectures notes or otherwise understand current lecture material and to participate in classroom activities as directed by the instructor. However, most students use cell phones in class to check social media, chat, or multitask in other ways. Please minimize distractions for the people around you by keeping your phone on silent and reducing the amount of time that you have an active, lit up screen where others can see it.

If your cell phone is visible during an exam for any reason (including to checking the time), your exam will be terminated and you will receive a zero for the exam with no opportunity to make up the grade.

Laptops/Tablets

You may use a laptop to take notes, however, be aware that most students who use laptops in class tend to multitask. Research indicates that “multitasking” during class (texting, using social media, play games, etc.), increases study time and lowers grades. Before multitasking, ask yourself if it can wait. It’s your education, your choice.

Please be mindful that the students around you will be distracted by what is on your screen if you are multi-tasking. Minimize this problem by sitting where the fewest students will be distracted by what you’re doing.

Relevant University Policies

Students with Disabilities

If you have a disability that requires an accommodation, I am glad to work with you. To arrange for the necessary accommodations, please contact the Disability Support Service in Room 168 of Clark Student Center (940) 397-4140.

About Campus Carry at MSU

Senate Bill 11 passed by the 84th Texas Legislature allows licensed handgun holders to carry concealed handguns on campus, effective August 1, 2016. Areas excluded from concealed carry are appropriately marked, in accordance with state law. For more information regarding campus carry, please refer to the University’s webpage at <https://msutexas.edu/campus-carry/rules-policies>.
